Question: The bid document states "re-development of the site will be taking place before site closure is realized. Development of the site will begin with re-setting grade. In the setting of grade the elevation of several monitoring wells will have to be adjusted to match new grade. Consultant will coordinate activities with the RP and include costs for re-setting the monitoring wells to the new development grades and re-survey final elevations". Are these costs eligible?

Answer: No. The costs to conduct this activity will be absorbed by the responsible party.
