Wisconsin Statutes, Section 101.1435(2), provides the following:

The department may contract with a person registered or certified under s. 101.09(3) to empty, clean, remove, and dispose of an underground petroleum product storage tank system; to assess the site on which the underground petroleum product storage tank system is located; and to backfill the excavation if certain criteria are met.

The following information is required to render a decision:

- The completed PECFA financial statement form (ERS-10774) or comparable financial form.
- The 3 most current years Federal and State tax records. If you no longer file taxes due to age and/or income, please state this fact in a letter addressed to the department.
- A copy of most recent tax bill and deed for the property with contamination.
- By signing this application you agree to let DSPS contract with a person registered or certified under s. 101.09(3) to empty, clean, remove, and dispose of an underground petroleum product storage tank system.
- You agree to let the department record a statement of lien on your property in the amount the department incurs for the cost of the tank removal.

The undersigned claimant is applying for removal of abandoned underground petroleum product storage tanks. The claimant has read the Wisconsin Statutes, Section 101.1435(2) referenced above. The claimant understands that if this application is approved, a lien will be placed on the property on which the petroleum product storage tank system is located and for which the removal of is requested. I assume the responsibility for notifying all current owners about this application.

SECTION 2155. 101.1435 of the statutes is created to read:

101.1435 Removal of abandoned underground petroleum storage tanks. (1) In this section:

(a) "Backfill" does not include landscaping or replacing sidewalk, asphalt, fence, or sod or other vegetation.

(b) "Underground petroleum product storage tank system" has the meaning given in s. 101.143 (1) (i).

(2) The department may contract with a person registered or certified under s. 101.09 (3) to empty, clean, remove, and dispose of an underground petroleum product storage tank system; to assess the site on which the underground petroleum product storage tank system is located; and to backfill the excavation if all of the following apply:

(a) The department determines that the underground petroleum product storage tank system is abandoned.

(b) Using the method that the department uses to determine inability to pay under s. 101.143 (4) (ee), the department determines that the owner of the underground petroleum product storage tank system is unable to pay to empty, clean, remove, and dispose of the underground petroleum product storage tank system; to assess the site on which the underground petroleum product storage tank system is located; and to backfill the excavation.

(3) If the department incurs costs under sub. (2), the department shall record a statement of lien with the register of deeds of the county in which the underground petroleum product storage tank system was located. Upon recording the statement of lien, the department has a lien on the property on which the underground petroleum product storage tank system was located in the amount of the costs incurred. The property remains subject to the lien until that amount is paid in full to the department. The department shall deposit payments received under this subsection into the petroleum inspection fund.

101.143(1)

(i) "Underground petroleum product storage tank system" means an underground storage tank used for storing petroleum products together with any on-site integral piping or dispensing system with at least 10% of its total volume below the surface of the ground.

"Abandoned tank" means an aboveground or underground tank with or without product, that is not recognized by this chapter as in-use, temporarily-out-of-service or closed.
