

National Fire Incident Reporting System (NFIRS)

WI Fire Departments with Missing Incidents 2016 Calendar Year

The following 359 fire departments are missing a month or more of reports in the 2016 calendar year. Those 206 departments shaded in **Red** have not yet submitted a single report for the year. If your department didn't have a reportable incident in any given month, perhaps a "No Activity" report should be completed for the month (*see next paragraph*). If you feel the report is in error, please contact us for additional assistance.

For those months when the department has **NO incidents at all for the entire month**, a "No Activity" report can be completed. This allows you to sign-in, keeping your account active, and gives anyone looking the information that there were no incidents to report rather than allowing the thought that a department isn't current in their reporting. (Start an incident report - Key Information; date the incident as the last day of the month; use all 0s (seven zeros) as your incident number so that it doesn't interfere with your numbering sequence; check the box on the far right, No Activity; Save the incident; and close the report). Please remember that a "No Activity" report cannot be used if there is a single incident including Mutual Aid already reported for the month.
