Comm 62.0702 Fire separation distance. Substitute the following definition for the corresponding definition listed in IBC section 702: “Fire separation distance” means the distance measured at right angles from the face of the building wall to one of the following:

- (1) The closest interior lot line.
- (2) To a permanent no-build easement line.
- (3) To the centerline of a street, an alley or a public way.
- (4) To an imaginary line between two buildings on the same property.
