

Structural Loads and Connections

It's that time of year again, when buildings typically experience some of the most severe structural loading conditions of the year, enduring snow and ice loads combined with gusty winds. The winter months are typically a time for structural training for S&B staff, as well as time for reminders to the design community of the importance of and expectations for structural information on building plan review submittals.

An article in the S&B WebSite "Library" talks about:

1. Some of the important structural items required in a complete building plan submittal;
2. The structural chapters of the 2000 Wisconsin Commercial Building "Enrolled" code version, scheduled to take effect on July 01, 2002; and
3. A new plan submittal worksheet that specifically deals with the building or structure's lateral load resisting system(s) and critical connections.

Important Spring Education sessions across Wisconsin

Look inside for dozens of education opportunities!

Deck and balcony sprinklers follow exterior roof requirements

To be considered fully sprinklered, as per NFPA 13, decks and balconies attached to public buildings (including apartment buildings and multifamily dwellings) and places of employment must follow the sprinkler requirements set forth for exterior roofs or canopies.

NFPA 13 5-13.8, Exterior Roofs or Canopies, requires sprinklers to be installed under all exterior roofs or canopies of combustible construction exceeding four feet in width. Sprinklers are required under exterior roofs or canopies, regardless of construction or size, where combustibles are stored and handled. Short-term transient storage, such as that for delivered packages, or the presence of planters, newspaper machines, and so forth, should not be considered storage.

So what does this mean? Decks and balconies

over four feet in width and constructed with combustible materials, must have automatic fire sprinkler protection installed underneath. Decks or balconies constructed with noncombustible materials would not require sprinklers if no combustibles were being stored. Patio furniture, grills and similar items that are ready for use should not be considered storage.

For buildings sprinklered per NFPA 13R, automatic fire sprinklers would not be required for decks or balconies (or for that matter, exterior roofs or canopies) regardless of size and construction, if they are open to the exterior.

For additional information, contact Keith Glauert, 262-548-8604, kglauert@commerce.state.wi.us, or Bill Sullivan, 608-266-9643, wsullivan@commerce.state.wi.us.

Spring 2002 *Wisconsin* Commercial Building Code Education Sessions

Vital information about the substance and structure of the new code going into effect July 1, 2002

Continuing education for Commercial Building Inspectors, Plumbers, Sprinkler Contractors

The Safety and Buildings Division encourages people in all phases of the construction industry to learn about the broadest building code changes in 50 years in our state

The “**Accessibility and Fair Housing**” session will familiarize code users with the accessibility provisions of the *WCBC*, the International Building Code, and national standards. The session will also include information on the newest Wisconsin provisions that match up the *WCBC* with state and federal Fair Housing laws, as well as an update on ADA changes in the near future. 6 hrs con ed for CBI, 2 hrs for MP, MPRA, MPRS, JP. ID # 4883

The “**Multifamily Dwellings**” session looks at *WCBC* impact upon apartment building construction. An overview of the *WCBC* and a guide to code provisions concerning multifamily dwellings of any height. 6 hrs con ed for CBI. ID # 4882

The “**WCBC Overview**” session will describe the structure and logic of the entire code, without getting into the details. It includes the Wisconsin administrative requirements and adopted amendments to the International Building Code, the International Energy Conservation Code, the International Mechanical Code, and the International Fuel Gas Code. 6 hrs con ed for CBI. ID # 4881

The “**Energy and HVAC**” session digs into the *WCBC* requirements that pertain to energy conservation and the mechanical code provisions relating to all types of heating and ventilation systems for commercial buildings. Modifications to the lighting code will be discussed, along with new options and tools for demonstrating building envelope compliance. Also includes detailed info on the International Energy Conservation Code, the International Mechanical Code, the International Fuel Gas Code, and adopted amendments, including the alternative methodologies and worksheets that are familiar to past users of Comm 63. 6 hrs con ed for CBI. ID # 4879

The “**WCBC, Fire Code and Hazard Provisions**” session focuses on the International Building Code, references to the International Fire Code, and on hazardous occupancies. Maneuvering in the new code format and working with references will be considered. Attendees will also be exposed to tools to make this subject clearer. 6 hrs con ed for CBI, 2 hrs for Auto Fire Sprink Cont, Journey Auto Fire Sprink Fit, Auto Fire Sprink Cont-Maint. ID # 4878

The “**Fire Resistance in Commercial Buildings**” session helps users of the *WCBC* understand the importance of fire resistance in commercial building construction. The session includes detailed discussion of how the *WCBC* relies on fire resistive construction to make commercial buildings fire safe, balanced with early warning and suppression systems. This involves IBC chapter 7, including the subtle differences between firewalls, fire barriers, and fire partitions. 6 hrs con ed for CBI, 2 hrs for Auto Fire Sprink Cont, Journey Auto Fire Sprink Fit, Auto Fire Sprink Cont-Maint. ID # 4880.

The “**Structural**” session look at the structural requirements of the *WCBC*, including amendments that streamline the code and make it easier to use. There will be discussion of snow load and wind load provisions and ASCE 7. Seismic provisions of the code will be discussed to help dispel rumors that exist on the subject. 6 hrs con ed for CBI. ID # 4877

“**Health Care Facilities**” looks at the *WCBC* requirements for construction of hospitals and nursing homes, especially alignment with DHFS facility licensure requirements. A health care overview of the entire *WCBC* will aid users in the navigation of the Int. Building Code, the Int. Energy Conservation Code, the Int. Mechanical Code, and the Int. Fuel Gas Code. 6 hrs con ed for CBI. ID # 4876

Registration for Spring 2002 Wisconsin Commercial Building Code Education

Registration must be received by S&B at least one week prior to the class. Seating is limited. One form per person. Confirmations will **not** be sent; you will be contacted only if the session you select is full. **Keep a copy of this form as a reminder of what you registered for.** If you have registration questions, call the S&B Credential Unit, 608-261-8500, or email madisoncred@commerce.state.wi.us. If you have questions on the education topics, contact Jim Smith, 608-266-0251, jsmith@commerce.state.wi.us, or Henry Kosarzycki, 262-548-8615, hkosarzycki@commerce.state.wi.us.

Classes are \$95 each, including materials (Please bring your copy of the new code. See page 6 for code purchase info.). Choose your topics, dates, and locations. Enter \$95 into the blank before the date on which you wish to attend the course. Add down to get a subtotal. Add the subtotals to reach a final total. The check should be made out to "Safety and Buildings Division."

Daily Schedule:
 8-8:30 a.m. registration,
 8:30-11:30 a.m. class,
 11:30-12:30 p.m. lunch
 on your own,
 12:30- 3:30 p.m. class

**Get into

2002 POWTS Spring Training Registration Form

“Evaluating Soils & Conducting Interpretive Determinations”

ID#4871 These seminars offer an opportunity to learn how to apply basic soil information when conducting soil and site evaluations for traditional onsite sewage system installation. They will also provide insight on how to prepare an Interpretive Determination that may be necessary when evaluating a more complex site.

“POWTS Component Manuals for Onsite Sewage System Designs”

ID#4872 These seminars offer an opportunity to become more familiar with some of the POWTS Component Manuals that are used for system design, installation, and inspection. The seminars will address conventional design issues, and pressure distribution. Design examples using component manual specifications and worksheets will be provided.

Each course approved for three hours of S&B Con Ed for
MP, MPRS, JP, JPRS, CST, POWTS I

Check the date and location of the course(s) you wish to attend,
Cost is \$30 per person per 3-hour session:

Get your two-volume set of Comm 61 – 65, Wisconsin’s recently adopted new Commercial Building Code, with relevant provisions of the International Code Council model codes!

The new Wisconsin code goes into effect July 1, 2002. There will be Spring 2002 revisions to the new adopted code, to address historic buildings, fair housing, and deal with cross references from other codes.*

Each set of what is called the “Enrolled Code” costs \$200, including shipping and handling. The enrolled code has all the relevant provisions of the International Building Code, International Energy Conservation, International Mechanical Code, and International Fuel Gas Code, without unneeded text such as seismic maps for California, or climate maps for states other than Wisconsin. Be aware you may purchase

the Wisconsin Commercial Building Code, without the model code provisions, from state Document Sales, 800-362-7253. Then, you can also purchase the national version of the model codes from some model code organizations. Costs in that instance may be greater. Wisconsin administrative codes (but not the model code provisions) are available free online via the Revisor of Statutes’ web site: <http://www.legis.state.wi.us/rsb/code>.

Send check for \$200 per set to the “Safety and Buildings Division,”
Attn: Roberta Ward, PO Box 2689, Madison WI 53701

Personal information you provide may be used for secondary purposes [Privacy Law, s. 1504(1)(m)]

How many sets are you ordering? _____ (\$200 x number = check amount _____)

Company or individual name: _____

Shipping street address: _____

Special Instructions?: _____

City, state, zip: _____

Telephone number _____

Fiscal code 8035

*A code revision package is currently being processed by the Department of Commerce to further enhance the adopted Commercial Building Code, and to change, in other codes, cross references to the building code. The revisions are expected to be adopted and in place when the new code goes into effect July 1, 2000. The revisions are not in the Enrolled Code at this point. The draft revisions are available on the S&B WebSite, <http://www.commerce.state.wi.us/SB/SB-HomePage.html>, or from Roberta Ward, 608-266-8741, rward@commerce.state.wi.us.

Spring 2002 Safety and Buildings Plumbing Continuing Education

Sessions around the state on varying plumbing topics,
presented by S&B's veteran Plumbing Staff

Drain, Waste, and Vent, LIVE

\$30 - Three hours for MP, JP and UDC Plumbing Inspector- I, ID #4875

Have you ever wondered how a code-compliant combination drain and vent system looks? This course will allow you to see the fittings as they are installed and question S&B staff about different drain and vent scenarios. Actual drain and vent installations will be "put together" at this course and questions about how fittings can be installed will be answered. Plan to attend if you're interested in the Wisconsin Plumbing Code options for drain and vent systems.

Checkmark the courses you wish to attend.

Spring 2002 Safety and Buildings Plumbing Continuing Education

Sign up soon to reserve your spot! Improve your knowledge and get your continuing education credits for your next renewal

Multipurpose Piping Systems - Introduction and Detail

Two days - \$150 -12 hours for MP, MPRA, JP, JPRA, UDC Plumbing Inspector, ID #3953

A master plumber who was licensed prior to January 1, 2002 must complete an approved course before being responsible for a plumbing system that includes a multipurpose piping system. Safety and Buildings Division staff offer four courses this spring. The courses are over two days, 12 hours in total length. The instructors will present an introduction to the theory of multipurpose systems and water distribution sizing. The class will learn the code requirements and NFPA 13-D standard for multipurpose systems. Students completing the course will be able to size a multipurpose system and understand installation requirements.

Checkmark the courses you wish to attend.

Multipurpose Piping Systems – Introduction

\$100 Six credit hours for MP, MPRA, JP, JPRA, UDC Plumbing Insp., ID #3953

This course is an introduction to the multipurpose piping system for those who can't or don't want to attend the full multipurpose system course. There will be no multipurpose system sizing in this portion of the course. This is not a course for masters who are responsible for the installation of multipurpose systems. This course can be beneficial for UDC inspectors, journeymen, and apprentices who are interested in learning the basics of the multipurpose system.

Checkmark the courses you wish to attend.

Plan Review Scheduling

For plan review scheduling for Plumbing and Buildings, fax scheduling is your best bet; please fax completed first two pages of plan review submittal forms to 877-840-9172. (Information about the project is needed to schedule the plan review.) You can request the review be scheduled in a specific office or you can schedule the first appropriate plan review available statewide.

Plan review for Private Onsite Wastewater Treatment Systems is provided on a first-come, first-served basis. Contact one of the offices for information.

For info on what scheduling dates are available in each office, see <http://www.commerce.state.wi.us/SB/SB-DailyDoc.html>.

State administrative codes and the code update service may be purchased by contacting state Document Sales, 608-266-3358, or 800-362-7253, for credit card purchases. The codes are available free online via the Revisor of Statutes web site: <http://www.legis.state.wi.us/rsb/code/>

A list of Certified Agent Municipalities is at <http://www.commerce.state.wi.us/SB/SB-CommercialBuildingsCertifiedMunicipalities.html>
