MEDICAL EXAMINING BOARD

CREDENTIALING INFORMATION FOR LOCUM TENENS OR CAMP PHYSICIAN APPLICANTS

IMPORTANT NOTE: Temporary Practice at Camps Per Wis. Stat. § [448.033](#), physicians licensed to practice medicine and surgery in another state or territory of the United States or a Canadian province or territory may practice medicine and surgery to provide treatment to campers and staff for not more than 90 days in any year without holding a license issued under Wis. Stat. ch. 448, Subch. II. See Form [5568](#), Out of State Physician Temporary Camp Practice Notification Form, for details. Form [5568](#) must be submitted prior to practice.

Application for Camp Physician or Locum Tenens

This license is designed for an applicant who holds a valid license to practice medicine and surgery issued by another licensing jurisdiction of the United States or Canada whose services have been requested by a Physician licensed to practice medicine and surgery in this state or by a Camp Organization or other Recreational Facility of this state.

The holder of a Camp Physician or Locum Tenens license may engage in the practice of medicine and surgery providing such practice is confined to the Camp or Recreational Facility, or geographical area for which the license is issued. The Locum Tenens license allows the applicant to temporarily maintain the practice of another Physician including providing emergency room services normally provided by the other Physician. A Camp Physician or Locum Tenens license shall expire 90 days from the date of its issuance and may be renewed for additional periods of 90 days each, but no such license may be renewed more than three (3) consecutive times.

PLEASE PLAN AHEAD:

Applicants, recruiters, institutions, and others involved in the placement of individuals who seek to be credentialed in the state of Wisconsin should understand that the credentialing process takes time, and that credentialing is not guaranteed to any applicant. Factors that determine the length of time it may take to process an application include the length of time the applicant has been in practice, the total number of jurisdictions in which the applicant has been credentialed, and the length of time it takes for supporting documents to be received in the Board office and reviewed.

The application consists of an all-inclusive packet with instructions and information on all applicable requirements. We strive to process applications in a timely fashion. We cannot issue a credential until all of the required documents have been received and reviewed in the Board office.

It is the Department's mission and legislative mandate to provide consumer protection for Wisconsin residents. The Department and the Board have been asked to waive requirements to expedite the process, only to discover legitimate grounds to deny a credential. This can present a serious problem for the applicant, recruiter, or institutions if the applicant has relocated, purchased property, or made other commitments prior to the issuance of a Wisconsin credential. **We urge you not to make these moves until you know that your credential has been issued.** Please "plan ahead" as we cannot speed up the credentialing process or waive supporting documents even in emergency situations.
