

Questions & Answers
Clarence Jaeger Mobil Station
COMM # 54646-8203-04
BRRTS # 03-29-000664

Please note the following clarification regarding expectations for reporting. By inclusion with the Question & Answers these expectations become part of the bid specification.

The contracted consultant shall provide two additional summary letter reports (in addition to the 12/15/04 and 12/15/05 reports) for a total of four (4) summary reports during this scope of work. One additional summary report should be submitted no later than one month after SVE system shut down (approximately 6/15/04) and an additional summary report should be submitted after the Winter/Spring 2005 free product checks (no later than 4/15/04). Each report shall include updated comprehensive summary tables of sample results and water level measurements. The summary reports shall also include emissions test results and free product remediation including product thickness measurements and amounts (or estimated amount) of product recovered. Reports should be submitted to both Commerce and DNR.
