Re: Description: WATER TREATMENT CHEMICAL INJECTION DEVICE
Manufacturer: OZONE PURE WATER, INC
Product Name: OZONE UNIT
Model Number(s): S5:9GPM AND S1:20GPM
Product File No: 20020479

The specifications and/or plans for this plumbing product have been reviewed and determined to be in compliance with chapters Comm 82 through 84, Wisconsin Administrative Code, and Chapters 145 and 160, Wisconsin Statutes.

The Department hereby issues an approval based on the Wisconsin Statutes and the Wisconsin Administrative Code. This approval is valid until the end of December 2008.

This approval supercedes the approval issued on October 9, 1995 under product file number 19930381. This approval is contingent upon compliance with the following stipulation(s):

- If these approved devices are modified or additional assertions of function or performance are made, then this approval shall be considered null and void, unless the change is submitted to the department for review and the approval is reaffirmed.
- For buildings not served by a municipal water supply, Department of Natural Resources (DNR) written approval may be required prior to installation of this product to inject a chemical into a water supply system. For more information contact the DNR Private Water Systems Section, P.O. Box 7921, Madison, WI 53707, telephone (608) 266-3415.
- These devices have undergone sufficient testing to document the device's abilities to properly inject ozone into a water supply system. However, these devices are not approved for the reduction of any specific contaminant, aesthetic or otherwise. This is because no acceptable data has been submitted to support a specific contaminant reduction claim.

Based on testing data submitted to and reviewed by the department, this approval recognizes that these plumbing products will inject ozone into a residential cold water supply. The actual performance of this device for a specific end use installation will vary with local factors such as water pressure, water temperature and water chemistry. The department is in no way endorsing this product or any advertising, and is not responsible for any situation that may result from its use.

Sincerely,

Glen W. Schlueter
