Tables 2a, through 2d and 3a through 3h are not readable in the copies received. Can legible tables be faxed or posted on the COMM website?

If any tables are not legible please contact me by e-mail and the appropriate tables will be forwarded to you.

Because responses to questions will not be posted until December 21, is it possible for COMM to extend the bid deadline beyond December 29 due to the Christmas holidays?

The bid process maintains a strict timeline and these timelines are planned far in advance so that future bid timelines are met, therefore, bid timelines will not be deviated.

On page 2 of the bid document, it is stated that the UST's, pumps and associated product piping will be removed. What is the timeframe for this?

The removal of the UST's, pumps, and associated product piping will be completed during the remedial process to minimize disturbance. The winning consultant will coordinate the removal of the UST's, pumps and associated piping with the RP.

As a result of the removal of the UST's, pumps and associated product piping, will the owner continue to operate a business at this location?

The owner currently operates a automotive sales business at this location.

Will the existing building at this location be removed during as part of the remedial process?

No, the building will remain. The building is currently being used for automotive sales.

On page 3 of the Site investigation Report are the three UST's listed as installed on 10/1/88 at the location indicted on Figure 2? Is this the same location of the four former UST's that were removed between 1988 and 1989?

The UST's listed as installed on 10/1/88 are identified as "UST Area" in Figure 2 of the Site Investigation Report. This is the same location of the four former UST's that were removed between 1988 and 1989.
