- Questions:
- 1) What are the depths to bedrock in MW10 and MW11?
 - 2) At what depths are MW10 and MW11 screened?
 - 3) What are the depths to water in MW10 and MW11?

ANSWERS: Refer to Figure 7 and Figure 8 in the bid packet at Kinkos. Figure 7 is the geologic cross section B-B' which includes MW11. Figure 8 is the geologic cross section C-C' which includes MW10.

That information would be available in the bid packet. Or, if you prefer, you can review the complete file here at our office on Williamson Street. You can call Wendy Weihemuller to set up an appointment.
