Electrical, Plumbing, and UDC revisions adopted

Code revisions to Comm 16, Electrical Code, Comm 20-25, Uniform Dwelling Code, and Comm 81-84, the Plumbing Code, were adopted by the Department of Commerce in late February.

The plumbing and electrical revisions are expected to be in effect May 1, 2003, and the UDC revisions on August 1. The actual dates depend upon legal publishing dates.

Electronic copies of the revisions are on the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-HomePage.html>.

The update of Comm 16 includes the incorporation by reference of the 2002 edition of the National Electrical Code. The revised rules do not contain any revisions to the current rules for electrical inspections. Electrical education is noted on page 8 of this *WCCR*.

The vast majority of the UDC changes are intended to clarify current policies and requirements. There are new requirements proposed for exit distribution on the first floor. The section on adopted standards is reformatted and updated. New requirements are proposed for floor framing and floor overhangs. Various changes are made to the energy conservation requirements in Comm 22, Energy Conservation, to bring Wisconsin requirements in line with the national model energy code.

The plumbing changes are described on page 6 of this *WCCR*.

July 1, *WCCR* free on the Internet, Paper copy subscriptions \$20

In order to reduce expenses, the Safety and Buildings Division as of July 1, 2003 will be offering the *Wisconsin Construction Codes Report* free on the division's Internet WebSite and will be providing paper copies at a \$20 per year subscription rate.

S&B has had the same subscription rate for about a decade and has been posting the *WCCR* on the WebSite since its inception. The WebSite also has an archive of past *WCCRs* and an index of articles, <http://www.commerce.state.wi.us/SB/SB-DivPublications.html>.

The division has been providing free paper copies to about 25 percent of the people for whom S&B provides licenses, certifications, and registrations. That has been costing about \$5000 per month, excluding labor costs. Other people have been paying the subscription price.

Wisconsin Construction Codes Report
The *WCCR* is a monthly publication of the Safety and Buildings Division, Wisconsin Department of Commerce, delivered to about 13,000 readers - people who hold S&B plumbing, POWTS, and fire sprinkler credentials, to local inspectors, and to fire departments. For a year's subscription, send \$20 to S&B Material Orders, PO Box 2509, Madison, 53701. Be sure to provide return mail info and note what you are ordering. *WCCR* on the WebSite -<http://www.commerce.state.wi.us/SB/SB-DivPublications.html>.

UDC, plumbing, and electrical exams will change when revisions go into effect

Credential exam questions this spring and summer will be based on the code version in effect on the day of the exam.

The effective date of recently-adopted revisions to the plumbing, electrical, and one- and two-family dwelling (UDC) codes will influence the exam questions for credential categories in those programs.

UW-Madison POWTS Maintainer- Qualifier class

Thursday, May 1, 2003, all-day
Arlington UW Research Station
Classroom and Field, Fee \$70

Six credit hours for POWTS maintainer-qualifier, and, continuing education credits for inspector, maintainer, soil tester, plumber and septage hauler (DNR) credentials. Brochures available in March.

For more information, contact Jim Peterson, UW Environmental Resources Center, 608 262-3799; Fax 608 262-2031; jopeters@facstaff.wisc.edu
UW-Madison Small Scale Waste Management Project

Current projections for effective dates, which are based on legal publishing by the Revisor of Statutes Office, are May 1 for plumbing and electrical and August 1 for UDC.

May exam dates and locations are May 6 - Wausau, May 13 - Madison, and May 28 - Pewaukee.

The complete list of 2003 credential exams is on the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-CredentialProgram.html>.

For more information on registering for exams, contact S&B's Credential Unit, 608-261-8500, madisoncred@commerce.state.wi.us.

Plumbing code revision classes are offered on page 9

Electrical education classes are described on page 8

You will find the 2003 S&B credential exam schedule on the Internet: <http://www.commerce.state.wi.us/SB/SB-CredentialExams2003.html>

Contact information for plan review

To schedule an appointment (commercial/multifamily buildings or plumbing):

- S&B WebSite: <http://www.commerce.state.wi.us/SB/SB-DivScheduling.html>
- FAX: 24 hr. toll-free number for appointment scheduling, 877-840-9172
- E-mail: planschedule@commerce.state.wi.us

For application forms:

- On the S&B WebSite (choose "Forms" on left of screen): <http://www.commerce.state.wi.us/SB/SB-DivForms.html>
- Call any of the offices listed on page 10.

Info about next available review appointment:

- <http://www.commerce.state.wi.us/SB/SB-DivDailyDoc.html>

Info about status of plan review:

- <http://www.commerce.state.wi.us/SB/SB-DivReviewStatusSearch.html>

Pool inspection changes May 1

by S&B Pool Program Manager, Lynita Docken, Ldocken@commerce.state.wi.us, 608-785-9349

Safety and Buildings Division plumbing consultants May 1 will begin providing public swimming pool construction inspections.

The construction inspections had previously been done by the state Department of Health and Family Services. DHFS will continue to license pools and do annual inspections.

Plumbing consultants also will inspect pool code aspects of water slides. DHFS will begin to license slides and will do annual inspections.

Plan review of pools and slides are both done by S&B staff.

Several municipalities have shown interest in providing the construction inspections for pools and may become inspection agents. Training is being planned for any agents and for S&B inspectors.

Because S&B programs are supported by fees, the construction inspections by S&B plumbing consultants will be underwritten by an increase in pool plan review fees.

If you have questions about the inspection programs, contact Harold Stanlick, S&B section chief, 262-521-5065, hstanlick@commerce.state.wi.us.

Delegated Agents

Some municipalities in Wisconsin have authority to do building or fire prevention plan review, inspections, and otherwise carry out code-related functions as delegates of the Department of Commerce. For information and a list of current delegated municipalities, see the S&B WebSite, www.commerce.state.wi.us/SB/SB-CommercialBuildingsCertifiedMunicipalities.html.

Some of the plumbing code revisions described here

by S&B Plumbing Program Manager, Lynita Docken, Ldocken@commerce.state.wi.us, 608-785-9349

Plumbing code revisions are expected to be effective May 1, 2003. What are a few examples of how the plumbing revisions may impact you this construction season?

Plumbing education classes are offered on page 9

- Cross connection control devices and assemblies will be registered with S&B except for health care and related facilities, which must be included in a plan review. 82.20(1)(c), Table 82.20-1 and 82.20(13).

- Alternate standards may be approved if the standards are equivalent to or more stringent than the standards referenced in the code in effect. 82.20(2)

- A pump installer or utility contractor may submit plans for review for projects for which they're responsible. 82.20(4)(c)

- The sizing of horizontal drains and building drains will not be dependent on the number of

water closets, other than the drainage fixture units those water closets represent. Table 82.30-2 and 82.30-3.

- Plan review will be required for all stormwater infiltration systems. The review fee is \$100, in addition to the fee of \$10 per inch of storm sewer and storm private interceptor main sewer. Comm Table 2.64-1.

- Specific requirements for prefabricated sump and pump systems, and exterior sumps, are included in the new code. 82.30(10)(c).

- "Boxing" is allowed for frost protection. 82.30(11)(c)2.

- Where an air-gap or air-break is located above the countertop, the local waste connected to the air-gap or air-break may connect to a branch tailpiece, standpipe, or dishwasher connection of a food waste grinder. 82.33(9)(d)

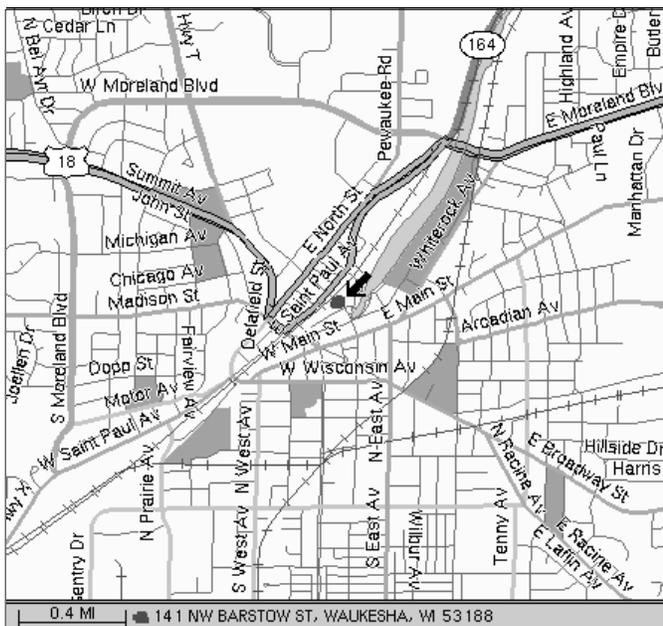

- Garage catch basin design and installation requirements are completely rewritten. 82.34(4)

- Requirements for campgrounds are added to the code. 82.37(3)

- A new section is added to the code for discharge points by specific wastewater types. Table 82.38-1.

- Identification, tagging, and labeling

Spring 2003 Electrical Code Education

Comm 16, 2002 NEC, WCBC, IBC
Safety and Buildings Division

This is an excellent opportunity for education on the relationship of the Wisconsin Electrical Code and the 2002 National Electrical Code to the recent changes in the Wisconsin Commercial Building Code (with adopted International Building Code provisions). There are many items in the building codes that affect the way electricians do their work. You also will learn about other national standards that affect electrical installation. Handouts will be provided. Instructors: Safety and Buildings Electrical Program staff - Monte Ewing, Tom Garvey, Ray Weber, and Joe Hertel.

April 10 ... Eagles Club Marshfield
April 17 ... Comfort Suites/Rock Garden Green Bay
April 22 ... Silver Spring Country Club Menomonee Falls
April 24 ... Howard Johnson/Antiqua Bay ... Wisconsin Dells

Seminar 8 a.m. - 4 p.m.

Master and Journeyman
Electricians, Commercial
Electrical Inspectors

A mailer was sent to people holding S&B electrical certifications which need continuing education. The information is on the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-DivContinuingEducation.html>

Some of the plumbing code revisions described here

continued from page 6

requirements for water supply systems changed.

82.40(3)(d)

- A water service, private water main, building sewer, or private interceptor main sewer may pass through one building to serve another, if the conditions listed in the code are met. 82.40(8)(c) and 82.30(11)(a)

- The complete health care and related facilities code section is rewritten. 82.50

- The complete set of rules on mobile homes and mobile home parks is rewritten. 82.51

- There are performance requirements set for the reuse of water through a plumbing system. Reuse is restricted to stormwater, graywater or clearwater. Blackwater is not permitted to be reused until it's passed through a natural soil treatment system or municipal treatment works. 82.70

- Plan review will be required for water or wastewater treatment systems designed to meet the requirements in Table 82.70-1. This would include stormwater use and wastewater reuse systems.

If you have questions concerning the code revisions, you may attend the courses listed on page 9.

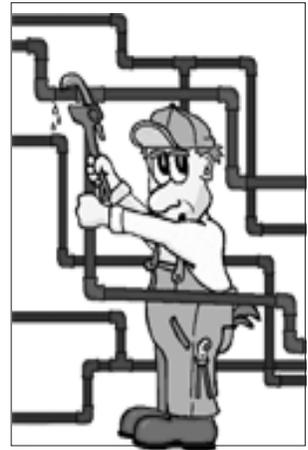

Fire Sprinkler Ed

A 4-day "Inspection, Testing and Maintenance of Water-Based Fire Protection Systems" seminar has been scheduled for May 20-23, 2003, at the Northeast Wisconsin Technical College in Marinette. The program consists of two days of "Plan Review and Inspection," one day of "Fire Pumps," and one day of "Inspection, Testing and Maintenance." For registration information contact Bill Ewing of NWTC, 920- 498-5603.

You may now search S&B computer records for Cross Connection Control Device information. See the plumbing program Web page, <http://www.commerce.state.wi.us/SB/SB-PlumbingProgram.html>

Safety and Buildings Division

Spring Plumbing Continuing Education

The **multipurpose piping system** course will include two hours of introductory material during an evening class, followed by a 6-hour day that will prepare inspectors and installers for the installation of multipurpose systems. Students will learn the fire protection benefits of the multipurpose system, system sizing, sprinkler location requirements and material specification. This course will be acceptable to meet the requirements of Comm 5.91(6)(b)1, which requires an approved course to have responsibility for MPP installations. Bring a calculator and architects scale.

The **exam prep** classes will help prepare students for examinations after the May 1 implementation date of the plumbing code revisions. The emphasis of the training will be on the revisions, although other exam-related issues will be addressed. Subjects include DWV design, POWTS, water distribution sizing, interceptors and catch basins, materials, storm sizing and other code-related subjects. The classes are planned to include a "sample exam" which students could take home for study. Students will receive a copy of the code revisions which has commentary on it. Bring a calculator, architects scale, and engineers scale.

Check the classes you wish to attend.

In the **Stormwater System Design** class, the instructors will lead the student through small site design problems to size piping, detention, and infiltration systems. The in-depth class will prepare the student to submit plans to S&B and to design systems to comply with stormwater management requirements. Bring a calculator and engineers scale.

The **2003 Code Revisions** class is about the Plumbing Code revisions that will be effective about May 1.
