Presenter

James C. Converse
Emeritus Professor
Biological Systems Engineering
University of Wisconsin-Madison

Course Description

This full-day session will cover classroom instruction and field visits of pre-treatment, of treatment systems, and the evaluation and maintenance of systems.

Field Training

The afternoon includes an site tour of several systems including a local sand filter system, a pre-treatment unit, and a high- strength waste treatment system.

Location

University of Wisconsin Event Center
Agricultural Research Station
N695 Hopkins Road
Arlington, Wisconsin

Who Should Attend?

This 7-hour qualifier class meets the educational requirements to apply for the Private Onsite Wastewater Treatment System Maintainer Registration through the Wisconsin Department of Commerce, Safety and Buildings Division.

Also, the course can provide seven hours of continuing education credit for people who currently hold MP, MPRS, JP, JPRS, POWTS Maintainer, POWTS Inspector, and Septage Hauler credentials.

Transportation

Attendees are responsible for their own transportation to the three field sites. These sites are within ten miles of the Arlington Agricultural Research Station.
