DIVISION OF PROFESSIONAL CREDENTIAL PROCESSING

LIST OF APPROVED EDUCATIONAL COURSES FOR REAL ESTATE APPRAISERS

This is a list of current providers and approved courses in real estate appraisal as of July 2003. If you have previously completed a course from a provider not on this list, please contact the Department to determine its status.

Credit toward the course requirement may be granted only if the length of the educational course is at least 15 hours of instruction and the individual successfully completes an examination pertinent to that course. Credit shall be granted for educational courses regardless of when the courses were completed. For purposes of evaluation one semester credit at a college, university or technical college shall be the equivalent of 15 hours of instruction.

All applicants for a real estate appraiser credential are required to complete at least 15 hours of instruction in the professional standards and code of ethics applicable to appraisers (USPAP). If an applicant has completed a USPAP course acceptable to the given state prior to January 1, 2003, it is not necessary to retake the course. All others must complete the new 15 hour AQB National USPAP course given by AQB certified instructors, and successfully pass the course examination. Check www.appraisalfoundation.org for additional AQB approved offerings and instructors for USPAP.

Refer to page 2 of the application for required course content and hours for the three levels of appraiser credentialing—licensed, certified residential and certified general.

The licensed, certified residential, and certified general programs of study are expected to provide all appraisers with a foundation of knowledge. The courses which satisfy the requirements for appraiser licensure and residential appraiser certification may be acceptable towards satisfying the course work requirement for general appraiser certification.

Courses marked with an asterisk (*) meet the AQB 2008 core curriculum requirements.
