Energy Code TRAINING

Do you have questions or concerns regarding the recent updates to **SECTION SPS 322 OF WISCONSIN'S RESIDENTIAL ENERGY CODE?**

Join us for an in-person training session* with Joe Nagan, Technical Director of Focus on Energy's New Homes Program. Joe, an acclaimed residential building science expert, will help builders and energy raters navigate the ins and outs of Wisconsin's new energy code.

At the training, you will learn:

- The most cost-effective method of demonstrating energy code compliance
- About an alternative software to use in place of REScheck
- How to receive a $2,000 federal tax credit for each home you build
- How to receive up to $1,600 from Focus on Energy for each home you build
- How to receive up to $3,050 from Focus on Energy for installing renewable energy systems

*Dwelling Contractor Qualifier Continuing Education Credits pending approval. More information coming soon.

These trainings are offered by Focus on Energy, Wisconsin's statewide energy efficiency program, in conjunction with the Wisconsin Builders Association and the Wisconsin Department of Safety and Professional Services. Light refreshments will be provided.
