QUESTION: We are wondering about the duration/frequency of conducting the vac truck events. The bid states "pumping events will be conducted over a period of 12 months". There is no mention of how many events per month, nor the duration of the events (1 day, 2 days, etc.)

Answer: The frequency and duration of pumping events over the 12 month period is up to the discretion of the consultant. The bid was written to pay by the unit of free product removed, with the goal of removing as much free product within that 12 months as is practicable.
