CHIROPRACTIC EXAMINING BOARD
Room N208, 4822 Madison Yards Way, Madison
Contact: Tom Ryan (608) 266-2112
November 29, 2018

The following agenda describes the issues that the Board plans to consider at the meeting. At the time of the meeting, items may be removed from the agenda. Please consult the meeting minutes for a record of the actions of the Board.

AGENDA

8:30 A.M.

OPEN SESSION – CALL TO ORDER – ROLL CALL

- A) Adoption of Agenda (1-4)**
- B) Approval of Minutes of August 30, 2018 (5-7)**
- C) Conflicts of Interest**
- D) Administrative Matters**
 - 1) Department and Staff Updates
 - 2) Board Members – Board Member Status
 - a) Scott Bautch – 7/1/2021
 - b) Bryan Gerondale – 7/1/2021
 - c) Jeffrey King – 7/1/2019
 - d) Juli McNeely – 7/1/2021
 - e) Patricia Schumacher – 7/1/2019
 - f) Public Member – Vacant
- E) 8:30 A.M. PUBLIC HEARING: CR 18-071 – Chir 4, Relating to Chiropractic Practice (8)**
 - 1) Review and Respond to Public Comments and Clearinghouse Report (9-18)
- F) Legislative and Administrative Rule Matters – Discussion and Consideration (8)**
 - 1) Review of Draft Rules for Chir 1, 4, 10, and 11, Relating to Delegation of Health Care Services to Health Care Professionals (19-23)
 - 2) Review of Draft Rules for Chir 9, Relating to Chiropractic Preceptorship (24-32)
 - 3) Proposals for Chir 5, Relating to Continuing Education; Chir 6, Relating to Standards of Conduct; and Chir 12, Relating to Nutritional Counseling Certification (33-41)
 - 4) Update on Legislation and Pending and Possible Rulemaking Projects

G) Continuing Education Approval – Discussion and Consideration

- 1) Providers of Approved Continuing Education (PACE) Pre-Approval

H) Speaking Engagements, Travel, or Public Relation Requests, and Reports

- 1) Travel Report: Scott Bautch – 2018 Federation of Chiropractic Licensing Boards (FCLB) District II Regional Meeting on October 11-14, 2018 in Fort Walton Beach, FL

I) Education and Examination Matters – Discussion and Consideration

- 1) International Chiropractic Pediatric Association (ICPA) Request for Review of Continuing Education Course Denial **(42-162)**
- 2) Wisconsin Chiropractic Association (WCA) Request for Approval of Chiropractic Technician Course of Study **(163-173)**

J) Items Added After Preparation of Agenda:

- 1) Introductions, Announcements and Recognition
- 2) Nominations, Elections, and Appointments
- 3) Administrative Matters
- 4) Election of Officers
- 5) Appointment of Liaisons and Alternates
- 6) Delegation of Authorities
- 7) Education and Examination Matters
- 8) Credentialing Matters
- 9) Practice Matters
- 10) Legislative and Administrative Rule Matters
- 11) Preceptor Approvals
- 12) Liaison Reports
- 13) Board Liaison Training and Appointment of Mentors
- 14) Informational Items
- 15) Division of Legal Services and Compliance (DLSC) Matters
- 16) Presentations of Petitions for Summary Suspension
- 17) Petitions for Designation of Hearing Examiner
- 18) Presentation of Proposed Stipulations, Final Decisions and Orders
- 19) Presentation of Proposed Final Decisions and Orders
- 20) Presentation of Interim Orders
- 21) Petitions for Re-Hearing
- 22) Petitions for Assessments
- 23) Petitions to Vacate Orders
- 24) Requests for Disciplinary Proceeding Presentations
- 25) Motions
- 26) Petitions
- 27) Appearances from Requests Received or Renewed
- 28) Speaking Engagements, Travel, or Public Relation Requests, and Reports

K) Future Agenda Items

L) Public Comments

CONVENE TO CLOSED SESSION to deliberate on cases following hearing (§ 19.85 (1) (a), Stats.); to consider licensure or certification of individuals (§ 19.85 (1) (b), Stats.); to consider closing disciplinary investigations with administrative warnings (§ 19.85 (1) (b), Stats. and § 440.205, Stats.); to consider individual histories or disciplinary data (§ 19.85 (1) (f), Stats.); and to confer with legal counsel (§ 19.85 (1) (g), Stats.).

M) Deliberation on Division of Legal Services and Compliance Matters

- 1) **Review of Administrative Warnings**
 - a) **10:00 A.M. APPEARANCE: DLSC Attorney Lesley McKinney, J.M.W., and Attorney Michael Russart – 17 CHI 023 – J.M.W. (174-200)**
- 2) **Case Closings**
 - a) 16 CHI 010 – C.V.W. **(201-204)**
 - b) 17 CHI 013 – L.J.C. **(205-211)**
 - c) 18 CHI 012 – R.R.M. **(212-214)**

N) Deliberation of Items Added After Preparation of the Agenda

- 1) Education and Examination Matters
- 2) Credentialing Matters
- 3) DLSC Matters
- 4) Monitoring Matters
- 5) Professional Assistance Procedure (PAP) Matters
- 6) Petitions for Summary Suspensions
- 7) Petitions for Designation of Hearing Examiner
- 8) Proposed Stipulations, Final Decisions and Orders
- 9) Proposed Interim Orders
- 10) Administrative Warnings
- 11) Review of Administrative Warnings
- 12) Proposed Final Decisions and Orders
- 13) Matters Relating to Costs/Orders Fixing Costs
- 14) Case Closings
- 15) Board Liaison Training
- 16) Petitions for Assessments and Evaluations
- 17) Petitions to Vacate Orders
- 18) Remedial Education Cases
- 19) Motions
- 20) Petitions for Re-Hearing
- 21) Appearances from Requests Received or Renewed

O) Consulting with Legal Counsel

RECONVENE TO OPEN SESSION IMMEDIATELY FOLLOWING CLOSED SESSION

P) Vote on Items Considered or Deliberated Upon in Closed Session, if Voting is Appropriate

Q) Open Session Items Noticed Above Not Completed in the Initial Open Session

R) Delegation of Ratification of Examination Results and Ratification of Licenses and Certificates

ADJOURNMENT

NEXT SCHEDULED MEETING: JANUARY 31, 2019

MEETINGS AND HEARINGS ARE OPEN TO THE PUBLIC, AND MAY BE CANCELLED WITHOUT NOTICE.

Times listed for meeting items are approximate and depend on the length of discussion and voting. All meetings are held at 4822 Madison Yards Way, Madison, Wisconsin, unless otherwise noted. In order to confirm a meeting or to request a complete copy of the board's agenda, please call the listed contact person. The board may also consider materials or items filed after the transmission of this notice. Times listed for the commencement of disciplinary hearings may be changed by

the examiner for the convenience of the parties. Interpreters for the hearing impaired provided upon request by contacting the Affirmative Action Officer, 608-266-2112.

**CHIROPRACTIC EXAMINING BOARD
MEETING MINUTES
August 30, 2018**

PRESENT: Bryan Gerondale, D.C.; Jeffrey King, D.C.; Scott Bautch, D.C.; Patricia Schumacher, D.C., Juli McNeely

STAFF: Tom Ryan, Executive Director; Dale Kleven, Administrative Rules Coordinator; Kimberly Wood, Program Assistant Supervisor-Adv.; and other Department Staff

CALL TO ORDER

Patricia Schumacher, Chair, called the meeting to order at 9:36 a.m. A quorum of five (5) members was confirmed.

ADOPTION OF AGENDA

MOTION: Juli McNeely moved, seconded by Bryan Gerondale, to adopt the agenda as published. Motion carried unanimously.

APPROVAL OF MINUTES

MOTION: Scott Bautch moved, seconded by Jeffrey King, to approve the minutes of June 28, 2018 as published. Motion carried unanimously.

LEGISLATION AND ADMINISTRATIVE RULE MATTERS

Review of Preliminary Rule Draft for Chir 4, Relating to Chiropractic Practice

MOTION: Bryan Gerondale moved, seconded by Scott Bautch, to approve the preliminary rule draft of Chir 4, relating to Chiropractic Practice, with changes approved at today's meeting, for posting for economic impact comments and submission to the Clearinghouse. Motion carried unanimously.

Administrative Rules Reporting Requirement Under 2017 Wisconsin Act 108

MOTION: Jeffrey King moved, seconded by Scott Bautch, to designate Bryan Gerondale to serve as a liaison to DSPS staff for drafting the Act 108 report, relating to administrative rules, and to authorize the Chair, or highest-ranking officer, or longest serving member of the Board, in order of succession, to approve the report for submission to the Joint Committee for Review of Administrative Rules. Motion carried unanimously.

SPEAKING ENGAGEMENTS, TRAVEL OR PUBLIC REQUESTS AND REPORTS

Federation Chiropractic Licensing Boards (FCLB) District II Meeting on October 11-14, 2018 in Fort Walton Beach, FL

MOTION: Bryan Gerondale moved, seconded by Juli McNeely, to designate Scott Bautch to attend the FCLB District II Meeting on October 11-14, 2018 in Fort Walton Beach, FL and to authorize travel. Motion carried unanimously.

EDUCATION AND EXAMINATION MATTERS

Moraine Park Request for Approval of Chiropractic Technician (CT) Course of Study

MOTION: Scott Bautch moved, seconded by Bryan Gerondale, to approve the request of Moraine Park's Chiropractic Technician (CT) Course of Study. Motion carried unanimously.

CLOSED SESSION

MOTION: Scott Bautch moved, seconded by Juli McNeely, to convene to Closed Session to deliberate on cases following hearing (§ 19.85(1) (a), Stats.); to consider licensure or certification of individuals (§ 19.85 (1) (b), Stats.); to consider closing disciplinary investigations with administrative warnings (§ 19.85 (1) (b), Stats. and § 440.205, Stats.); to consider individual histories or disciplinary data (§ 19.85 (1) (f), Stats.); and to confer with legal counsel (§ 19.85 (1) (g), Stats.). Patricia Schumacher, Chair, read the language of the motion aloud for the record. The vote of each member was ascertained by voice vote. Roll Call Vote: Scott Bautch-yes; Bryan Gerondale-yes; Jeffrey King-yes; Juli McNeely-yes and Patricia Schumacher-yes. Motion carried unanimously.

The Board convened into Closed Session at 12:00 p.m.

RECONVENE TO OPEN SESSION

MOTION: Scott Bautch moved, seconded by Juli McNeely, to reconvene in Open Session. Motion carried unanimously.

The Board reconvened to Open Session at 12:30 p.m.

VOTE ON ITEMS CONSIDERED OR DELIBERATED UPON IN CLOSED SESSION, IF VOTING IS APPROPRIATE

MOTION: Scott Bautch moved, seconded by Bryan Gerondale, to affirm all motions made and votes taken in Closed Session. Motion carried unanimously.

(Be advised that any recusals or abstentions reflected in the closed session motions stand for the purposes of the affirmation vote.)

CREDENTIALING MATTERS

Conviction Review

Gabriela Kowalkowski – Chiropractic Radiological Technician Applicant

MOTION: Bryan Gerondale moved, seconded by Juli McNeely, to approve the Chiropractic Radiologic Technician application of Gabriela Kowalkowski, once all requirements are met. Motion carried unanimously.

Wayne Gudgel – Chiropractic Applicant

MOTION: Bryan Gerondale moved, seconded by Scott Bautch, to request additional information relating to the Chiropractic application of Wayne Gudgel. Motion carried unanimously.

**DELIBERATION ON DIVISION OF LEGAL SERVICES AND COMPLIANCE (DLSC)
MATTERS**

Administrative Warning

17 CHI 023 – J.M.W.

MOTION: Bryan Gerondale moved, seconded by Scott Bautch, to issue an Administrative Warning in the matter of J.M.W., DLSC Case Number 17 CHI 023. Motion carried unanimously.

Case Closings

17 CHI 002 – S.M.A.

MOTION: Bryan Gerondale moved, seconded by Juli McNeely, to close the DLSC Case Number 17 CHI 002, against S.M.A., for No Violation. Motion carried unanimously.

17 CHI 011 – P.J.K.

MOTION: Juli McNeely moved, seconded by Scott Bautch, to close the DLSC Case Number 17 CHI 011, against P.J.K., for Insufficient Evidence (IE). Motion carried unanimously.

17 CHI 012 – C.U.

MOTION: Bryan Gerondale moved, seconded by Juli McNeely, to close the DLSC Case Number 17 CHI 012, against C.U., for No Violation. Motion carried unanimously.

RATIFICATION OF EXAMINATIONS, LICENSES AND CERTIFICATES

MOTION: Jeffrey King moved, seconded by Scott Bautch, to delegate ratification of examination results to DSPS staff and to ratify all licenses and certificates as issued. Motion carried unanimously.

ADJOURNMENT

MOTION: Bryan Gerondale, seconded by Scott Bautch, to adjourn the meeting. Motion carried unanimously.

The meeting adjourned at 12:31 p.m.

AGENDA REQUEST FORM

1) Name and Title of Person Submitting the Request: Dale Kleven Administrative Rules Coordinator		2) Date When Request Submitted: 11/16/18 <small>Items will be considered late if submitted after 12:00 p.m. on the deadline date: ▪ 8 business days before the meeting</small>

Directions for including supporting documents: 1. This form should be attached to any documents submitted to the agenda. 2. Post Agenda Deadline items must be authorized by a Supervisor and the Policy Development Executive Director. 3. If necessary, Provide original documents needing Board Chairperson signature to the Bureau Assistant prior to the start of a meeting.			

STATE OF WISCONSIN
CHIROPRACTIC EXAMINING BOARD

IN THE MATTER OF RULEMAKING	:	PROPOSED ORDER OF THE
PROCEEDINGS BEFORE THE	:	CHIROPRACTIC EXAMINING
CHIROPRACTIC EXAMINING	:	BOARD
BOARD	:	ADOPTING RULES
	:	(CLEARINGHOUSE RULE)

PROPOSED ORDER

An order of the Chiropractic Examining Board to **repeal** Chir 4.03, 4.04 (Note), and 4.05 (1) (a) to (d) and (2) (intro.), (a) to (d), and (e) 1.; to **renumber and amend** Chir 4.05 (1) (intro.) and (2) (e) (intro.) and (f) to (h); to **amend** Chir 4.01, 4.02 (2), 4.04 (2) (a) and (Note), and 4.07 (1); to **repeal and recreate** Chir 4.02 (1); and to **create** Chir 4.02 (1m) and (3) to (5), relating to chiropractic practice.

Analysis prepared by the Department of Safety and Professional Services.

ANALYSIS

Statutes interpreted:

Section 446.02 (7d) (a), Stats.

Statutory authority:

Sections 15.08 (5) (b) and 227.11 (2) (a), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides that examining boards, such as the Chiropractic Examining Board, “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains . . .”

Section 227.11 (2) (a), Stats., sets forth the parameters of an agency’s rule-making authority, stating an agency “may promulgate rules interpreting provisions of any statute enforced or administered by the agency. . .but a rule is not valid if the rule exceeds the bounds of correct interpretation.”

Related statute or rule:

Chapter Chir 6 establishes standards of conduct for chiropractors. Section Chir 6.02 (4) provides that unprofessional conduct includes “[p]racticing or attempting to practice beyond the scope of a license issued by the board, including but not limited to acts prohibited under s. Chir 4.05 (1).”

Plain language analysis:

The Board conducted an evaluation and update of ch. Chir 4 to ensure consistency with current professional practices and standards and applicable Wisconsin statutes. As a result, the following updates have been made:

- Section Chir 4.01 is revised to accurately describe the purpose of ch. Chir 4 as revised.
- The definition of “chiropractic science” under s. Chir 4.02 (1) was created in 1985 and has not been substantively revised since that time. The proposed rules revise the definition to reflect current chiropractic practice.
- Definitions of “examination,” “physiotherapy,” and “treatment” are created to achieve consistency and clarity of that terminology as it is used in ch. Chir 4.
- The meaning of “practice of chiropractic” under s. Chir 4.03 is replaced with the meaning given in s. 446.01 (2), Stats.
- The proposed rules remove the references under s. Chir 4.05 (1) and (2) to specific techniques, procedures, and instruments that are beyond the scope of chiropractic or prohibited. The section as revised provides criteria for determining if the use of an instrument or a practice system, analysis, method, or protocol is beyond the scope of the practice of chiropractic.

Summary of, and comparison with, existing or proposed federal regulation:

None.

Comparison with rules in adjacent states:

Illinois: The Illinois Medical Practice Act specifies the scope of chiropractic practice through a definition of “chiropractic physician” (225 ILCS 60/2). The Act defines a chiropractic physician as “a person licensed to treat human ailments without the use of drugs and without operative surgery. Nothing in this Act shall be construed to prohibit a chiropractic physician from providing advice regarding the use of non-prescription products or from administering atmospheric oxygen. Nothing in this Act shall be construed to authorize a chiropractic physician to prescribe drugs.”

Iowa: Iowa statutes specify the scope of chiropractic practice through a definition of “chiropractic” (Iowa Code 2017, section 151.1). The following activities are identified:

- Treating human ailments by the adjustment of the neuromusculoskeletal structures, primarily, by hand or instrument, through spinal care.
- Utilizing differential diagnosis and related procedures.
- Withdrawing or ordering withdrawal of a patient’s blood for diagnostic purposes.
- Performing or utilizing routine laboratory tests.
- Performing physical examinations.
- Rendering nutritional advice.
- Utilizing chiropractic physiotherapy procedures.

A license to practice chiropractic does not authorize the licensee to practice operative surgery or administer or prescribe prescription drugs or controlled substances (Iowa Code 2017, section 151.5).

Rules of the Iowa Board of Chiropractic include acupuncture in the scope of chiropractic practice. A chiropractic physician who engages in the practice of acupuncture must maintain documentation that shows successful completion of a course in acupuncture consisting of at least 100 hours of traditional, in-person classroom instruction with the instructor on site (645 IAC 43.5).

Michigan: Michigan statutes specify the scope of chiropractic practice through a definition of “practice of chiropractic” (MCL 333.16401). The following activities are identified:

- The diagnosis of human conditions and disorders of the human musculoskeletal and nervous systems as they relate to subluxations, misalignments, and joint dysfunctions.
- The evaluation of conditions or symptoms related to subluxations, misalignments, and joint dysfunction.
- The chiropractic adjustment of subluxations, misalignments, and joint dysfunction and the treatment of related bones and tissues for the establishment of neural integrity and structural stability.
- The use of physical measures, analytical instruments, nutritional advice, rehabilitative exercise, and adjustment apparatus.

The practice of chiropractic does not include any of the following:

- The performance of any procedure that cuts or punctures the skin.
- The dispensing or prescribing of drugs or medicine.
- Except for diagnostic purposes only, the use of x-ray.
- The performance of an invasive procedure involving a body orifice or cavity unless allowed by rule and limited to examinations involving the ears, nose, and throat.
- The treatment of fractures or dislocations.

Rules of the Michigan Department of Licensing and Regulatory Affairs specify the criteria and requirements for adjustment apparatus, analytical instruments, performance or ordering of tests, and performance of invasive procedure (Mich Admin Code, R 338.12010, R 338.12011, R 338.12011a, and R 338.12011b).

Minnesota: Minnesota statutes address the scope of chiropractic practice through a definition of “chiropractic services” (Minnesota Statutes 2016, subdivision 1 of section 148.01). Chiropractic services are defined as “the evaluation and facilitation of structural, biomechanical, and neurological function and integrity through the use of adjustment, manipulation, mobilization, or other procedures accomplished by manual or mechanical forces applied to bones or joints and their related soft tissues for correction of vertebral subluxation, other abnormal articulations, neurological disturbances, structural alterations, or biomechanical alterations, and includes, but is not limited to, manual therapy and mechanical therapy as defined in section 146.23.”

An individual licensed to practice chiropractic is authorized to perform chiropractic services, acupuncture, and therapeutic services, and to provide diagnosis and to render opinions pertaining to those services for the purpose of determining a course of action in the best interests of the patient, such as a treatment plan, appropriate referral, or both. The practice of chiropractic is not the practice of medicine, surgery, osteopathic medicine, or physical therapy. (Minnesota Statutes 2016, subdivisions 3 and 4 of section 148.01).

Rules of the Minnesota Board of Chiropractic Examiners provide a chiropractor is engaged in the practice of chiropractic when the chiropractor provides examination or treatment services and the patient, or a person authorized to act for the patient, accepts the services provided (Minnesota Rules, part 2500.6000).

Summary of factual data and analytical methodologies:

The rules were developed by reviewing the provisions of ch. Chir 4 to ensure the rules are consistent with current professional practices and standards and applicable Wisconsin statutes. No additional factual data or analytical methodologies were used to develop the proposed rules.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The proposed rules were posted for a period of 14 days to solicit public comment on economic impact, including how the proposed rules may affect businesses, local government units, and individuals. No comments were received.

Fiscal Estimate and Economic Impact Analysis:

The Fiscal Estimate and Economic Impact Analysis document is attached.

Effect on small business:

These proposed rules do not have an economic impact on small businesses, as defined in s. 227.114 (1), Stats. The Department's Regulatory Review Coordinator may be contacted by email at NathanielL.Ristow@wisconsin.gov, or by calling (608) 266-3445.

Agency contact person:

Dale Kleven, Administrative Rules Coordinator, Department of Safety and Professional Services, Division of Policy Development, P.O. Box 8366, Madison, Wisconsin 53708-8366; telephone 608-261-4472; email at DSPSAdminRules@wisconsin.gov.

Place where comments are to be submitted and deadline for submission:

Comments may be submitted to Dale Kleven, Administrative Rules Coordinator, Department of Safety and Professional Services, Division of Policy Development, 1400 East Washington Avenue, Room 151, P.O. Box 8366, Madison, WI 53708-8935, or by email to DSPSAdminRules@wisconsin.gov. Comments must be received at or before the public hearing to be held at 8:30 a.m. on November 29, 2018, to be included in the record of rule-making proceedings.

TEXT OF RULE

SECTION 1. Chir 4.01 is amended to read:

Chir 4.01 Authority and purpose. This chapter is adopted under authority in ss. 15.08 (5) (b); and 227.11, Stats., and ch. 446, Stats., to ~~interpret the statutory definition of chiropractic practice specified in s. 446.01 (2), Stats.~~ establish standards for the practice of chiropractic.

SECTION 2. Chir 4.02 (1) is repealed and recreated to read:

Chir 4.02 (1) “Chiropractic science” means the body of organized knowledge related to identifying the cause of departure from health of the human and the treatment of such conditions without use of drugs or surgery. “Chiropractic science” includes using patient examination to create a diagnosis that serves as a basis for forming clinical judgments of a patient’s condition, degree or nature of treatment needed, and management and rehabilitation necessary for the restoration and preservation of health.

SECTION 3. Chir 4.02 (1m) is created to read:

Chir 4.02 (1m) “Examination” includes any of the following:

- (a) Patient history.
- (b) Evaluation techniques.
- (c) Lab analysis.
- (d) Use of analytical instruments to determine vital signs and screen health status.
- (e) Orthopedic and neurological testing.
- (f) Range of motion and muscle testing.
- (g) Diagnostic evaluation or imaging of the body.

SECTION 4. Chir 4.02 (2) is amended to read:

Chir 4.02 (2) “Instrument” means a device employed or applied in accordance with the principles and techniques of chiropractic science, which is used in the practice of chiropractic to diagnose, analyze, treat, or prevent the cause of departure from complete health and proper condition of the human.

SECTION 5. Chir 4.02 (3) to (5) are created to read:

Chir 4.02 (3) “Physiotherapy” has the meaning given “physiotherapy treatment” in s. Chir 10.01 (1r).

(4) “Practice of chiropractic” has the meaning given in s. 446.01 (2), Stats.

(5) “Treatment” includes any of the following:

- (a) Adjustment or manipulation of the spinal column, skeletal articulations, and adjacent tissue.
- (b) Physiotherapy and exercise rehabilitation.
- (c) Education, lifestyle modification, and counseling.

SECTION 6. Chir 4.03 is repealed.

SECTION 7. Chir 4.04 (2) (a) is amended to read:

Chir 4.04 (2) (a) X-ray procedures that require introduction of drugs, clinical dyes, or radioactive substances;

SECTION 8. Chir 4.04 (Note) is repealed.

SECTION 9. Chir 4.05 (1) (intro.) is renumbered Chir 4.05 (intro.) and amended to read:

Chir 4.05 (intro.) ~~SCOPE OF PRACTICE. A person who holds a license to practice chiropractic licensed under ch. 446, Stats., may engage in the practice of chiropractic, as described in s. Chir 4.03. A license to practice chiropractic does not authorize the license holder to engage in practice beyond the scope of chiropractic the practice, as described in s. Chir 4.03 of chiropractic. Practice beyond the scope of the practice of chiropractic includes, but is not limited to, all of the following:~~

SECTION 10. Chir 4.05 (1) (a) to (d) and (2) (intro.) and (a) to (d) are repealed.

SECTION 11. Chir 4.05 (2) (e) (intro.) is renumbered Chir 4.05 (1m) and amended to read:

Chir 4.05 (1m) The use of any ~~device instrument~~ in the practice of chiropractic to diagnose, analyze, treat, or prevent the cause of departure from complete health and proper condition of the human, which is not employed or applied in accordance with the principles and techniques of chiropractic science ~~is prohibited. Such devices include, but are not limited to:~~

SECTION 12. Chir 4.05 (2) (e) 1. is repealed.

SECTION 13. Chir 4.05 (2) (f) to (h) are renumbered Chir 4.05 (2m) to (4) and amended to read:

Chir 4.05 (2m) Any practice system, analysis, method, or protocol ~~which that~~ does not include the competent assessment, evaluation, or diagnosis of the condition to be treated before beginning treatment ~~of the patient.~~

(3) Any practice system, analysis, method, or protocol ~~which that~~ relies upon diagnostic methods that are not generally recognized or accepted within the profession or ~~which~~ do not have scientific validity.

(4) Any practice system, analysis, method, or protocol ~~which that~~ is represented as a means of attaining spiritual growth, spiritual comfort, or spiritual well-being.

SECTION 14. Chir 4.07 (1) is amended to read:

Chir 4.07 (1) ~~Perform any of the functions in s. Chir 4.03~~ Engage in the practice of chiropractic.

SECTION 15. EFFECTIVE DATE. The rules adopted in this order shall take effect on the first day of the month following publication in the Wisconsin Administrative Register, pursuant to s. 227.22 (2) (intro.), Stats.

9. Policy Problem Addressed by the Rule <p>The Board conducted an evaluation and update of ch. Chir 4 to ensure consistency with current professional practices and standards and applicable Wisconsin statutes. As a result, the following updates have been made:</p> <ul style="list-style-type: none"> • Section Chir 4.01 is revised to accurately describe the purpose of ch. Chir 4 as revised. • The definition of “chiropractic science” under s. Chir 4.02 (1) was created in 1985 and has not been substantively revised since that time. The proposed rules revise the definition to reflect current chiropractic practice. • Definitions of “examination,” “physiotherapy,” and “treatment” are created to achieve consistency and clarity of that terminology as it is used in ch. Chir 4. • The meaning of “practice of chiropractic” under s. Chir 4.03 is replaced with the meaning given in s. 446.01 (2), Stats. • The proposed rules remove the references under s. Chir 4.05 (1) and (2) to specific techniques, procedures, and instruments that are beyond the scope of chiropractic or prohibited. The section as revised provides criteria for determining if the use of an instrument or a practice system, analysis, method, or protocol is beyond the scope of the practice of chiropractic. 	
10. Summary of the businesses, business sectors, associations representing business, local governmental units, and individuals that may be affected by the proposed rule that were contacted for comments. <p>The proposed rule was posted on the Department of Safety and Professional Services’ website for 14 days in order to solicit comments from businesses, representative associations, local governmental units, and individuals that may be affected by the rule. No comments were received.</p>	
11. Identify the local governmental units that participated in the development of this EIA. <p>No local governmental units participated in the development of this EIA.</p>	
12. Summary of Rule's Economic and Fiscal Impact on Specific Businesses, Business Sectors, Public Utility Rate Payers, Local Governmental Units and the State's Economy as a Whole (Include Implementation and Compliance Costs Expected to be Incurred) <p>This proposed rule will not have a significant impact on specific businesses, business sectors, public utility rate payers, local governmental units, or the state’s economy as a whole.</p>	

13. Benefits of Implementing the Rule and Alternative(s) to Implementing the Rule

The benefit to implementing the rule is providing updated references and terminology and reflecting current chiropractic practice. If the rule is not implemented, it will continue to provide outdated references and terminology and reflect practices that are no longer current.

14. Long Range Implications of Implementing the Rule

The long range implication of implementing the rule is updated references and terminology and reflecting current chiropractic practice.

15. Compare With Approaches Being Used by Federal Government

None

16. Compare With Approaches Being Used by Neighboring States (Illinois, Iowa, Michigan and Minnesota)

Illinois: The Illinois Medical Practice Act specifies the scope of chiropractic practice through a definition of “chiropractic physician” (225 ILCS 60/2). The Act defines a chiropractic physician as “a person licensed to treat human ailments without the use of drugs and without operative surgery. Nothing in this Act shall be construed to prohibit a chiropractic physician from providing advice regarding the use of non-prescription products or from administering atmospheric oxygen. Nothing in this Act shall be construed to authorize a chiropractic physician to prescribe drugs.”

Iowa: Iowa statutes specify the scope of chiropractic practice through a definition of “chiropractic” (Iowa Code 2017, section 151.1). The following activities are identified:

- Treating human ailments by the adjustment of the neuromusculoskeletal structures, primarily, by hand or instrument, through spinal care.
- Utilizing differential diagnosis and related procedures.
- Withdrawing or ordering withdrawal of a patient’s blood for diagnostic purposes.
- Performing or utilizing routine laboratory tests.
- Performing physical examinations.
- Rendering nutritional advice.
- Utilizing chiropractic physiotherapy procedures.

A license to practice chiropractic does not authorize the licensee to practice operative surgery or administer or prescribe prescription drugs or controlled substances (Iowa Code 2017, section 151.5).

Rules of the Iowa Board of Chiropractic include acupuncture in the scope of chiropractic practice. A chiropractic physician who engages in the practice of acupuncture must maintain documentation that shows successful completion of a course in acupuncture consisting of at least 100 hours of traditional, in-person classroom instruction with the instructor on site (645 IAC 43.5).

Michigan: Michigan statutes specify the scope of chiropractic practice through a definition of “practice of chiropractic” (MCL 333.16401). The following activities are identified:

- The diagnosis of human conditions and disorders of the human musculoskeletal and nervous systems as they relate to subluxations, misalignments, and joint dysfunctions.
 - The evaluation of conditions or symptoms related to subluxations, misalignments, and joint dysfunction.
 - The chiropractic adjustment of subluxations, misalignments, and joint dysfunction and the treatment of related bones and tissues for the establishment of neural integrity and structural stability.
-

- The use of physical measures, analytical instruments, nutritional advice, rehabilitative exercise, and adjustment apparatus.

The practice of chiropractic does not include any of the following:

- The performance of any procedure that cuts or punctures the skin.
- The dispensing or prescribing of drugs or medicine.
- Except for diagnostic purposes only, the use of x-ray.
- The performance of an invasive procedure involving a body orifice or cavity unless allowed by rule and limited to examinations involving the ears, nose, and throat.
- The treatment of fractures or dislocations.

Rules of the Michigan Department of Licensing and Regulatory Affairs specify the criteria and requirements for adjustment apparatus, analytical instruments, performance or ordering of tests, and performance of invasive procedure (Mich Admin Code, R 338.12010, R 338.12011, R 338.12011a, and R 338.12011b).

Minnesota: Minnesota statutes address the scope of chiropractic practice through a definition of “chiropractic services” (Minnesota Statutes 2016, subdivision 1 of section 148.01). Chiropractic services are defined as “the evaluation and facilitation of structural, biomechanical, and neurological function and integrity through the use of adjustment, manipulation, mobilization, or other procedures accomplished by manual or mechanical forces applied to bones or joints and their related soft tissues for correction of vertebral subluxation, other abnormal articulations, neurological disturbances, structural alterations, or biomechanical alterations, and includes, but is not limited to, manual therapy and mechanical therapy as defined in section 146.23.”

An individual licensed to practice chiropractic is authorized to perform chiropractic services, acupuncture, and therapeutic services, and to provide diagnosis and to render opinions pertaining to those services for the purpose of determining a course of action in the best interests of the patient, such as a treatment plan, appropriate referral, or both. The practice of chiropractic is not the practice of medicine, surgery, osteopathic medicine, or physical therapy. (Minnesota Statutes 2016, subdivisions 3 and 4 of section 148.01).

Rules of the Minnesota Board of Chiropractic Examiners provide a chiropractor is engaged in the practice of chiropractic when the chiropractor provides examination or treatment services and the patient, or a person authorized to act for the patient, accepts the services provided (Minnesota Rules, part 2500.6000).

STATE OF WISCONSIN
CHIROPRACTIC EXAMINING BOARD

IN THE MATTER OF RULEMAKING	:	PROPOSED ORDER OF THE
PROCEEDINGS BEFORE THE	:	CHIROPRACTIC EXAMINING
CHIROPRACTIC EXAMINING	:	BOARD
BOARD	:	ADOPTING RULES
	:	(CLEARINGHOUSE RULE)

PROPOSED ORDER

An order of the Chiropractic Examining Board to repeal Chir 10.03 (Note); to amend Chir 4.04 (3), ch. Chir 10 (title), 10.015 (1) (a) (intro.), 10.02 (intro.), 10.03, and 11.02 (4); and to create Chir 1.02 (4) and 10.023, relating to delegation of services to health care professionals.

Analysis prepared by the Department of Safety and Professional Services.

ANALYSIS

Statutes interpreted:

Sections 446.02 (7), 446.025 (1) (a), and 446.026 (1) (a), Stats.

Statutory authority:

Sections 15.08 (5) (b) and 227.11 (2) (a), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides that examining boards, such as the Chiropractic Examining Board, “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains, . . .”

Section 227.11 (2) (a), Stats., sets forth the parameters of an agency’s rule-making authority, stating an agency “may promulgate rules interpreting provisions of any statute enforced or administered by the agency. . .but a rule is not valid if the rule exceeds the bounds of correct interpretation.”

Related statute or rule:

None.

Plain language analysis:

The proposed rules make the following changes to reflect the provisions of 2017 Wisconsin Act 180, relating to a chiropractor’s authority to delegate adjunctive services and x-ray services to certain health care professionals:

- Adds the definition of “health care professional” under s. 446.01 (1v), Stats., to the definitions in ch. Chir 1.

- Revises ss. Chir 4.04 (3) and 10.03 to reflect s. 446.025 (1) (a), Stats., which provides no person may provide x-ray services on behalf of a chiropractor in connection with the practice of chiropractic unless the person is a chiropractic radiological technician and is under the direct supervision of a chiropractor licensed under ch. 446, Stats.
- Creates s. Chir 10.023 to, as required under s. 446.02 (7) (c), Stats., establish standards and procedures a chiropractor must use to verify a health care professional has adequate education, training, and experience to perform a delegated adjunctive service safely.
- As use of the term “health care professionals” in s. Chir 11.02 (4) is no longer appropriate based on its statutory definition, the proposed rules replace it with the term “healthcare providers.”

Summary of, and comparison with, existing or proposed federal regulation:

None.

Comparison with rules in adjacent states:

Illinois: Illinois statutes (Section 54.2, Medical Practice Act) allow physicians, including chiropractic physicians, to delegate authority to certain individuals:

- Physicians may delegate patient care tasks to a physician assistant, licensed practical nurse, registered professional nurse, advanced practice nurse, or other licensed person practicing within the scope of their license.
- In an office or practice setting and within a physician-patient relationship, a physician may delegate patient care tasks or duties to an unlicensed person who possesses appropriate training and experience provided a health care professional practicing within the scope of their license is on site to provide assistance.
- A physician may not delegate any patient care task or duty that is statutorily or by rule mandated to be performed by a physician.

Iowa: Rules of the Iowa Board of Chiropractic address the delegation of chiropractic services to a chiropractic assistant (645 IAC 43.12):

- A supervising chiropractic physician must ensure at all times that a chiropractic assistant has the necessary training and skills to competently perform a delegated service.
- A supervising chiropractic physician may delegate services to a chiropractic assistant that are within the scope of practice of the chiropractic physician.
- A chiropractic physician may not delegate any of the following services:
 - Services outside the chiropractic physician’s scope of practice.
 - Initiation, alteration, or termination of chiropractic treatment programs.
 - Chiropractic manipulation and adjustments.
 - Diagnosis of a condition.

- A supervising chiropractic physician must ensure a chiropractic assistant is informed of the supervisor and chiropractic assistant relationship and is responsible for all services performed by the chiropractic assistant.

Michigan: Michigan statutes allow a chiropractor to delegate to a licensed or unlicensed individual who is otherwise qualified by education, training, or experience the performance of selected acts, tasks, or functions where the acts, tasks, or functions fall within the scope of practice of the chiropractor's profession and will be performed under the chiropractor's supervision. A chiropractor may not delegate an act, task, or function if the act, task, or function, under standards of acceptable and prevailing practice, requires the level of education, skill, and judgment required of the chiropractor (Section 333.16215, Public Health Code).

Minnesota: Minnesota statutes specify grounds for the Board of Chiropractic Examiners to refuse to grant or revoke, suspend, condition, limit, restrict, or qualify a license to practice chiropractic. These provisions permit a doctor of chiropractic to employ, supervise, or delegate functions to a qualified person who may or may not be required to obtain a license or registration to provide health services if that person is practicing within the scope of the license or registration or delegated authority (Section 148.10, Subdivision 1, Chiropractic Practice Act).

Summary of factual data and analytical methodologies:

The proposed rules were developed by reviewing the provisions of 2017 Wisconsin Act 180 in conjunction with current rules relating to chiropractic practice under chs. Chir 1 to 13 and obtaining input and feedback from the Chiropractic Examining Board.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The proposed rules will be posted for a period of 14 days to solicit public comment on economic impact, including how the proposed rules may affect businesses, local government units, and individuals.

Effect on small business:

These proposed rules do not have an economic impact on small businesses, as defined in s. 227.114 (1), Stats. The Department's Regulatory Review Coordinator may be contacted by email at Kirsten.Reader@wisconsin.gov, or by calling (608) 267-2435.

Agency contact person:

Dale Kleven, Administrative Rules Coordinator, Department of Safety and Professional Services, Division of Policy Development, P.O. Box 8366, Madison, Wisconsin 53708-8366; telephone 608-261-4472; email at DSPSAdminRules@wisconsin.gov.

TEXT OF RULE

SECTION 1. Chir 1.02 (4) is created to read:

Chir 1.02 (4) “Health care professional” has the meaning given in s. 446.01 (1v), Stats.

SECTION 2. Chir 4.04 (3) is amended to read:

Chir 4.04 (3) ~~A chiropractor may delegate the operation of x-ray equipment only to a chiropractic radiological technician certified under ch. 446, Stats. A chiropractic radiological technician shall operate x-ray equipment under the direct supervision and direction of a licensee. As provided under s. 446.025 (1) (a), Stats., no person may provide x-ray services on behalf of a chiropractor in connection with the practice of chiropractic unless the person is a chiropractic radiological technician and is under the direct supervision of a chiropractor licensed under ch. 446, Stats. The A~~ chiropractor shall maintain records or ensure the chiropractor’s employer maintains records that verify ~~the a~~ chiropractic radiological technician delegated the performance of x-ray services is certified under ch. 446, Stats.

SECTION 3. Chapter Chir 10 (title) is amended to read:

CHAPTER CHIR 10

DELEGATION TO CHIROPRACTIC TECHNICIANS, ~~AND~~ CHIROPRACTIC RADIOLOGICAL TECHNICIANS, AND HEALTH CARE PROFESSIONALS

SECTION 4. Chir 10.015 (1) (a) (intro.) is amended to read:

Chir 10.015 (1) (a) (intro.) The course of study shall include a prerequisite 4 ~~hour~~ 4-hour therapeutic overview course covering chiropractic technician scope of practice, anatomy, and contraindications followed by all of the following:

SECTION 5. Chir 10.02 (intro.) is amended to read:

Chir 10.02 (intro.) **Delegation of adjunctive services to a chiropractic technician.** A chiropractor may delegate the performance of ~~adjunctive services only to a chiropractic technician certified under ch. 446, Stats. An an~~ adjunctive service ~~may be delegated~~ to a chiropractic technician ~~only~~ if all of the following conditions are met:

SECTION 6. Chir 10.023 is created to read:

Chir 10.023 Delegation of adjunctive services to a health care professional. A chiropractor may delegate the performance of an adjunctive service to a health care professional if all of the following conditions are met:

(1) The performance of the adjunctive service is within the scope of the health care professional’s license, registration, or certification.

(2) The chiropractor maintains records or ensures the chiropractor’s employer maintains records that verify the health care professional’s license, registration, or certification is current.

(3) The chiropractor exercises direct supervision of the health care professional performing the delegated adjunctive service.

(4) The chiropractor retains ultimate responsibility for the manner and quality of the service.

SECTION 7. Chir 10.03 is amended to read:

Chir 10.03 X-ray services. ~~A chiropractor may delegate x-ray examination procedures only to a chiropractic radiological technician certified under ch. 446, Stats. As provided under s. 446.025 (1) (a), Stats., no person may provide x-ray services on behalf of a chiropractor in connection with the practice of chiropractic unless the person is a chiropractic radiological technician and is under the direct supervision of a chiropractor licensed under ch. 446, Stats. The A~~ chiropractor shall comply with s. Chir 4.04 before delegating the performance of x-ray services to a chiropractic radiological technician.

SECTION 8. Chir 10.03 (Note) is repealed.

SECTION 9. Chir 11.02 (4) is amended to read:

Chir 11.02 (4) Patient records shall be complete and sufficiently legible to be understandable to ~~health care professionals~~ healthcare providers generally familiar with chiropractic practice, procedures, and nomenclature.

SECTION 10. EFFECTIVE DATE. The rules adopted in this order shall take effect on the first day of the month following publication in the Wisconsin Administrative Register, pursuant to s. 227.22 (2) (intro.), Stats.

(END OF TEXT OF RULE)

STATE OF WISCONSIN
CHIROPRACTIC EXAMINING BOARD

IN THE MATTER OF RULEMAKING	:	PROPOSED ORDER OF THE
PROCEEDINGS BEFORE THE	:	CHIROPRACTIC EXAMINING
CHIROPRACTIC EXAMINING	:	BOARD
BOARD	:	ADOPTING RULES
	:	(CLEARINGHOUSE RULE)

PROPOSED ORDER

An order of the Chiropractic Examining Board to **repeal** Chir 9.03 (5), 9.04, and 9.05 (1) (intro.); to **renumber and amend** Chir 9.03 (1) and (4) and 9.05 (1) (a) to (f); to **amend** Chir 9.01 (2), 9.02, 9.03 (intro.), (2), (3) (intro.), (a), and (b), (Note), and (6), 9.05 (intro.) and (Note), and 9.06 (2); and to **create** Chir 9.03 (1) (a) to (c) and (3) (am) and 9.05 (7), relating to chiropractic preceptorship.

Analysis prepared by the Department of Safety and Professional Services.

ANALYSIS

Statutes interpreted:

Section 446.02 (9) (a), Stats.

Statutory authority:

Sections 15.08 (5) (b) and 227.11 (2) (a), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., provides that an examining board, such as the Chiropractic Examining Board, “shall promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains . . .”

Section 227.11 (2) (a), Stats., sets forth the parameters of an agency’s rule-making authority, stating an agency “may promulgate rules interpreting provisions of any statute enforced or administered by the agency. . .but a rule is not valid if the rule exceeds the bounds of correct interpretation.”

Related statute or rule:

None.

Plain language analysis:

The Board conducted an evaluation and update of ch. Chir 9 to ensure consistency with current professional and academic practices and applicable Wisconsin statutes. As a result, the following updates have been made:

- Section Chir 9.03 (1) is revised to include the Councils on Chiropractic Education International as an approved accreditor of chiropractic colleges.

- As most of the criteria for approval of chiropractic college preceptorship programs under s. Chir 9.03 and postgraduate preceptorship programs under s. Chir 9.04 are identical, the sections have been consolidated.
- Other provisions throughout ch. Chir 9 have been revised to update notes, provide clarity, and conform to current drafting standards.

Summary of, and comparison with, existing or proposed federal regulation:

None.

Comparison with rules in adjacent states:

Illinois: Rules of the Illinois Department of Financial and Professional Regulation relating to chiropractic physician preceptorship were repealed effective February 15, 2000. (68 Ill. Adm. Code 1285.105, repealed at 24 Ill. Reg. 3620).

Iowa: Rules of the Iowa Board of Chiropractic administer chiropractic preceptorship programs (645 IAC 42.1 to 42.6). A program is established by a Board-approved chiropractic college and allows a chiropractic intern or resident from the college to practice under the supervision of a chiropractic preceptor (a chiropractic physician licensed and practicing in Iowa). The rules specify the criteria for Board approval of chiropractic colleges, preceptorship programs, and chiropractic preceptors, and the conditions under which a preceptorship program must be terminated.

Michigan: Michigan statutes permit a chiropractic student to apply for a limited license to engage in the practice of chiropractic under the supervision of a licensed chiropractor (MCL 333.16412). The applicant must have successfully completed 2 years of education in a college of arts and sciences and 2 years, 4 semesters, or 6 quarter terms in a chiropractic college approved by the Michigan Board of Chiropractic. The limited license is valid for not more than 6 months and is nonrenewable.

Minnesota: Rules of the Minnesota Board of Chiropractic Examiners administer graduate preceptorship programs (Minnesota Rules, parts 2500.2500 to 2500.2530). A program allows an extern (a graduate of an accredited chiropractic college) to work under the supervision of a preceptor (a chiropractic physician licensed and in active private practice in Minnesota) for a period of up to 12 months. The rules specify the role of the preceptor, the eligibility and responsibilities of the preceptor and the extern, the minimum requirements of a preceptorship training program, and the conditions under which a preceptorship program must be terminated.

Summary of factual data and analytical methodologies:

The rules were developed by reviewing the provisions of ch. Chir 9 to ensure the rules are consistent with current practices and applicable Wisconsin statutes. No additional factual data or analytical methodologies were used to develop the proposed rules.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The proposed rules will be posted for a period of 14 days to solicit public comment on economic impact, including how the proposed rules may affect businesses, local government units, and individuals.

Effect on small business:

These proposed rules do not have an economic impact on small businesses, as defined in s. 227.114 (1), Stats. The Department's Regulatory Review Coordinator may be contacted by email at Kirsten.Reader@wisconsin.gov, or by calling (608) 267-2435.

Agency contact person:

Dale Kleven, Administrative Rules Coordinator, Department of Safety and Professional Services, Division of Policy Development, P.O. Box 8366, Madison, Wisconsin 53708-8366; telephone 608-261-4472; email at DSPSAdminRules@wisconsin.gov.

TEXT OF RULE

SECTION 1. Chir 9.01 (2) is amended to read:

Chir 9.01 (2) "Chiropractor preceptor" means a chiropractor licensed and practicing in Wisconsin pursuant to ch. 446, Stats., who accepts a chiropractic student into ~~his or her~~ the chiropractor's practice for the purpose of providing the chiropractic student with a clinical experience ~~of~~ in the practice of chiropractic.

SECTION 2. Chir 9.02 is amended to read:

Chir 9.02 Unlicensed practice by chiropractic students and graduate chiropractors. ~~The board may approve the unlicensed practice of chiropractic in this state by a bona fide~~ As provided under s. 446.02 (9) (a), Stats., a chiropractic student of a chiropractic college which offers an approved or graduate chiropractor participating in a preceptorship program approved under s. Chir 9.03, if the chiropractic college preceptorship program, under the direct, on-premises supervision of a chiropractor preceptor and the practice of chiropractic by the student meet the criteria established by the board approved under s. Chir 9.05 is not required to hold a license under ch. 446, Stats. The board may approve the unlicensed practice of chiropractic in this state by a graduate chiropractor in an approved postgraduate chiropractic preceptorship program, if the postgraduate chiropractic preceptorship program, the chiropractor preceptor and the practice of chiropractic by the graduate chiropractor meet the criteria established by the board.

SECTION 3. Chir 9.03 (intro.) is amended to read:

Chir 9.03 (intro.) Approved chiropractic college and postgraduate preceptorship programs. The board shall approve a chiropractic college preceptorship program ~~which includes~~ or postgraduate preceptorship program that meets all of the following ~~criteria~~ requirements:

SECTION 4. Chir 9.03 (1) is renumbered Chir 9.03 (1) (intro.) and amended to read:

Chir 9.03 (1) (intro.) ~~Is~~ The program is operated by a chiropractic college approved by the board. ~~The~~ When making a determination as to whether to approve a chiropractic college, the board shall consider whether the college is accredited by the council on chiropractic education, and shall also consider the degree of consumer protection provided by the defined standards and practices of the chiropractic college's preceptor program, as well as degree of consumer protection demonstrated by the actual operation of the chiropractic college's preceptor program. all of the following:

SECTION 5. Chir 9.03 (1) (a) to (c) are created to read:

Chir 9.03 (1) (a) Whether the chiropractic college is accredited by one of the following:

1. The Council on Chiropractic Education or a successor organization.
2. The Councils on Chiropractic Education International or a successor organization.

(b) The degree of consumer protection provided by the defined standards and practices of the program.

(c) The degree of consumer protection demonstrated by the actual operation of the program.

SECTION 6. Chir 9.03 (2) and (3) (intro.) and (a) are amended to read:

Chir 9.03 (2) ~~Is~~ The program is an established component of the curriculum of the chiropractic college.

(3) (intro.) ~~Certifies~~ An authorized representative of the program certifies to the board, on forms supplied by the department, all of the following:

(a) ~~That all students who participate in the~~ If the program is a chiropractic college preceptorship program, are in the last semester, trimester, or quarter of their education, and have met prior to participating in the program students shall have met all requirements for graduation from the chiropractic college except for completion of the preceptorship period, and

SECTION 7. Chir 9.03 (3) (am) is created to read:

Chir 9.03 (3) (am) If the program is a postgraduate preceptorship program, graduate chiropractors shall have graduated from a college of chiropractic approved by the board.

SECTION 8. Chir 9.03 (3) (b) is amended to read:

Chir 9.03 (3) (b) ~~That no~~ No chiropractor ~~who is a preceptor~~ shall supervise more than one chiropractic student or graduate chiropractor at any one time.

SECTION 9. Chir 9.03 (4) is renumbered Chir 9.03 (3) (c) and amended to read:

Chir 9.03 (3) (c) ~~Certifies to the board, on forms supplied by the department, that all chiropractors~~ Chiropractors who participate as chiropractor preceptors ~~are~~ shall be faculty of the chiropractic college.

SECTION 10. Chir 9.03 (5) is repealed.

SECTION 11. Chir 9.03 (Note) and (6) are amended to read:

Chir 9.03 (Note) Forms may be obtained ~~upon request from the Department of Safety and Professional Services, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708~~ from the department of safety and professional services' website at dsps.wi.gov.

(6) ~~Provides~~ An authorized representative of the program provides a list to the board at least 45 days prior to every trimester or academic quarter of the chiropractors in ~~Wisconsin~~ this state who will be acting as preceptors in the program.

SECTION 12. Chir 9.04 is repealed.

SECTION 13. Chir 9.05 (intro.) is amended to read:

Chir 9.05 (intro.) **Approved chiropractor preceptors.** The board shall approve a chiropractor to be a chiropractor preceptor if the chiropractor ~~meets~~ certifies to the board, on forms supplied by the department, all of the following ~~conditions~~:

SECTION 14. Chir 9.05 (1) (intro.) is repealed.

SECTION 15. Chir 9.05 (1) (a) to (f) are renumbered Chir 9.05 (1) to (6) and amended to read:

Chir 9.05 (1) The chiropractor ~~preceptor~~ has been continuously licensed in Wisconsin for the previous 5 years, and ~~that~~ there are no pending disciplinary actions or malpractice claims against the chiropractor ~~preceptor~~ in any ~~state or country~~ jurisdiction. If ~~any~~ discipline has ever been imposed in any ~~state or country~~ jurisdiction on any professional license held by the ~~preceptor~~ chiropractor, the ~~preceptor~~ chiropractor shall provide details of the discipline for the board's review.

(2) The chiropractor ~~preceptor~~ is a member of the faculty of the chiropractic college from which the chiropractor ~~preceptor~~ will accept a chiropractic student or graduate chiropractor into a preceptorship practice.

(3) The chiropractor ~~preceptor~~ is responsible for the practice of the chiropractic student or graduate chiropractor the chiropractor ~~preceptor~~ accepts into a preceptorship practice.

(4) The chiropractor ~~preceptor~~ will identify the chiropractic student or graduate chiropractor to the patients of the preceptorship practice in such a way that no patient will tend to be misled as to the status of the chiropractic student or graduate chiropractor, and that each patient or parent or guardian of each patient will be required to provide informed consent to treatment of that patient by the chiropractic student or graduate chiropractor.

(5) The chiropractor ~~preceptor~~ will supervise no more than one chiropractic student or graduate chiropractor at any one time.

(6) The chiropractor ~~preceptor~~ will exercise direct, on-premises supervision of the chiropractic student or graduate chiropractor at all times during which the chiropractic student or graduate chiropractor is engaged in any facet of patient care in the ~~chiropractor preceptor's~~ chiropractor's clinic.

SECTION 16. Chir 9.05 (7) is created to read:

Chir 9.05 (7) The chiropractor and the chiropractic student or graduate chiropractor have agreed on the goals of the preceptor program to be completed by the chiropractic student or graduate chiropractor.

SECTION 17. Chir 9.05 (Note) is amended to read:

Chir 9.05 (Note) Forms may be obtained ~~upon request from the Department of Safety and Professional Services, Chiropractic Examining Board, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708~~ from the department of safety and professional services' website at dsps.wi.gov.

SECTION 18. Chir 9.06 (2) is amended to read:

Chir 9.06 (2) If a preceptorship is terminated under sub. (1) (d), (e), or (f), the board may approve a replacement chiropractor preceptor proposed by the chiropractic student or graduate chiropractor, ~~who satisfies~~ To be approved by the board, the proposed replacement chiropractor preceptor shall satisfy the requirements in under s. Chir 9.05 (1) (a) and (e) (3) to (f) (7). The proposed chiropractor preceptor ~~need not have been listed by~~ is not required to be a member of the faculty of the chiropractic college operating the preceptorship program.

SECTION 19. EFFECTIVE DATE. The rules adopted in this order shall take effect on the first day of the month following publication in the Wisconsin Administrative Register, pursuant to s. 227.22 (2) (intro.), Stats.

(END OF TEXT OF RULE)

Chapter Chir 9

CHIROPRACTIC PRECEPTORSHIP

Chir 9.01 Definitions. In this chapter:

- (1) "Chiropractic student" means a student of an approved college of chiropractic who is eligible for graduation from the college of chiropractic but for completion of a preceptorship period.
- (2) "Chiropractor preceptor" means a chiropractor licensed and practicing in Wisconsin pursuant to ch. 446, Stats., who accepts a chiropractic student into ~~his or her~~ the chiropractor's practice for the purpose of providing the chiropractic student with ~~a~~ clinical experience ~~of in~~ the practice of chiropractic.
- (3) "Graduate chiropractor" means a person who has received a doctor of chiropractic degree from a college of chiropractic approved by the board, but who has not taken any licensing examination the results of which have been declared by a licensing authority.
- (4) "Preceptorship practice" means the chiropractic practice of a single chiropractor or group of chiropractors in a particular business or clinic, into which a licensed, practicing chiropractor has accepted a chiropractic student for the limited purpose of providing the chiropractic student with a clinical experience in the practice of chiropractic.

Chir 9.02 Unlicensed practice by chiropractic students and graduate chiropractors. ~~The board may approve the unlicensed practice of chiropractic in this state by a bona fide As provided under s. 446.02 (9) (a), Stats., a chiropractic student of a chiropractic college which offers an approved or graduate chiropractor participating in a preceptorship program approved under s. Chir 9.03, if the chiropractic college preceptorship program, under the direct, on-premises supervision of a chiropractor preceptor and the practice of chiropractic by the student meet the criteria established by the board approved under s. Chir 9.05 is not required to hold a license under ch. 446, Stats. The board may approve the unlicensed practice of chiropractic in this state by a graduate chiropractor in an approved postgraduate chiropractic preceptorship program, if the postgraduate chiropractic preceptorship program, the chiropractor preceptor, and the practice of chiropractic by the graduate chiropractor meet the criteria established by the board.~~

Chir 9.03 Approved chiropractic college and postgraduate preceptorship programs. The board shall approve a chiropractic college preceptorship program ~~which includes or postgraduate preceptorship program that meets~~ all of the following ~~criteria requirements~~:

- (1) ~~Is The program is~~ operated by a chiropractic college approved by the board. ~~The When making a determination as to whether to approve a chiropractic college, the board shall consider whether the college is accredited by the council on chiropractic education, and shall also consider the degree of consumer protection provided by the defined standards and practices of the chiropractic college's preceptor program, as well as degree of consumer protection demonstrated by the actual operation of the chiropractic college's preceptor program. all of the following:~~
 - (a) Whether the chiropractic college is accredited by one of the following:
 1. The Council on Chiropractic Education or a successor organization.
 2. The Councils on Chiropractic Education International or a successor organization.
 - (b) The degree of consumer protection provided by the defined standards and practices of the program.
 - (c) The degree of consumer protection demonstrated by the actual operation of the program.
- (2) ~~Is The program is~~ an established component of the curriculum of the chiropractic college.
- (3) ~~Certifies An authorized representative of the program certifies~~ to the board, on forms supplied by the department, ~~all of the following~~:
 - (a) ~~That all students who participate in the~~ If the program is a chiropractic college preceptorship program, are in the last semester, trimester, or quarter of their education, and have met prior to participating in the program students shall have met all requirements for graduation from the chiropractic college except for completion of the preceptorship period, ~~and~~

(am) If the program is a postgraduate preceptorship program, graduate chiropractors shall have graduated from a college of chiropractic approved by the board.

(b) ~~That no~~ No chiropractor ~~who is a~~ preceptor shall supervise more than one chiropractic student or graduate chiropractor at any one time.

~~(4) (c) Certifies to the board, on forms supplied by the department, that all chiropractors~~ Chiropractors who participate as chiropractor preceptors ~~are~~ shall be faculty of the chiropractic college.

~~(5) Certifies to the board, on forms supplied by the department, that the chiropractor preceptor and the chiropractic student have agreed on the goals of the preceptor program to be completed by the chiropractic student.~~

Note: Forms may be obtained ~~upon request from the Department of Safety and Professional Services, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708~~ from the department of safety and professional services' website at dps.wi.gov.

(6) ~~Provides~~ An authorized representative of the program provides a list to the board at least 45 days prior to every trimester or academic quarter of the chiropractors in ~~Wisconsin~~ this state who will be acting as preceptors in the program.

Chir 9.04 — Approved postgraduate preceptorship programs. The board shall approve a preceptorship program for the training of graduate chiropractors which meets all of the following criteria:

~~(1) Is operated by a chiropractic college approved by the board. The board shall consider whether the college is accredited by the council on chiropractic education, and shall also consider the degree of consumer protection provided by the defined standards and practices of the chiropractic college's preceptor program, as well as degree of consumer protection demonstrated by the actual operation of the chiropractic college's preceptor program.~~

~~(2) Is an established postgraduate program of the chiropractic college.~~

~~(3) Certifies to the board, on forms supplied by the board:~~

~~(a) That all graduate chiropractors who participate in the postgraduate preceptorship program have graduated from a college of chiropractic approved by the board, and~~

~~(b) That no chiropractor who is a preceptor shall supervise more than one graduate chiropractor.~~

~~(4) Certifies to the board, on forms supplied by the board, that all chiropractors who participate as preceptors are faculty of the chiropractic college.~~

~~(5) Certifies to the board, on forms supplied by the board, that the chiropractor preceptor and graduate chiropractor have agreed on the goals of the preceptor program to be completed by the graduate chiropractor.~~

Note: Forms may be obtained ~~upon request from the Department of Safety and Professional Services, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708.~~

~~(6) Provides a list to the board 45 days prior to every trimester or academic quarter of the chiropractors in Wisconsin who will be acting as preceptors in the program.~~

Chir 9.05 Approved chiropractor preceptors. The board shall approve a chiropractor to be a chiropractor preceptor if the chiropractor ~~meets~~ certifies to the board, on forms supplied by the department, all of the following ~~conditions~~:

~~(1) Certifies to the board, on forms supplied by the department, that:~~

~~(a) (1)~~ (1) The chiropractor ~~preceptor~~ has been continuously licensed in Wisconsin for the previous 5 years, and ~~that~~ there are no pending disciplinary actions or malpractice claims against the chiropractor ~~preceptor~~ in any ~~state or country~~ jurisdiction. If ~~any~~ discipline has ever been imposed in any ~~state or country~~ jurisdiction on any professional license held by the ~~preceptor~~ chiropractor, the ~~preceptor~~ chiropractor shall provide details of the discipline for the board's review.

- ~~(b)~~ (2) The chiropractor ~~preceptor~~ is a member of the faculty of the chiropractic college from which the chiropractor ~~preceptor~~ will accept a chiropractic student or graduate chiropractor into a preceptorship practice.
- ~~(e)~~ (3) The chiropractor ~~preceptor~~ is responsible for the practice of the chiropractic student or graduate chiropractor the chiropractor ~~preceptor~~ accepts into a preceptorship practice.
- ~~(d)~~ (4) The chiropractor ~~preceptor~~ will identify the chiropractic student or graduate chiropractor to the patients of the preceptorship practice in such a way that no patient will tend to be misled as to the status of the chiropractic student or graduate chiropractor, and that each patient or parent or guardian of each patient will be required to provide informed consent to treatment of that patient by the chiropractic student or graduate chiropractor.
- ~~(e)~~ (5) The chiropractor ~~preceptor~~ will supervise no more than one chiropractic student or graduate chiropractor at any one time.
- ~~(f)~~ (6) The chiropractor ~~preceptor~~ will exercise direct, on-premises supervision of the chiropractic student or graduate chiropractor at all times during which the chiropractic student or graduate chiropractor is engaged in any facet of patient care in the ~~chiropractor preceptor's~~ **chiropractor's** clinic.
- ~~(7)~~ The chiropractor and the chiropractic student or graduate chiropractor have agreed on the goals of the preceptor program to be completed by the chiropractic student or graduate chiropractor.

Note: Forms may be obtained ~~upon request from the Department of Safety and Professional Services, Chiropractic Examining Board, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708~~ from the department of safety and professional services' website at dps.wi.gov.

Chir 9.06 Termination of preceptorship.

- (1) A preceptorship shall terminate upon the occurrence of the earliest applicable of the following events:
 - (a) A chiropractic student participating in a preceptorship program graduates from the college of chiropractic operating the program.
 - (b) A graduate chiropractor participating in a postgraduate preceptorship program is declared to have passed or failed a chiropractic licensing examination by any licensing authority or the national board.
 - (c) Six months have passed since the graduate chiropractor graduated from a college of chiropractic.
 - (d) A chiropractor preceptor is formally charged with a criminal offense, the circumstances of which substantially relate to the practice of chiropractic.
 - (e) A chiropractor preceptor is formally alleged to have violated the statutes or administrative rules pertaining to the practice of chiropractic.
 - (f) A chiropractor preceptor is formally complained against in a civil action for malpractice.
- (2) If a preceptorship is terminated under sub. (1) (d), (e), or (f), the board may approve a replacement chiropractor preceptor proposed by the chiropractic student or graduate chiropractor. ~~who satisfies To be approved by the board, the proposed replacement chiropractor preceptor shall satisfy~~ the requirements ~~in~~ under s. Chir 9.05 (1) ~~(a)~~ and ~~(e)~~ (3) to ~~(f)~~ (7). The proposed chiropractor preceptor ~~need not have been listed by~~ is not required to be a member of the faculty of the chiropractic college operating the preceptorship program.

Chapter Chir 5

CONTINUING EDUCATION

Chir 5.01 Continuing education requirements for credential renewal.

(1)

- (a) Every chiropractor shall complete at least 40 continuing education credit hours in approved continuing education programs during each 2-year license registration period ending on December ~~44~~ 15 of each even-numbered year, except as specified in s. Chir 3.02 (1) (c).
- (b) Continuing education requirements for license renewal apply to the first full 2-year period in which a chiropractor is licensed.
- (c) The board may grant a waiver, partial waiver, or postponement of the continuing education requirements in cases of hardship.
- (d) Course work completed in pursuit of the educational requirements of ch. Chir 12 may be counted on an hour-for-hour basis.
- (e) Of the 40 continuing education credit hours in par. (a), a chiropractor holding a nutritional counseling certificate issued under ch. Chir 12 shall complete at least 4 continuing education hours in nutrition.
- (f) One credit of course work completed to become proficient in the use of an automated external defibrillator as required in ss. Chir 2.02 (6) (c), 3.02 (1) (e), and 3.03 (1) (i), may be counted as a continuing education credit hour.
- (g) No more than 20 of the continuing education credit hours required under par. (a) may be acquired through participation in online continuing education programs approved under s. Chir 5.02.

(1g)

- (a) Every chiropractic radiological technician shall complete at least 12 continuing education credit hours in approved continuing education programs during each 2-year certificate registration period ending on December ~~44~~ 15 of each even-numbered year. A chiropractic radiological technician who receives an initial certificate during a licensing biennium is not required to satisfy the continuing education requirement from the date of that certificate to the end of that licensing biennium.
- (b) The board may grant a waiver, partial waiver, or postponement of the continuing education requirements in cases of hardship.
- (c) No more than 6 of the continuing education credit hours required under par. (a) may be acquired through participation in online continuing education programs approved under s. Chir 5.02.

(1r)

- (a) Every chiropractic technician shall complete at least 6 continuing education credit hours in approved continuing education programs during each 2-year certificate registration period ending on December ~~44~~ 15 of each even-numbered year. A chiropractic technician who receives an initial certificate during a licensing biennium is not required to satisfy the continuing education requirement from the date of that certificate to the end of that licensing biennium.
- (b) The board may grant a waiver, partial waiver, or postponement of the continuing education requirements in cases of hardship.
- (c) No more than 3 of the continuing education credit hours required under par. (a) may be acquired through participation in online continuing education programs approved under s. Chir 5.02.
- (2) Continuing education credit hours may apply only to the 2-year license period in which the credit hours are acquired, unless either of the following applies:
 - (a) The continuing education credit hours required of a particular chiropractor, chiropractic radiological technician, or chiropractic technician as a consequence of a disciplinary proceeding, informal settlement conference, or resolution of an investigation into the conduct or competence of the chiropractor,

chiropractic radiological technician, or chiropractic technician may not be counted towards the fulfillment of generally applicable continuing education requirements.

- (b) If the chiropractor, chiropractic radiological technician, or chiropractic technician has failed to meet the credential renewal requirement during the period, continuing education hours acquired on or after December 14 15 of any even-numbered year will apply to the preceding period only if the chiropractor, chiropractic radiological technician, or chiropractic technician has failed to meet the credential renewal requirement during that period, and will not apply to any other period or purpose.
- (3) To obtain credit for completion of continuing education programs, a chiropractor, chiropractic radiological technician, or chiropractic technician shall certify on ~~his or her~~ the application for credential renewal that ~~he or she has completed~~ all continuing education credits have been completed as required ~~in~~ under this section ~~for the previous 2-year credential registration period. A chiropractor, chiropractic radiological technician, or chiropractic technician shall retain for a minimum period of 4 years, and shall make available to the board or its agent upon request, certificates of attendance issued by the program sponsor for all continuing education programs for which he or she claims credit for purposes of renewal of his or her credential. Chiropractors, chiropractic radiological technicians, or chiropractic technicians attending a program for credit shall be present in the room where a program is being presented in order to claim credit. A chiropractor, chiropractic radiological technician, or chiropractic technician may claim credit hours for continuing education for which he or she was in actual attendance in the room, except for authorized break periods or to attend to personal hygiene needs.~~
- (4) A chiropractor, chiropractic radiological technician, or chiropractic technician shall retain a certificate or other evidence of attendance issued by the program sponsor for a minimum of 4 years from the date of completion of a continuing education program.
- (5) The board shall require any chiropractor, chiropractic radiological technician, or chiropractic technician who is under investigation by the board for alleged misconduct to submit evidence of compliance with the continuing education requirements under this chapter.

Chir 5.02 Approval of continuing education programs.

- (1) The board may approve a continuing education program ~~which that~~ meets all of the following ~~minimum~~ requirements:
 - (a) The program is sponsored by the Wisconsin ~~chiropractic association~~ Chiropractic Association, ~~the American chiropractic association~~, the ~~international chiropractors association~~ International Chiropractors Association, a college of chiropractic approved by the board, or a college of medicine or osteopathy accredited by an agency recognized by the United States department of education.
 - (b) *Chiropractors.* The program subject matter ~~relates~~ contributes to ~~improving the clinical skills of a chiropractor and is generally taught at the undergraduate or postgraduate level of a chiropractic college meeting the requirements of s. Chir 2.02 (6) (b)~~ the advancement, extension, and enhancement of the professional skills of a chiropractor and fosters the enhancement of general or specialized practice and values. The board will not approve ~~credit for continuing education regarding a program related to a technique or practice which the board has determined to be unsafe or ineffective or a program related to the improvement of general health or well-being.~~
 - (bm) *Chiropractic radiological technician and chiropractic technician.* The program subject matter relates to improving the clinical skills of a chiropractic radiological technician or chiropractic technician, as applicable.
 - (c) The program sponsor agrees to provide a responsible person to monitor and verify the attendance of each registered chiropractor, chiropractic radiologic technician, or chiropractic technician, as applicable, ~~at~~ participating in the program, and the program sponsor agrees to keep the records of attendance for 3 years from the date of the program and to furnish each participant with evidence of having attended the program.

- (d) A program sponsor shall not assign or delegate its responsibilities to monitor or record attendance, provide evidence of attendance, validate course content, or provide information on instructors or other aspects of the program unless the assignment or delegation is specifically identified in the application for approval and approved by the board.
 - (e) The program sponsor has reviewed and validated the program's course content to ensure its compliance with pars. (b) and (bm).
 - (f) When a course instructor of the program is on the undergraduate or postgraduate faculty of a chiropractic college, the program sponsor has provided written verification that the course instructor has been appointed in accordance with the accreditation standards of the ~~council~~ Council on ~~chiropractic education~~ Chiropractic Education, and that the chiropractic college exercises sufficient supervision over a faculty member's course content.
 - (g) The program offers significant professional educational benefit for participants, as determined by the board.
 - (h) The instructor is qualified to present the course.
 - (1m) The board shall approve a continuing education program that is approved under s. 46.03 (38), Stats., to provide instruction in the use of an automated external defibrillator. Subsections (1) to (4) and (6) do not apply to programs approved under this section.
- (2)**
- (a) Continuing education programs may include subject material ~~other than that which relates to improving the clinical skills of a chiropractor and is generally taught at the undergraduate or postgraduate level of a chiropractic college, meeting the requirements of s. Chir 2.02 (6) (b) that does not meet the requirements under sub. (1) (b).~~ However, only the parts of the program ~~which relate to improving the clinical skills of a chiropractor and are generally taught at the undergraduate or postgraduate level of a chiropractic college that include subject material that meets the requirements under sub. (1) (b)~~ are eligible for credit.
 - (am) Continuing education programs may include subject material other than that which relates to improving the clinical skills of a chiropractic radiological technician or chiropractic technician. However, only the parts of the program which relate to improving the clinical skills of a chiropractic radiological technician or chiropractic technician, as applicable, are eligible for credit.
 - (b) Any presentation, program content, materials or displays for the advertising, promotion, sale or marketing of equipment, devices, instruments or other material of any kind or purpose shall be kept separate from the program content and presentation for which approval is applied and granted.
 - (c) Programs shall be approved for one hour of continuing education for every 50 minutes of instruction.
 - ~~(3) Home study programs may be approved for credit only in cases of extreme hardship, as determined by the board.~~
- (4)**
- (a) An application for approval of a continuing education program shall:
 1. Be on a form provided by the board.
 Note: Application forms are available ~~on request~~ from the ~~Department~~ department of ~~Safety~~ safety and ~~Professional Services~~ professional services, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708 ~~website at dsps.wi.gov.~~
 2. Identify the name and address of the program sponsor and describe how the program sponsor qualifies under this section.
 3. Describe the time and place of the program.
 4. Be complete as prescribed in this subsection and filed with the board no later than 75 days prior to the program date. An application is not considered complete until such time as all information required to be submitted with the application, and any supplementary information requested by the board, is received by the board.
 5. Include evidence of the program sponsor's verification showing to the satisfaction of the board that the subject matter ~~is generally taught at the undergraduate or postgraduate level of a chiropractic college meeting the requirements of s. Chir 2.02 (6) (b) and relates to improving the clinical skills of a~~

~~chiropractor~~ meets the requirements under sub. (1) (b). A detailed course outline or syllabus describing the subject matter of the program, and the amount of time devoted to each section of the outline or syllabus shall be attached to the application.

- 5m.** Include evidence of the program sponsor's verification showing to the satisfaction of the board that the subject matter relates to improving the clinical skills of a chiropractic radiological technician or a chiropractic technician, as applicable. A detailed course outline or syllabus describing the subject matter of the program, and the amount of time devoted to each section of the outline or syllabus shall be attached to the application.
- 6.** Describe the names and qualifications of all instructors, and if applicable, whether an instructor of the program who is an undergraduate or postgraduate faculty member of a sponsoring college was appointed in accordance with accreditation standards of the Council on Chiropractic Education (~~CCE~~) or by an agency approved by the United States ~~Office of Education or its successor~~ department of education.
- 7.** Identify whether the program sponsor intends to assign or delegate any of its responsibilities to another person or entity, and if so, include each of the following:
- a.** A specific description of the assignment or delegation.
 - b.** The person or entity who is assigned or delegated to perform the responsibility, including name, address and qualification to perform the responsibility.
 - c.** The method by which the program sponsor intends to assure that the delegated or assigned responsibility is performed.
- (b)** If necessary in order to determine whether an applicant meets the requirements of this chapter, the board may require that the applicant submit information in addition to that described in this section.
- (5)** Continuing education credit may not be awarded for meals or break periods.
- (6)** The sponsor of an approved program shall ensure that the program is carried out and presented as represented to and approved by the board, and that all responsibilities of the program sponsor, an instructor, and any person or entity delegated or assigned a responsibility relating to a program approved by the board are fulfilled.

Note: Continuing education approval request forms are available ~~upon request~~ from the ~~Department~~ department of ~~Safety safety~~ and ~~Professional Services professional services~~, 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708 ~~website at dsps.wi.gov~~.

Chir 5.03 Application denials. The board may deny approval of an application for any of the following reasons:

- (1)** The program or program sponsor does not meet requirements established in this chapter.
- (2)** The emphasis of the program is on the business, management, or insurance aspects of a chiropractic practice rather than on improving the clinical skills of the chiropractor, chiropractic radiological technician, or chiropractic technician, as applicable.
- (3)** The board determines that the program sponsor has not provided adequate assurance that responsibilities delegated or assigned to others will be satisfactorily performed.
- (4)** The program sponsor, an instructor, or a person delegated or assigned a responsibility has a financial, personal or professional interest which conflicts directly with the performance of responsibilities in this chapter.
- (5)** Failure on the part of a program sponsor, an instructor, or a person delegated or assigned a responsibility to carry out a program as represented to and approved by the board or as provided in this chapter.

Chapter Chir 6

STANDARDS OF CONDUCT

Chir 6.01 Authority.
Chir 6.015 Definition.

Chir 6.02 Unprofessional conduct.
Chir 6.03 Duty to evaluate and inform.

Chir 6.01 Authority. The rules in ch. Chir 6 are adopted under authority in ss. 15.08 (5) (b), 227.11 and 446.04, Stats.

History: Cr. Register, December, 1984, No. 348, eff. 1-1-85; correction made under s. 13.93 (2m) (b) 7., Stats., Register, March, 1990, No. 411.

Chir 6.015 Definition. In this chapter:

(1) "Advertisement" means any communication disseminated or intended to be disseminated to the public which is likely to or intended to induce, directly or indirectly, the rendering of professional services by the chiropractor named in or identified by the communication. "Advertisement" includes professional business cards, professional announcement cards, office signs, letterhead, telephone directory listings, directories or listings of health care practitioners, and communications which are likely to or intended to induce, directly or indirectly, the rendering of professional services by the chiropractor named in or identified by the communication in newspapers, broadsides, flyers, radio, television, books, magazines, or motion pictures.

History: Cr. Register, November, 1997, No. 503, eff. 12-1-97.

Chir 6.02 Unprofessional conduct. Unprofessional conduct by a chiropractor includes:

- (1) Engaging in any practice which constitutes a substantial danger to the health, welfare or safety of a patient or the public.
- (2) Practicing or attempting to practice when unable to do so with reasonable skill and safety to patients.
- (3) Practicing in a manner which substantially departs from the standard of care ordinarily exercised by a chiropractor.
- (4) Practicing or attempting to practice beyond the scope of a license issued by the board, including but not limited to acts prohibited under s. Chir 4.05 (1).
- (5) Practicing or attempting to practice while the ability to perform is impaired by physical, mental or emotional disorder, drugs or alcohol.
- (6) Performing professional services inconsistent with training, education or experience.
- (7) Engaging in sexual contact, exposure, gratification, or other sexual behavior with or in the presence of a patient.
- (8) Engaging in excessive evaluation or treatment of a patient.
- (9) Failing to conduct a competent assessment, evaluation or diagnosis as a basis for treatment or consultation.
- (10) Revealing confidential patient information without consent of a patient, except that information shall be revealed to the board or its representatives pursuant to investigation of a licensee or as otherwise authorized by law.
- (11) Refusing to render services to a person because of race, color, sex or religion.
- (12) Knowingly falsifying patient records.
- (13) Impersonating another chiropractor.
- (14) Obtaining or attempting to obtain any compensation for chiropractic services by fraud, including billing for services not rendered or submitting a claim for a fraudulent diagnosis.

Note: The use by a licensee of "no out-of-pocket expense" payment arrangements may constitute insurance fraud, and may therefore violate this subsection as well as s. 943.395, Stats.

(15) Advertising in a manner which is false, deceptive or misleading. An advertisement which does any of the following is false, deceptive or misleading:

- (a) Contains a misrepresentation of fact.
- (b) Is likely to mislead or deceive because of a failure to disclose material facts.
- (c) Is intended to or is likely to create false or unjustified expectations of favorable results.
- (d) Fails to prominently disclose complete details of all variables and material factors relating to any advertised fee.
- (e) Contains any representation or implication that in reasonable probability will cause an ordinarily prudent person to misunderstand or be deceived.
- (f) Includes reference to or implies specialization or advanced training unless all of the following are true:

1. The specialty is recognized by a council of the American chiropractic association or the international chiropractors association.

2. The specialty requires at least 300 hours of postgraduate credit hours and passage of a written examination approved by the American chiropractic association or the international chiropractors association.

3. The title applied to the specialty by the chiropractor is the title applied by the American chiropractic association or the international chiropractors association.

(g) Includes reference to or implies advanced training unless all of the following are true:

1. The postgraduate training was received in one, unified program approved by the American chiropractic association or the international chiropractors association, or through one, unified program at a college accredited by the council on chiropractic education and approved by the board.

2. The chiropractor has completed at least 100 hours of postgraduate training in the area in which the chiropractor claims advanced training.

3. The postgraduate training program includes successful completion of a written examination as a requirement for successful completion of the training program.

(h) Appears in any classified directory, listing or other compendium under a heading, which when considered together with the advertisement, has the capacity or tendency to be deceptive or misleading with regard to the profession or professional status of the chiropractor.

(i) Implies that the chiropractic services provided will result in emotional or spiritual benefits.

(16) Aiding or abetting or permitting unlicensed persons in the practice of chiropractic.

(17) Failing to exercise a reasonable degree of supervision over subordinate employees.

(18) Obtaining or attempting to obtain a license through fraud or misrepresentation or making any material misstatement, omission or falsification in connection with an application for a license, registration or renewal.

(19) Refusing upon request to cooperate in a timely manner with the board's investigation of a complaint lodged against a

licensee. Licensees taking longer than 30 days to respond shall have the burden of demonstrating that they have acted in a timely manner.

(20) Knowingly providing false information to the board or its representative.

(21) Failing to notify the board of having a chiropractic license, certificate, permit or registration granted by any other jurisdiction subject to disciplinary action.

(22) Having a license, certificate, permit or registration granted by another jurisdiction to practice as a chiropractor limited, suspended or revoked, or subject to any other disciplinary action.

(23) Failing to notify the board of any criminal conviction, the circumstances of which relate substantially to the practice of chiropractic.

(24) Being convicted of a crime substantially related to the practice of chiropractic.

(25) Violating any provision of ch. 446, Stats., or any rule or order of the board.

(26) Violating a law, or aiding or abetting the violation of any law substantially related to the practice of chiropractic.

(27) Failing to maintain patient records for a minimum period of 7 years after the last treatment or after the patient reaches the age of majority, whichever is greater.

(28) Failing to release patient health care records to a patient in accordance with s. 146.83, Stats.

(29) Negating the co-payment or deductible provisions of a contract of insurance by agreeing to forgive any or all of the patient's obligation for payment under the contract unless the chiropractor reduces the chiropractor's claim to the insurance carrier in regard to that patient by an equal proportion. In this section, "co-payment or deductible provisions" means any terms in a contract of insurance with a third party whereby the patient remains financially obligated to the chiropractor for payment.

Note: It is no violation of this rule for a chiropractor to adjust fees, but the fee charged must be accurately reported to any third party payor. It is no violation of this rule for a chiropractor to provide treatment without any charge.

(30) Giving or receiving unauthorized assistance, violating rules of conduct, or otherwise cheating or acting dishonestly respecting any examination required for the granting of a license or registration to practice chiropractic.

(31) Making a representation likely to create an unjustified expectation about the results of a nutritional counseling service or procedure.

History: Cr. Register, December, 1984, No. 348, eff. 1-1-85; am. (4), Register, October, 1989, No. 406, eff. 11-1-89; cr. (27) and (28), Register, January, 1992, No. 433, eff. 2-1-92; cr. (29), Register, January, 1993, No. 445, eff. 2-1-93; am. (7), Register, June, 1993, No. 450, eff. 7-1-93; am. (27), Register, May, 1997, No. 497, eff. 6-1-97; r. and recr. (15), Register, November, 1997, No. 502, eff. 12-1-97; am. (18), cr. (30), Register, September, 1999, No. 525, eff. 10-1-99; CR 03-082: am. (14) Register July 2004 No. 583, eff. 8-1-04; CR 06-051: cr. (31) Register November 2006 No. 611, eff. 12-1-06.

Chir 6.03 Duty to evaluate and inform. (1) A chiropractor shall evaluate each patient to determine whether the patient presents a condition that is treatable through chiropractic means. An evaluation shall be based upon an examination appropriate to the presenting patient. In conducting an evaluation, a chiropractor shall utilize chiropractic science as described in s. Chir 4.02 and the principles of education and training of the chiropractic profession.

(2) If an evaluation indicates a condition treatable by chiropractic means, the chiropractor shall treat the patient using appropriate chiropractic means.

(3) If an evaluation indicates a condition which is not treatable through chiropractic means, the chiropractor shall inform the patient that the condition is not treatable through chiropractic means and recommend that the patient seek additional advice or care.

(4) A chiropractor may render concurrent or supportive chiropractic care to a patient, but a chiropractor shall refrain from further chiropractic treatment when a reasonable chiropractor should be aware that the patient's condition will not be responsive to further treatment.

History: Cr. Register, June, 2000, No. 534, eff. 7-1-00.

Chapter Chir 12

NUTRITIONAL COUNSELING CERTIFICATION

Chir 12.01 Definitions.
 Chir 12.02 Requirements for nutritional counseling certification.
 Chir 12.03 Approval of nutritional counseling education programs.

Chir 12.04 Application denials.
 Chir 12.05 Revocation of approval.
 Chir 12.06 Prohibited practices.

Chir 12.01 Definitions. In this chapter:

(1) “Administering” means the direct application of a product, whether by ingestion or any other means, to the body of a patient or research subject by any of the following:

- (a) A chiropractor.
- (b) A patient or research subject at the direction of the chiropractor.

(2) “Dispensing” means delivering a product to an ultimate user or research subject by a chiropractor.

(3) “Nutritional counseling” means providing counsel, direction, guidance, advice or a recommendation to a patient regarding the health effects of vitamins, herbs or nutritional supplements.

(4) “Nutritional supplement” means a product, other than tobacco, that is intended to supplement the diet that contains one or more of the following dietary ingredients: a vitamin, a mineral, an herb or other botanical, an amino acid, a dietary substance for use by man to supplement the diet by increasing the total daily intake, or concentrate, metabolics, constituent, extract or combination of these ingredients; or is labeled as a nutritional or dietary supplement.

History: CR 06–051: cr. Register November 2006 No. 611, eff. 12–1–06.

Chir 12.02 Requirements for nutritional counseling certification. (1) The board shall grant a certificate for nutritional counseling to a licensed chiropractor who does all of the following:

- (a) Submits an application for a certificate to the department on a form provided by the department.

Note: Application forms are available on request to the board office located at 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708, or from the department’s website at: <http://dps.wi.gov>.

- (b) Pays the fee specified in s. 446.02 (2) (c), Stats.

- (c) Submits evidence satisfactory to the board that he or she has completed any of the following:

1. Received a postgraduate degree in human nutrition, nutrition education, food and nutrition or dietetics conferred by a college or university that is accredited by an accrediting body listed as nationally recognized by the secretary of the federal department of education.

2. Received diplomate status in human nutrition conferred by a college of chiropractic accredited by the Council on Chiropractic Education (CCE) or approved by the board or by an agency approved by the United States office of education or its successor.

3. Received a postgraduate degree in human nutrition conferred by a foreign school determined to be equivalent to an accredited college of chiropractic by the CCE or approved by the board or another board approved accrediting agency, indicating that the applicant has graduated from a program that is substantially equivalent to a postgraduate or diplomate program under subd. 1. or 2.

4. Received a degree from or otherwise successfully completed a postgraduate program after December 1, 2006 consisting of a minimum of 48 hours in human nutrition that is approved by the board as provided in s. Chir 12.03, after December 1, 2006.

History: CR 06–051: cr. Register November 2006 No. 611, eff. 12–1–06.

Chir 12.03 Approval of nutritional counseling education programs. (1) To qualify for board approval as a nutritional counseling education program under s. Chir 12.02 (1) (c) 4., a program shall meet all of the following minimum requirements:

- (a) The program is sponsored by the Wisconsin Chiropractic Association, the American Chiropractic Association, the International Chiropractors Association, a college of chiropractic approved by the board, or a college of medicine or osteopathy accredited by an agency recognized by the United States department of education.

- (b) The program subject matter includes core curriculum education in each of the following areas:

1. Nutrition counseling and initial screening to include nutrition physical examination.

2. Diet history taking.

3. Analysis of laboratory data including hair, saliva, urine and blood samples.

4. Symptoms of severe vitamin and nutritional deficiencies, and the toxicity of excess vitamin and mineral supplementation, herbals or other nutritional supplements.

5. Protein, carbohydrates, and fat macronutrient needs and symptoms of deficiencies of any of these nutrients.

6. Vitamin recommended daily allowances and dietary reference intakes.

7. Mineral and metals needs of the human body and the biochemistry of essential and non-essential nutritional supplements.

8. Fiber needs.

9. Codex Alimentarius Commission.

10. Dietary supplement health and education act of 1994, P.L. 103–417 and related regulations.

11. Etiology of organ system dysfunction, internal medicine diseases and conditions.

12. Supplements and nutrition.

13. The efficacy, safety, risks and benefits of glandular products, chelation therapy and therapeutic enzymes.

14. Food composition and foods as a source of vitamins.

15. Sports nutrition, endurance, body building and exercise physiology.

16. Weight management and control.

17. Contraindications, side effects, and toxic effects of botanicals, nutritional supplements and diet products.

18. Nutrition across the life cycle.

19. Nutrition relating to infants, pregnancy and lactation.

20. Geriatric nutritional needs.

21. Adolescent nutrition needs.

22. Male and female nutrition needs.

23. Therapeutic use of botanical medicine.

24. Food, drug, and nutritional supplements interactions.

25. Safety and efficacy – risks and benefits of nutritional supplements.

- (c) The program sponsor agrees to provide a responsible person to monitor and verify the attendance of each registered chiropractor at the program, and the program sponsor agrees to keep the

records of attendance for 3 years from the date of the program and to furnish each participant with evidence of having attended the program.

(d) The program sponsor shall not assign or delegate its responsibilities to monitor or record attendance, provide evidence of attendance, compare course content with subject matter content required under sub. (1) (b), or provide information on instructors or other aspects of the program unless the assignment or delegation is specifically identified in the application for approval and approved by the board.

(e) The program sponsor has reviewed and validated the program's content to insure its compliance with par. (b).

(f) When a course instructor of the program is on the undergraduate or postgraduate faculty of a chiropractic college, the program sponsor has provided written verification that the course instructor has been appointed in accordance with the accreditation standards of the Council on Chiropractic Education.

(g) The program offers significant professional educational benefit for participants, as determined by the board.

(h) The instructor is qualified to present the course.

(i) The program shall include a written assessment instrument, designed to ensure that the chiropractor actively participated in the presentation of material and derived a measurable benefit from participation. There shall be an assessment or test at the conclusion of each 12 hours of education. A score of 75% or higher shall be considered a passing score.

(j) The program shall contain a reasonable security procedure to assure that the chiropractor enrolled is the actual participant.

(k) Programs shall be approved for one hour of education credit for every 50 minutes of instruction. The time used for testing and assessment purposes shall not be included in the computation of educational credit.

(2) (a) An application for approval of a nutritional counseling education program shall meet all of the following requirements:

1. Be on a form provided by the board.

Note: Application forms are available on request to the board office located at 1400 East Washington Avenue, P.O. Box 8935, Madison, Wisconsin 53708, or from the department's website at: <http://dps.wi.gov>.

2. Identify the name and address of the program sponsor and describe how the program sponsor qualifies under s. Chir 12.03 (1) (a).

3. Describe the time and place of the program.

4. Be complete as prescribed in this subsection and filed with the board no later than 75 days prior to the program date. An application is not considered complete until such time as all information required to be submitted with the application, and any supplementary information requested by the board, is received by the board.

5. Include evidence of the program sponsor's verification showing to the satisfaction of the board that the subject matter is generally taught at the undergraduate or postgraduate level of a chiropractic college and relates to improving the clinical skills of a chiropractor. A detailed course outline or syllabus describing the subject matter of the program, and the amount of time devoted to each section of the outline or syllabus shall be attached to the application.

6. Describe the names and qualifications of all instructors, and if applicable, whether an instructor of the program who is an undergraduate or postgraduate faculty member of a sponsoring college was appointed in accordance with accreditation standards of the Council on Chiropractic Education.

7. Identify whether the program sponsor intends to assign or delegate any of its responsibilities to another person or entity, and if so, include all of the following:

a. A specific description of the assignment or delegation.

b. The person or entity who is assigned or delegated to perform the responsibility, including name, address and qualification to perform the responsibility.

c. The method by which the program sponsor intends to assure that the delegated or assigned responsibility is performed.

8. Include a written assessment instrument, designed to ensure that the chiropractor actively participated in the presentation of material and derived a measurable benefit from participation.

9. Include a reasonable security procedure to assure that the chiropractor enrolled is the actual participant.

(b) If necessary, in order to determine whether an applicant meets the requirements of this chapter, the board may require that the applicant submit information in addition to that described in this section.

(3) Continuing education credit may not be awarded for meals, breaks, testing or assessment periods.

(4) The sponsor of an approved program shall ensure that the program is carried out and presented as represented to and approved by the board, and that all responsibilities of the program sponsor, an instructor, and any person or entity delegated or assigned a responsibility relating to a program approved by the board are fulfilled.

(5) The approval of a course shall be effective only for the biennium in which it is approved.

History: CR 06-051: cr. Register November 2006 No. 611, eff. 12-1-06.

Chir 12.04 Application denials. The board may deny approval of an application submitted under s. Chir 12.03 for any of the following reasons:

(1) The program or program sponsor does not meet requirements established in this chapter.

(2) The emphasis of the program is on the business, management, or insurance aspects of a chiropractic practice rather than on improving the clinical skills of the chiropractor.

(3) The board determines that the program sponsor has not provided adequate assurance that responsibilities delegated or assigned to others will be satisfactorily performed.

(4) Any presentation, program content, materials or displays for the advertising, promotion, sale or marketing of equipment, devices, instruments or other material of any kind or purpose is not kept separate from the program content and presentation for which approval is applied and granted.

History: CR 06-051: cr. Register November 2006 No. 611, eff. 12-1-06.

Chir 12.05 Revocation of approval. The board may revoke approval of a program for any of the following reasons:

(1) The program sponsor, an instructor, or a person delegated or assigned a responsibility has a financial, personal or professional interest which conflicts directly with the performance of responsibilities in this chapter.

(2) Failure on the part of a program sponsor, an instructor, or a person delegated or assigned a responsibility to carry out a program as represented to and approved by the board or as provided in this chapter.

History: CR 06-051: cr. Register November 2006 No. 611, eff. 12-1-06.

Chir 12.06 Prohibited practices. (1) A chiropractor shall not delegate to any chiropractic assistant or other person any recommendations, analysis, advice, consultation or dispensing with respect to vitamins, herbs, or nutritional supplements. Nothing in this subsection may be construed to prevent chiropractic assistants or administrative employees from processing sales of vitamins, herbs, or nutritional supplements.

(2) After December 1, 2008 a chiropractor shall not sell, barter, trade or give away vitamins, herbs or nutritional supplements

unless the chiropractor holds a certificate for nutritional counseling and except as consistent with the provisions of this chapter.

(3) A chiropractor shall not deliver, dispense, administer, transfer or sell a product unless that product is prepackaged for use by consumers and labeled in accordance with the requirements of state and federal law.

History: CR 06-051: cr. Register November 2006 No. 611, eff. 12-1-06.

AGENDA REQUEST FORM

Chiropractic Family Wellness Lifestyle*

Dr. Tom Ryan
Executive Director
Chiropractic Examining Board
DSPA
PO Box 8366
Madison, WI 53708-8366

August 23, 2018

Dear Dr. Ryan,

We are hoping you can help resolve an issue with the continuing education application for the ICPA event, Freedom for Family Wellness Summit, held March 1-4, 2018 in Reston, VA. The application was emailed to Peter Schramm on December 15, 2017. Mr. Schramm replied via email on February 23, 2018 to inform us that there were issues with the application form and requested that we correct and re-send the application. The corrected application was re-submitted via email the same day.

After many email requests and voice mail messages to request status of the application (copies available upon request), we received an email on July 27, 2018 informing us that the board could not accept the application as it was not received within 75 days of the course date and that the application was denied. As you can imagine, the Wisconsin Licensees are now concerned that they will not meet their CE requirements due to the course denial at this late date.

Since the application was emailed within 75 days of the March 1, 2018 Summit date, we are requesting the application be reconsidered for approval. We very much appreciate your attention to this matter, as our Wisconsin members are depending on these hours for their CE requirements.

Sincerely,

Jeanne Ohm, DC
ICPA Chief Executive Officer

Freedom for Family Wellness Summit

Sponsored by the ICPA

Co-Sponsored by Cleveland Chiropractic College

March 1,2,3,4, 2018 at the Hyatt Regency Hotel in Reston, Virginia

General Session Weekend Schedule

Thursday March 1, 2018

Time: 7:00pm – 7:30pm

Co-Instructor: Jeanne Ohm, DC

Title: Chiropractic Today for a Better World Tomorrow.

Session Outline and Objectives: To connect the relationship between family wellness and chiropractic care in pregnancy and throughout childhood. Dr. Jeanne Ohm will address the health need for chiropractic care in today's climate of stress along with the importance of understanding supportive holistic disciplines. The objective of this class is to validate the significance of family care in today's stressful environment.

*Lecture: Principles of Practice
.5 hours*

Time: 7:30pm – 9:00 pm

Co-Instructors: Joel Alcantara, DC, Liz Anderson-Peacock, DC, Anthony Carrino, DC, Ron Castellucci, DC, Michael Hall, DC, Peter Kevorkian, DC, Mary Lucas Flannery, DC, Stephen Marini, DC, John Minardi, DC, Jeanne Ohm, DC, Marty Rosen, DC, Armand Rossi, DC, Drew Rubin, DC, Marcia Schaefer, DC, Jim Thompson, DC

Title: Salutogenic Care in the Family Practice

Session Outline and Objectives: In this session, all current ICPA instructors will provide a synopsis addressing key objectives of their 12 hour certification class, and the relationship between their class and the salutogenic model of health.

*Lecture: Principles and Practice
1 hour*

Time: 9:00pm – 9:30pm

Co-instructor: Peter Kevorkian, D.C.

Title: Chiropractic Philosophy, Science and Art

Session Objective and Outline: In this session, Dr. Kevorkian will present the importance of the integration of the salutogenic model of health in chiropractic. He will emphasize the importance of mastery in the combined skills of philosophy, science and art for the chiropractor.

*Lecture: Principles of Practice
.5 hours*

Friday March 2, 2018

Time: 8:30am – 9:20am

Co-Instructor: Ina May Gaskin, MS, CPN, PhD (Hon)

Title: The Beauty of Normal Physiology in Pregnancy and Labor

Session Outline and Objectives: The goal of this session is to promote understanding about the importance of freedom of maternal movement during labor and birth in helping women achieve their physiological best, wherever they give birth. Maternal movement, or lack of it, affects fetal position, the ability to release endogenous oxytocin, maternal-fetal circulation, length of labor, pelvic diameters, need for pain relief, and babies' ability to correct less favorable positioning. Recent promising statements and research will be presented. The objective of this class is so that Doctors of Chiropractic will review normal physiology, its role in birth and therefore inform their patients to make physiologically based, evidenced informed decisions in birth.

*Lecture: Basic Sciences Anatomy and Physiology
1 hour*

Time: 9:30am – 10:20am

Co-Instructor: Robbie Davis Floyd, PhD

Title: The Technocratic, Humanistic, and Holistic Paradigms of Birth and Health Care

Session Outline and Objectives: This presentation describes the three major global paradigms of birth and health care--the technocratic, humanistic, and holistic models of medicine and health care. Central to each paradigm is its definition of the body. The profound differences in belief, practice, and worldview among practitioners of each of these three paradigms are explained, so that practitioners and women can understand the power of these paradigms to influence belief and practice and evaluate their own choices in terms of where they wish to stand on this spectrum.

The objective of this class is for Doctors of Chiropractic to understand these paradigms in terms of choices for their pregnant patients and also to find the relationship of these types of care in their own practices.

*Lecture: Principles of Practice
1 hour*

Time: 10:30am – 11:20pm

Co-Instructor: Chris Lowhert, DC

Title: Understanding Healing in Children through the Five Biological Laws

Session Outline and Objectives:

The effects of emotional stress are often overlooked in the diagnosis and treatment of disease. This session will explore biological markers and neurological indicators that record a child's

emotional stressful incidents and therefore affect their innate ability to heal and be well. The attendee will leave with a greater understanding of reproducible biological indicators that assist in the healing process.

Lecture: Basic Sciences- Neurology, Physiology
1 hour

Time: 1:30pm – 2:20pm

Co-Instructor: Cillia Whatcott, PhD

Title: Real Immunity

Session Outline and Objectives: Real immunity is inherent to our biological design. Numerous healing modalities affirm the chiropractic principle that healing is a normal, natural process needing time, and a functioning physiology. In this class, Dr. Whatcott will offer insights from her recent documentary where she interviews many practitioners and their holistic approaches to family wellness. The family chiropractor will leave with a greater understanding of complimentary approaches in providing the most optimal care for children along with tools to help parents shift from fear to trust.

Lecture: Principles of Practice
1 hour

Time: 2:30pm – 3:20pm

Co-Instructor: Barbara Loe Fisher

Title: Your Right to be Informed, Your Freedom to Choose

Session Outline and Objectives: Today, parents are faced with a multitude of opinions regarding family wellness and sorting fact from self-interest can be daunting. Understanding the ethics of informed choice in health care is a must for every practitioner. Consumer advocacy expert Barbara Loe Fisher will assist attendees in understanding the legal tenants of informed choice and direct attendees to current research so that more objective decisions regarding public health expectations and family well-being can be made.

Lecture: Principles of Practice
1 hour

Time: 3:30pm – 4:20pm

Co-Instructor: John Minardi, DC

Title: How the Adjustment Assists Brain Adaptation

Session Outline and Objectives: Dr. Minardi clearly explains how the adjustment enhances areas of the brain associated with balance, awareness, memory and learning as well as highly specialized functioning of the brain. The adjustment's role in connecting with frequencies, enhancing the movement of cerebral spinal fluid and stimulating the Vagus nerve are beautifully explained. The adjustment's effect on the ANS and how this can change an individual's personality is masterfully highlighted. The practitioner will leave with a deeper understanding of the adjustment's effects on brain function.

Lecture: Basic Sciences- Neurology
1 hour

Time: 7:00pm– 8:30pm

Co-Instructor: Robert F. Kennedy, Jr.

Title: “Contract with the Future”

Session Outline and Objectives: America’s most noted environmental activist and the namesake of one of the country’s most beloved public servants reminds us that we don’t inherit the planet from our ancestors, we borrow it from our children. Kennedy reminds us of the health, economic and spiritual benefits of good environmental decisions, and the importance in making informed choices that impact our children and future generations. The objective of this class is to engage family chiropractors in assisting parents in making the best health choices for the well-being of their families. Resources and current research will be made available.

*Lecture: Principles of Practice
1.5 hours*

Saturday March 3, 2018

Time: 8:30am – 9:20am

Co-Instructors: Bobby Doscher, DC

Title: Restoring Life in Children with the Atlas Adjustment

Session Outline and Objectives: Dr. Bobby Doscher, Director of Oaklahaven Children’s Chiropractic Center will share 30 plus years of clinical experience in working with challenged children. Using before and after photos, along with explanatory narrative, Dr. Doscher will engage participants in the importance of specific chiropractic adjustments for children.

*Lecture: Clinical Science
1 hour*

Time: 9:30am – 10:20am

Co-Instructor: Jay Warren, DC

Title: Changing the World, One Birth at a Time

Session Outline and Objectives: The fields of Epigenetics and Pre and Perinatal Psychology show us how not only a fetus's future health expression can be powerfully influenced during pregnancy, but their psychological development can be imprinted upon by in-utero experiences as well. These new understandings about the impact of the prenatal environment elevates our responsibility as practitioners to care for the pregnant woman and the unborn baby in a whole new way. Mother-child bonding before birth leads to calmer babies that are easier to soothe and more confident moms which allows the family to start off life together healthier and happier. The attendee will leave with proven methods to use in their practices to initiate mother-child bonding in-utero which help ease their transition into parenthood (and their baby’s transition into the world).

*Lecture: Basic Sciences- Neurology
1 hour*

Time: 10:30am – 11:20am

Co-Instructor: Zail Khalsa, DC

Title: Consciousness in Chiropractic: Scientific validation of the Major Premise, Tone and the Neuro Skeletal Tension Framework.

Session Outline and Objectives: Dr. Khalsa will propose this working hypothesis: chiropractic is at the intersection of the fields of biomechanics, neurophysiology and extended consciousness. He starts his class with DD Palmer's foundational concepts of Tone (1910) and the Neuro Skeletal Tension Framework (1914) "At the end of his chiropractic career DD had come to believe that the nervous system as a mesh work of fine threads stretched out across the skeletal structure of the body. When one or more joints subluxated, in the spine or elsewhere, this would tend to stretch or relax the nerves, thereby altering communication to end-organs, causing either inflammation (too much nerve tension) or cold hard tumors (too little nerve tension)." ~Joe Keating

Throughout the class, Khalsa will substantiate his hypothesis by relating the work of Neurosurgeon Alf Brieg in "Adverse Mechanical Tension in the CNS"; onward through Tasaki's research on soliton nerve conduction; all the way to Hameroff, Penrose and Bandyopadhyay's research on quantum effects in biological systems as a proposed interface between consciousness and matter; Kaufman's ideas of the poised realm; Chalmers, Koch and Tononi's "protopanpsychism"; finally reaching the Major Premise of Stephenson's Chiropractic Textbook (1927) "There is a Universal Intelligence".

*Lecture: Basic Sciences- Neurology
1 hour*

Time: 11:30am – 12:20pm

Co-Instructor: William Esteb

Title: Disruptive Chiropractic

Session Outline and Objectives: Chiropractic is a disruptive idea that is often minimized or softened in the hopes of greater acceptance. It hasn't worked. This class will remind of the simple elegance and revolutionary principles that originally attracted you to chiropractic and what it will take to reclaim your vision and inspire patients. The objective of this class is to orient and embolden each Doctors of Chiropractic by reminding them of essential principles and practices of chiropractic and their vital relevance in their own practices and today's family's health care needs.

*Lecture: Principles and Practice
1 hour*

Time: 1:30pm – 2:20pm

Co-Instructors: Dean DePice, DC, Jennifer DePice, DC

Title: What Drives You?

Session Outline and Objectives: Chiropractors care for people from the inside out. Then why don't we practice and live our lives in practice and home from inside out? We look outside for answers and for magic bullets to transform our lives. In this class we explore that the "hows" are easy when the "whys" are clear. We all have a mission, a calling and procedures but these are

three distinct parts not one and the same. All of us if provoked and guided through a reproducible process would greatly benefit from digging into our personal, unique "statement of desire" (SOD), that comes from our hearts and our experiences. This class will be an interactive and facilitated experience unlike any other which will add joy to your life in practice and congruency of the chiropractic philosophical principles into your life.

*Lecture: Principles and Practice
1 hour*

Time: 2:30pm – 3:20pm

Co-Instructor: William McKenna, BA

Title: Healing Essentials

Session Outline and Objectives: The founding fathers in chiropractic introduced us to specific principles for chiropractors to incorporate into their adjustive techniques. These included: recognizing the body's innate ability to function perfectly, non-attachment to outcome and service from a state of unconditional love. In this session, William McKenna will recapture these concepts with techniques that create a presence where patients can achieve a state of wholeness. The objective of the presentation is to understand how practitioners can access their true potential and then to actually experience our ability to remotely influence another in a positive, healing way.

*Lecture: Principles and Practice
1 hour*

Time: 3:30pm – 4:20pm

Co-Instructor: Donald Epstein, DC

Title: The Evolution of Health Care

Session Outline and Objectives: In this session, Dr. Epstein will discuss "Reorganizational Healing: A Paradigm for the Advancement of Wellness, Behavior Change, Holistic Practice, and Healing." He will cover results from published research that shows how in one aspect of ROH, Network Spinal Analysis (NSA), ROH electromyographic measurements of the central nervous system (CNS) can determine the organization and synchronization of electrical signals across the entire spine-whereas in neurologic disorders there is a lack of synchronization of these signals. However, with healing, the innate ability of the CNS to reorganize is harnessed so that the signals become less random and more predictable which is indicative of greater organization of the circuitry.

*Basic Sciences: Neurology
1 hour*

Freedom for Family Wellness Summit

Sponsored by the ICPA

Co-Sponsored by Cleveland Chiropractic College

March 1,2,3,4, 2018 at the Hyatt Regency Hotel in Reston, Virginia

Concurrent Workshops Schedule

Thursday March 1, 2018

Time: 9:00am – 11:00am

Co-Instructor: Tony Carrino, DC

Title: Risk Management in the Chiropractic Practice

Session Outline and Objectives: This session will help the doctor of chiropractic identify areas of risk within practice, in both procedures and attitudes. Additionally, the concerns relating to the risk for stroke will be addressed so doctors of chiropractic understand the published literature and clinical implications. The objective of the class is to create a greater patient-centered model of shared decision making.

*Lecture: Risk Management
2 hours*

Track A

Time: 12:30pm – 1:30pm

Co-Instructor: Dr. Drew Rubin

Title: Is Humanity De-evolving?

Session Outline and Objectives: Humanity is de-evolving! Infertility, C-sections, latching problems, colic, reflux, ear infections, Autism, ADHD are all at near epidemic proportions. Shouldn't we be evolving past all this? Maybe there's a reason why we aren't. The science of normal physiology and the effect the chiropractic adjustment has on restoring neurological and physiological function is the answer. Dr. Rubin will offer the research and practice models supporting this.

*Workshop: Chiropractic Assessment and Adjusting
1 hour*

Time: 1:30pm – 2:30pm

Co-Instructor: John Edwards, DC, DACCP

Title: Upskilling the Perinatal Chiropractor: Building on the Webster Foundation

Session Outline and Objectives: Webster Certification is the first step to becoming a perinatal chiropractor, but it certainly isn't the last. Build on your basics to address the special populations of VBAC, pendulous abdomen, perinatal sacroiliac hypermobility, and symphysis pubis dysfunction. Attendees will learn a screening protocol with measurable objective outcomes.

Workshop: Chiropractic Assessment and Adjusting
1 hour

Time: 2:30pm – 3:30pm

Co-Instructor: Marcia Schaefer, DC

Title: Preconception Stats – Strengthening Our Future

Session Outline and Objectives: Through the science of epigenetics, we learned that genes don't cause disease. Our environment, and our perceptions of our environment, however, DO create our reality, and dictate how our bodies respond. As family chiropractors we play a vital role in the future of public health by the lifestyle care we offer parents. This class will offer the practicing chiropractor a strategy of assessment for the families under their care with the resources and research to substantiate it.

Lecture: Principles and Practice
1 hour

Time: 3:30pm – 4:30pm

Co-Instructor: Ian Shtulman, DC, CACCP

Title: Building Bridges: Creating Interprofessional Relationships

Session Outline and Objectives: The chasm between chiropractors and other medical professionals has kept countless patients from receiving subluxation-based chiropractic care. The opportunity to bridge that gap has never been greater, but requires a particular mindset, communication strategy, and interprofessional approach. This course will help chiropractors build relationships with other healthcare professionals, specifically leading to referrals for subluxation-based corrective care. Dr. Ian Shtulman will discuss techniques he utilized to establish referral relationships with obstetricians, pediatricians, midwives, doulas, and others.

Lecture: Principles and Practice
1 hour

Track B

Time: 12:30pm – 1:30pm

Co-Instructor: Sarah Hogan, DC and James Thompson, DC, FICPA

Title: The Universal Infant Exam: An essential tool for transitioning into a salutogenic practice

Session Outline and Objectives: This class will demonstrate and deliver a universal method of examining newborns and infants. The exam we will teach is applicable and adaptable, however, independent of symptoms and chiropractic techniques. This exam is designed to exam neurological, developmental and structural systems within the child.

The chiropractor will leave with an understanding of salutogenesis and the importance of it in chiropractic wellness care. The ultimate goal is to heighten confidence in examining newborns/infants and therefore proceed with cultivating an individualized care plan to help each patient maximize their functional potential. This exam will provide a template for this proactive model of health.

*Workshop: Chiropractic Assessment and Exam
1 hour*

Time: 1:30pm – 2:30pm

Co- Instructor: Martin Rosen, DC

Title: The Sphenobasilar and its Effects on Pediatric Development

Session Outline and Objectives: Dr. Rosen will cover the relationship between cranial and upper cervical subluxations by addressing the function of the sphenobasilar articulation. He will provide a clear perspective on how these common subluxations have a direct impact on childhood development and growth. The doctor of chiropractic will leave with new tools and perspectives in the analysis and adjustment of infants.

*Workshop: Chiropractic Assessment and Adjusting
1 hour*

Time: 2:30pm – 3:30pm

Co- Instructor: Jonathan Chung, DC

Title: The Upper Cervical Spine in Pediatric Concussions

Session Outline and Objectives: This course will discuss the effects of a concussive injury on the pediatric spine and nervous system with a special focus on the upper cervical subluxation complex. The course will discuss the physiology of concussion and how the cervical spine may contribute to post-concussion syndrome. We will also discuss reliable and valid outcomes assessments that can be applied to chiropractic practice. The objective of this class is to learn evidenced informed assessments in children with head injuries.

*Workshop: Chiropractic Assessment and Exam
1 hour*

Time: 3:30pm – 4:30pm

Co-Instructor: Linda Slak, DC, CACCP

Title: Primitive Reflex in the Chiropractic Exam

Session Outline and Objectives: We will take a look at how primitive reflexes set the stage for normal development, and simultaneously prepare the way for a complex network of neurological connections. This system, in turn, brings to life a vast array of abilities that encompass cognition, motor control, psychological development, learning and behavior. Each reflex has its own timing and duration.

*Workshop: Chiropractic Assessment and Exam
1 hour*

Track C

Time: 12:30pm – 1:30pm

Co-Instructor: Allison Hazelbaker, PhD

Title: Posterior Tongue Tie: Fact or Fiction (Part One)

Session Outline and Objectives: In this session, Dr Hazelbaker will make a distinction between true Posterior Tongue-Tie and Faux Tie. Using evidenced based information and emerging literature on structurally related infant sucking problems, Dr. Hazelbaker will clarify which tie needs surgery and which needs body work.

*Workshop: Chiropractic Assessment and Exam
1 hour*

Time: 1:30pm – 2:30pm

Co-Instructor: Lisa Geiger, DC

Title: Integrating Chiropractors with the Post-natal Community

Session Outline and Objective: Inter-professional care begins with understanding. In this workshop, Dr. Geiger will demonstrate simple case taking acuteness and cranial and spinal assessments that can be taught to the birth community so they know when to refer their patients to a doctor of chiropractic. The chiropractor will be able to begin interdisciplinary relationships after this workshop.

Time: 2:30pm – 3:30pm

Co-Instructor: Kendra Becker-Musante, ND

Title: Immunity: Addressing Cause from the Start

Session Outline and Objectives: This class covers a systematic review of the development of the immune system in and its implications when out of balance. This lecture will help providers discover areas of immune strength and weakness in an individual body, and identify key points of a developing immune system utero, and its dependency on the mother's immunity. Imbalances in immunity have huge public health implications such as the increase of chronic illness appearing in our children at epidemic rates.

*Basic Sciences: Immunity
1 hour*

Time: 3:30pm – 4:30pm

Co-Instructor: Marcia Schaefer, DC

Title: Preconception Stats – Strengthening Our Future

Session Outline and Objectives: Through the science of epigenetics, we learned that genes don't cause disease. Our environment, and our perceptions of our environment, however, DO create our reality, and dictate how our bodies respond. As family chiropractors we play a vital role in the future of public health by the lifestyle care we offer parents. This class will offer the practicing chiropractor a strategy of assessment for the families under their care with the resources and research to substantiate it.

*Lecture: Principles and Practice
1 hour*

Track D

Time: 12:30pm – 1:30pm

Co-Instructor: Robbie Davis Floyd, PhD

Title: Intuition as authoritative knowledge in midwifery and home birth

Session Outline and Objectives: In this class, Dr. Robbie will cover the content of her research on the advantages of intuition in birth. She will cover the choices mothers make in preparation for birth, comparing the technocratic model and the holistic model. The objective of the class is to provide chiropractors with the evidenced based materials to offer their pregnant patients in preparation for a more natural, less invasive birth.

*Lecture: Principles and Practice
1 hour*

Time: 1:30pm – 2:30pm

Co-Instructor: Amber Price DNP CNM

Title: Obstetric Violence

Session Outline and Objective: As chiropractors continued to expand their co-management in the pregnant population, it is important that they recognize the physical or emotional trauma perpetuated against women in the birth place, that can occur at the hands of midwives, physicians, and support people, in hospitals and at home. This class will take a hard look at ACOG's 2017 committee opinion on Obstetric Violence, and examine the definition, prevalence, perceptions, causes and pathways to purposeful positive change toward Respectful Maternity Care. The chiropractor will be introduced to key markers of abuse.

*Lecture: Principles and Practice
1 hour*

Time: 2:30pm – 3:30pm

Co-Instructor: Brittany Sharpe McCollum

Title: An Easier Birth: Pelvic Dynamics and Fetal Positioning in Late Pregnancy and Labor

Session Outline and Objective: Brittany, certified childbirth educator and doula, will explore pelvic biomechanics and physiology review the four basic pelvic shapes and the effects their variations have on fetal positions in late pregnancy and labor. Time will be spent on gaining an understanding of maternal positions that change available pelvic space for the baby in both late pregnancy and early labor. This class will offer doctors of chiropractic useful pelvic exercises that support normal physiological function that they can share with their pregnant women in preparation for a safer, more comfortable birth.

*Basic Science: Spinal Biomechanics
1 hour*

Time: 3:30pm – 4:30pm

Co-Instructor: Sally Dear-Healey

Title: The Perinatal Imperative

Session Outline and Objective: Perinatal is the time period including conception, the whole of gestation, and the very short but crucial period of hours involving labor, birth, and establishment of breastfeeding. During this small window of time, the type of stimulus that will affect the baby's developing nervous system has life-long implications. As family chiropractors, understanding this developmental physiology and how both parents and practitioners can positively support its development is imperative.

*Lecture: Principles and Practice
1 hour*

Sunday March 4, 2018

Track A

Time: 9:00am – 10:00am

Co-Instructor: Donald Epstein, DC

Title: The next step in 'real' health care and child development

Session Outline and Objective: The contact between restorative therapeutics and EpiHealing/ Reorganizational Healing approaches are discussed. An expanded model of healing that is child centric as compared to symptom centric as we include the social science and evolutionary development stages to child health care. This workshop includes a hands on, practical introduction to this approach in relationship to the organic self-organizing spinal sensory motor innate response.

*Workshop: Chiropractic Assessment and Adjusting
1 hour*

Time: 10:00am – 11:00am

Co-Instructor Satya Sardonicus, DC, CACCP

Title: Healer Heal Thyself: Interactive Individualized Strategies for Long-lasting Resilience

Session Outline and Objective: Caring for patients can take its toll on any practitioner, and a consistent and resourceful self-care program has become more important than ever. This interactive workshop will explore the intricate ways to strengthen our physical and emotional resistance – all with the goal of being our best, most effective professional selves. Doctors of Chiropractic will gain a stronger, more confident understanding of the important role that fascia plays in mechanical, neurological, and energetic dynamics, and how an imbalance can result in degenerative and often painful symptoms. Attendees will leave this hands on workshop feeling energized, greater resilience to personal stressors, trauma, and patient stress, and a fuller capacity to offer their patients the best possible care.

*Workshop: Chiropractic Assessment and Adjusting
1 hour*

Time: 11:00am – 12:00pm

Co-Instructor: Pamela Jarboe, DC

Title: *Chiropractic Clinical Assessment and Care Plan for the Pediatric Patient*

Session Outline and Objective: This course looks at care plans for the pediatric patient using contemporary research and examination findings as determining factors. Validity of the scientific model along with research, society trends in healthcare, and expenses are reviewed. The objective of this class is to provide chiropractors with an evidenced based model of practice to follow.

*Lecture: Principles and Practice
1 hour*

Time: 12:00pm – 1:00pm

Co-Instructor: John Minardi, DC

Title: Understanding Innate

Session Outline and Objective: In this presentation, Dr. Minardi discusses the major premises of chiropractic and uses modern day science to illustrate how these premises are displayed and utilized in all circles of life. Matching these classic philosophical theories with the latest scientific research, Dr. Minardi helps shed new light on these classic chiropractic premises and the role the chiropractic adjustment plays on removing interference to express intelligence and allow proper brain function.

Lecture: Principles and Practice

1 hour

Track B

Time: 9:00am – 10:00am

Co-Instructors: Dean DePice, DC and Jennifer DePice, DC

Title: Chiropractors & Sustainability- The Family Wellness Practice

Session Outline and Objective: Knowing how to achieve balance is especially significant for men and women DCs who provide care for families while their own families pay the price. How can chiropractors offer quality time and care to their patients and at the same time live congruently values with their families? A new practice model is emerging where multiple doctors co-manage patients and decrease their own personal stress and time away from home. This class will 7 levels of the Associate Driven Practice, a totally adaptable model to the different life cycles of a chiropractic practice and home life.

Lecture: Principles and Practice

1 hour

Time: 10:00am – 11:00am

Co-Instructor: Mary Lucas Flannery, DC

Title: Communicating the Essentials of Family Chiropractic

Session Outline and Objective: Communication skills could make or break the opportunity to share the chiropractic message. Dr. Flannery believes that we need to do more than just “tell the story” – we need to tell the story extremely well - in our offices, in presentations and public forums. The goal of this workshop is to improve storytelling and public speaking skills to provide more people with vital information in a format which enhances the patient’s understanding of the importance of chiropractic care for their entire families.

Lecture: Principles and Practice

1 hour

Time: 11:00am – 12:00pm

Title: Creating Authority and Spreading Your Message to Your Community and Beyond

Co-Instructor: Jay Warren, DC

Session Outline and Objective: The importance of patient education cannot be underestimated. Today's medium has shifted from in person classes, and written articles to on-line technology. Podcasts are a viable medium to represent our practice, offer the community essential lifestyle considerations and keep our patients connected to the changes in health care. Dr. Warren has successfully utilized this medium, along with on-line education classes to reach a high visibility and response in his practice. This class provides chiropractors with the skills to launch these types of medium.

*Lecture: Principles and Practice
1 hour*

Time: 12:00pm – 1:00pm

Co-Instructor: Matt Rushford, DC.

Title: Are We Born Broken?

Session Outline and Objective: Choosing a natural family lifestyle often means going against the grain of mainstream society and the medical paradigm, which tends to Pathologize the human body. In this workshop, Dr. Matt Rushford will explore the science behind our amazing bodies and its ability to heal. Specific points of discussion will be the origins of the social ascent of allopathic medicine and its influence on popular perspectives on health and healing; the cultural influence of the medical model on pregnancy and childbirth; and enhanced understanding of the evolutionary adaptations inherent in commonly pathologized processes such as inflammation and fever.

*Lecture: Principles and Practice
1 hour*

Track C

Time: 9:00am – 10:00am

Co-Instructor: John Edwards, DC

Title: How We Failed Our Way to a Successful Pathways Connect Group

Session Outline and Objective: Fostering relationships with our patients is key in the family wellness practice. Bringing together parents in our offices where we can offer them resources prepares them to make evidenced informed choices and engages their personal responsibilities in health. In this session, Dr. Edward will discuss how they are able to achieve this type of education in a practice group setting.

*Lecture: Principles and Practice
1 hour*

Time: 10:00am – 11:00am

Co-Instructor: Heidi Skye, DC

Title: The Language of Wellness: 4 Conversations to Build a Wellness Mindset

Session Outline and Objective: Learn 4 conversations to Create a Culture of Wellness in your practice. This workshop delves into the language and conversations that build a trust vs a fear based perspective on health, healing and wellness. Doctors of Chiropractic will learn how to take chiropractic message of well-being and making it understandable to parents.

*Lecture: Principles and Practice
1 hour*

Time: 11:00am – 12:00pm

Co-Instructor: Patrick Montgomery, DC

Title: Applying Logan Technique in Perinatal Care.

Session Outline and Objective: Dr. Patrick Montgomery, second generation Logan practitioner and college instructor will offer essential protocols in exam and adjusting for pregnant women.

*Workshop: Chiropractic Assessment and Exam
1 hour*

Time: 12:00pm – 1:00pm

Co-Instructor: Andrea Marconi, DC,

Title: Effective Health Care Informed Consent Advocacy

Session Outline and Objective: This workshop will create an effective workspace to embark on a discussion of informed consent and addressing how to effectively advocate to maintain one's right voluntary health decisions to medical risk taking. It will provide the Doctor of Chiropractic with a learning environment to explore health legislative history both past and present, best practices to effectively advocate, supported by what works to protect and expand voluntary health decisions, and useful resources.

*Lecture: Principles and Practice
1 hour*

Track D:

Time: 9:00am – 10:00am

Co-Instructor: Cilla Whatcott, PhD

Title: Real Immunity with Homeoprophylaxis

Session Objective and Outline: Homeoprophylaxis, also called HP, is a natural, non-toxic method for disease prevention. Learn how HP educates the immune system, supports healthy development, promotes robust long-term health outcomes, and engenders a harmonious relationship between humans, bacteria and viruses. Learn how homeoprophylaxis (HP) provides a safe and effective alternative to vaccines. Assess HP studies for effectiveness.

*Lecture: Principles and Practice
1 hour*

Time: 10:00am – 11:00am

Co-Instructor: Vivian Keeler, DC

Title: Supporting A Natural, Approach to Safer, Easier, More Comfortable Birthing

Session Outline and Objective: With the infant and maternal mortality rate increasing annually, our very public health is in jeopardy. Parents have become afraid of birth. Chiropractors can play a significant role in providing insight into brain function so parents can reduce their fear based state. This workshop, will discuss the philosophy and science behind natural birthing and the physiological functions of the mother's brain in labor and birth. Understanding these principles allows the practitioner to offer the mother avenues to birth with confidence, calm and gentleness.

*Lecture: Principles and Practice
1 hour*

Time: 11:00am – 12:00pm

Co-Instructor: William McKenna

Title: Emotional Healing with the Brain

Session Outline and Objective: In this session, McKenna will demonstrate a cross-brain activity that stimulates healing from emotional traumas. Participants will have the opportunity to learn and experience this exercise so they can offer their patients relief from the myriad of emotional stressors we all experience.

*Lecture: Principles and Practice
1 hour*

Time: 12:00pm – 1:00pm

Co-Instructor: Karen Brody, DC

Title: The Rest Cleanse: Good for You, Good for Your Clients

Session Outline and Objective: This workshop introduces you to Karen Brody's groundbreaking Daring to Rest program, using yoga nidra, a sleep-based meditation technique that is rapidly gaining in popularity. During the practice of yoga nidra you are guided to enter one of the deepest states of relaxation imaginable. In this workshop, you'll experience yoga nidra and learn the Daring to Rest three-step cleanse to reboot your system and guide your clients to attain better health, wellbeing, and purpose.

*Lecture: Principles and Practice
1 hour*

December 15, 2017

To Whom It May Concern:

This is to certify that the following individuals are current members of the Postgraduate Education Faculty of Cleveland University-Kansas City presenting Freedom for Family Wellness Summit, co-sponsored with International Chiropractic Pediatric Association March 1-4, 2018.

Joel Alcantara, DC
Liz Anderson-Peacock, DC
Kendra- Becker – Musante, ND
Karen Brody
Anthony Carrino, DC
Ron Castellucci, DC

510- 299-6251 j_alcantara@yahoo.com

Educational History

1999 – Present

Master of Public Health candidate

San Jose State University

San Jose, CA USA

July 1992 - September 1995

Doctor of Chiropractic Program. Palmer College of Chiropractic-West. San Jose, CA.

Conferred Degree of Doctor of Chiropractic September 1995.

September 1988 - December 1991

Double major in Cellular, Molecular and Microbial Microbiology and Biochemistry at the University of Calgary, Calgary, Alberta, Canada. Completed the Cellular, Molecular and Microbial Biology, one course short to completing the Biochemistry program.

September 1988 - April 1989

Enrolled In Graduate Level Chemistry courses. University of Calgary, Calgary, Alberta, Canada.

June 1988

Received Bachelor of Science in Chemistry. University of Calgary, Calgary, Alberta, Canada.

September 1982 - April 1988

Chemistry-Biochemistry major. University of Calgary, Calgary, Alberta, Canada.

January 1980 - June 1982

Father Lacombe High School, Calgary, Alberta, Canada.

Recipient of the Alexander Rutherford Scholarship.

Work History

Current Position: Research Director

International Chiropractic Pediatric Association

www.icpa4kids.com

Research interests focuses on the safety and efficacy of pediatric chiropractic. Both qualitative and quantitative research approaches are used and may involve research studies from case reports to true experimental designs such as a randomized clinical trial.

Previous Position: Assistant Professor

Employer: Life Chiropractic College West.

Position: Assistant Professor

Employer: Palmer College of Chiropractic-West.

In addition to my research efforts, I taught courses in Physical Diagnosis, Chiropractic Clinical Evaluation, Spinal Anatomy, Thoracic Spine, Pediatric Chiropractic as well as serving as Clinician in the College Clinic.

Elizabeth S. Anderson-Peacock

BUSINESS ADDRESS: 300 Lakeshore Drive - Suite 202

Barrie, Ontario, Canada

L4N 0B4

TELEPHONE: 705.794.1874

A. PROFESSIONAL HISTORY:

2009- Locum Doctor and private practice limited to complex pediatric patients

1989 – 2009 Private practice in Barrie, Ontario

1986 - 1988 Private Practice Scarborough, Ontario

1986 - 1986 Associate at Bellamy North Chiropractic and Sports
Injury Clinic

B. EDUCATIONAL BACKGROUND:

October 2012 Completed a year long *Train the Trainer Program*™ with The Canfield Training Group .
Transformational Leadership Training

February 2011 - Professional Health Coach

Sept. 1996 Received specialty designation as Diplomate of the International Chiropractors Association
Council on Chiropractic Pediatrics (DICCPC), Board Certified in USA

May 1993 - 1996 Pursued a three year 360 hour post-graduate Diplomate in Pediatrics and Pregnancy
through the ICA and Palmer College of Chiropractic (CCE accredited)

Sept. 1982 -1986 Doctor of Chiropractic (Cum Laude), Canadian Memorial Chiropractic College
(CMCC)

Sept. 1981 - 1982 Visiting Student, University of Calgary, Calgary, Alberta

Sept. 1979 - 1981 Bachelor of Science, University of Winnipeg, Winnipeg, Manitoba

C. TEACHING HISTORY:

1996- ongoing Continuing Education for Multiple chiropractic Colleges/University post graduate
programs. References in extended vitae. Area of teaching: pregnancy and pediatrics

Sept. 1986 - April 1989: Part-time faculty CMCC teaching third year orthopedics laboratory

Sept. - Dec. 1988: Georgian College instructor for course called Essential Life Choices Barrie, ON

Sept. 1985 - April 1986: CMCC Physiology Laboratory coordinator Toronto, ON

Sept. 1984 - April 1986: CMCC Physiology Laboratory demonstrator and tutor, Toronto, ON

July - Aug. 1984: Historical Archivist CMCC Clemmer Library Toronto, ON

Sept. 1980 - March 1982: University of Winnipeg Collegiate chemistry laboratory coordinator and
instructor

D. ACTIVITIES and AWARDS:

2013 April Elected to College of Chiropractors of Ontario. Currently sitting on QA committee

2009 Received World Congress of Women Chiropractors award for “Woman of the Year”

2006- Chiropractic Fitness and Wellness Magazine – Pediatric Editor

2005 Received Ontario Chiropractic Association Heart and Hand Award

2003-2009 Diplomate Chair for Academy of Family Practice

2006 Writer & reviewer for the pediatric section of the PCCRP radiological
guidelines for chiropractic practice – ICA practice guidelines

PROFILE

- 28 years of experience working for the empowerment of women
- Yoga nidra meditation expert (Certified in Amrit Method of Yoga Nidra and iRest level 2 trained)
- Writer and activist on women's health and wellbeing issues

Founder, Squat Productions LLC (2006-present)

BOLD Tranquility

Founded an online company helping empower and improve women's well-being using yoga nidra rest meditation.

- Developed 9 month Daring to Rest immersion program
- Created 21-Day online meditation challenge for women's organizations to rest and raise money for a cause
- Created the Bold Tranquility *A Year of the Well-Rested Woman* yoga nidra meditation system and iPhone app.
- Produced two online Global Sleep Tele-Summits for Women
- Keynote speaker on rest at the Freedom for Family Wellness Summit and Natural Family Festival
- Wrote a the forthcoming book *Daring to Rest* (Sounds True, 2017)

The BOLD Method for Birth

Created a mindfulness-based online course and training to help birth professionals around the world support the well-being of pregnant mothers. Produced ongoing online webinars and telesummits with over 100 speakers for 4000+ birth professionals and activists.

Founder, BOLD (*Birth on Labor Day*)

Founded global theatre for social change movement to advocate for improved maternity care for mothers using my play *Birth* (see below) as a catalyst to raise awareness, money, and mobilize citizens to take action that support mother-friendly childbirth options. Coordinated productions of the play in over 75 cities worldwide. Organized two large live productions of the play with vendors and on-site bookstore.

Playwright, *Birth* (2005)

Wrote a documentary-style play, *Birth*, in 2005 about the maternity care crisis in America. Worked with multiple people in different countries to translate the play into Spanish, French and German.

Freelance journalist/ book author/blogger (1996-present)

Wrote various magazine articles for national magazines including cover piece for Mothering Magazine and Pathways to Family Wellness. Blog for the Huffington Post, Shriver Report, as well as my own websites. Wrote two books, *Candida Diet Book* (Sheldon Press) and *Coping with Coeliac Disease* (Sheldon Press).

Consultant and Community Organizer, AIDS (1994-1996)

Nairobi, Kenya

Compiled and edited book on AIDS in Kenya by former Kenyan journalist Raphael Tuju. Worked for women and AIDS project as local community organizer helping women with AIDS know their rights and find medical and psychological services.

Business Manager for Chinese Alternative health clinic (1994 - 1996)

Nairobi, Kenya

Managed all non-health business aspects of a Chinese health clinic, ensured smooth operation of facilities, and coordinated move to a larger location.

Social Services Coordinator, Woodstock '94 music concert (Spring-Summer 1994)

Kingston, New York

Organized and ran social, medical and psychological services to 350,000 concertgoers at Woodstock '94. Managed the recruitment, training and coordination of 250 volunteers from across the United States. Co-created and implemented multi-faceted strategic plan for two-day event.

Community Organizer, National Congress of Neighborhood Women (1993-1994)

Brooklyn, New York

Coordinated grassroots efforts to improve housing and related services to low-income Hispanic women in Williamsburg-Greenpoint, Brooklyn. Facilitated workshops and community gatherings with local women activists. Organized annual conference of 100 grassroots women activists. Wrote funding proposal and co-authored first edition of training manual.

Consultant Writer/Researcher (1992-1994)

New York, New York

Researched and wrote articles, speeches, and other written materials for Niravi Paine, founder of The Whole Person Fertility Program. Wrote book proposal for her book "The Whole Person Fertility Program."

Coordinator, Maya Hands (1989-1991)

New York and Guatemala

Coordinated human rights fair trade project. Organized yearly advocacy fundraising event selling fair trade Mayan weavings and raising awareness about the political situation in Guatemala. Traveled to Guatemala to oversee operations and work with trading partners. Organized, priced and sold weavings at annual gala event.

Program and Events Coordinator, Social Science Research Council (1989-1991)

New York, New York

Organized over 20 events gathering academics on diverse issues. Managed events from sourcing vendors, supporting academic participants and speakers, to coordinating registration and making sure event ran smoothly.

Sociologist, Toledo Agricultural and Marketing Project, Peace Corps (1988-89)

Belize

Provided guidance and support to Mayan Indian women village-based groups to improve cacao post-harvesting techniques. Provided education on health and other family issues. Facilitated leadership trainings for women.

Intern/Volunteer, family homeless shelter (1985-88)

Poughkeepsie, New York

Supported homeless families to attain better housing. Researched and co-wrote lobbying document to change policies that affect the homeless in New York State.

EDUCATION

Institute of Social Studies, The Hague, The Netherlands

Masters, Women and International Development, December 1992

Vassar College, Poughkeepsie, New York

Bachelor of Arts, Sociology, May 1988

Curriculum Vitae
Anthony J. Carrino, D.C., F.I.C.P.A.
619 Montauk Highway West Islip, NY 11795
(631) 321-1850

Occupation

- ☐ Doctor of Chiropractic
- o Licensed in New York - 1989 to present
- o Licensed in Pennsylvania - 1989-1995

Education

- ☐ Life Chiropractic College - Doctor of Chiropractic - 1989
- ☐ Nassau Community College - Associate in Applied Sciences - 1984
- ☐ East Stroudsburg University - Pre-Med. Studies - 1981-1982

Postgraduate Education

- ☐ Nutritional Management of Perimenopause and Menopause January 2002
- ☐ Nutritional Management of Underlying Causes of Chronic Disease February, 2000
- ☐ Functional Medicine Understanding the Natural Progression of Disease 1999
- ☐ Applying Functional Healthcare in the Clinical Setting 1998
- ☐ Functional Healthcare Laboratory Assessment 1998
- ☐ Introduction to Functional Medicine 1997
- ☐ International Chiropractic Pediatric Association
- ☐ Postgraduate Fellowship Studies in Pediatric Care - 1994-1996
- ☐ Chiropractic Biophysics Certification Program
- ☐ Postgraduate Diplomat Studies - 1993-1995

Certified Instructor

- o Thompson Drop Table Technique
- ☐ Chiropractic Biophysics Certificates
- o Mechanical Engineering Principles and Technique
- o Neurology, Posture and Systemic Health
- o Vector Mechanics Applied to Spine and Posture
- ☐ Postgraduate Certification
- o Physiological Therapeutics - National College of Chiropractic - 1988
- o Certificate of Proficiency - Sacro-occipital Technique, Pierce Cervical Technique, Thompson
- o Drop Table Technique, Chiropractic Biophysics Technique

Significant Work History

- ☐ Founder/President Long Island Thermography 2010-present
- ☐ Co-Founder/President, ChiroFutures 2010- present
- ☐ National/International lecturer ICPA 2003-present
- ☐ Independent Chiropractic Malpractice/Risk Management Reviewer 2007-Present
- ☐ Founder/Clinic Director of the Chiropractic Family Wellness & Nutrition Centre
- o Private Practice, West Islip, NY - 1990-present
- o Group Practice, Northport, NY - 1995-January 1997
- ☐ National/International lecturer KareMor International, Inc. - 1998-2000

Occupational Related Organizations and Activities

- ☐ Board of Directors, Growums International, 2013-present
- ☐ Instructor Post Graduate Education:
- o Cleveland University-Kansas City, Kansas City, MO 2003-present
- o Cleveland School of Chiropractic, Los Angeles, CA 2003-present
- o Life University East, Marietta, GA 2003-present
- o Life University West, Hayward CA, 2003-present

Education

Nassau Community College, New York AS Pre-Chiropractic Science
University of the State of New York BS Liberal Arts
Logan College of Chiropractic, Chesterfield, Missouri Doctor of Chiropractic

Clinical Experience

Montgomery Health Center, Chesterfield, Missouri 1986-1988
Bell Chiropractic Center, Florissant, Missouri 1988-1989
Joint Motion Research Center, Saint Louis, Missouri 1988-1989
Lexington Family Chiropractic, Lexington, Massachusetts 1989-1997
Castellucci Chiropractic Center, Horse Shoe, North Carolina 1997-present

Professional Qualifications

Practicing Doctor of Chiropractic 1988-present
Instructor, Sherman College of Chiropractic 1998-2000
Dean of Continuing Education, Sherman College of Chiropractic 2000-2001
Assistant Professor, Sherman College of Chiropractic 2001-2004
Associate Professor, Sherman College of Chiropractic 2004-present
Member, Academy of Chiropractic Philosophers 2011

Teaching Experience

Current lead Instructor assignments
Full Spine I (Cervical spine adjusting technique)
Spinal Palpation I (static palpation analysis)
Spinal Palpation II (motion palpation analysis)
Patient Education
Pediatric Adjusting Technique
Previous lead Instructor assignments
Physical Examination Procedures II
Orthopedics & Neurology I

Academic Achievements

Courses designed and developed 2003-present

Palpation I (static palpation); including associated course materials

Palpation II (motion palpation); including associated course materials

Pediatric Adjusting Technique; including associated course materials

Full Spine Diversified Technique; including associated course materials

Full Spine I, Cervical Technique; including associated course materials

Post-Graduate courses designed and developed 2004-present

Sherman Analysis and Adjusting Protocol; Lumbar and Pelvic

Sherman Analysis and Adjusting Protocol; Cervical technique

ACADEMIC POSITIONS AND AFFILIATIONS

1996-present, Senior Research Fellow, Dept. of Anthropology, University of Texas Austin
2002-2003 Flora Stone Mather Visiting Professor, Dept. of Anthropology, Case Western Reserve U., Cleveland, Ohio
1992-2002 Lecturer/Senior Lecturer, University of Texas Austin

2002 Visiting Lecturer, Southern Methodist University, Dallas
1999 Visiting Lecturer, Baylor Medical School, Houston
1993, 1996, 1999 Visiting Lecturer, Rice University, Houston

1987-1989 Adjunct Assistant Professor, Dept. of Anthropology, Trinity University, San Antonio Texas
1983-1986 University of Texas, conducted PhD dissertation research and completed dissertation.
1980-1983 Adjunct Assistant Professor, Dept. of Soc/Anthro, University of Tennessee, Chattanooga

1979 Teaching Assistant, Dept. of Anthropology, University of Texas
1977-1979 High school teacher, St. Mary's Hall, San Antonio, Texas
1976-1977 Instructor of Spanish, Centro de Artes y Lenguas Mexicanas, Cuernavaca, Morelos, Mexico

ACADEMIC AREAS OF SPECIAL INTEREST

Medical/reproductive anthropology: The anthropology of reproduction (childbirth, midwifery, obstetrics, and the new reproductive technologies (NRTs); cultural conceptualizations and treatment of women's bodies/health; biomedicine as a cultural system; integrative medicine; politics of knowledge; shamanism.

Women's studies: Science, technology, and women; gender and health; gender and myth; feminist theory; the cultural roots of violence against women.

Interpretive/symbolic anthropology: Belief systems; ritual; rites of passage; shamanism; mythologies of science and technology; religion; cults.

Science and technology studies: The NRTs; aerospace engineers and the commercialization of outer space; early history of NASA.

Futures research: Emergent cultural systems; the use of scenarios for futures planning; local/global dynamics and globalization processes; the transnational development of direct-entry midwifery; the emergence of holistic obstetricians.

Regional specializations: The U.S. and Latin America, especially Mexico and Brazil.

COURSES TAUGHT

Graduate:

Anthropology of Reproduction
Anthropology of Childbirth, Midwifery, and Obstetrics
Health and Medical Systems in Industrialized Countries
Anthropology of Alternative Medicine
Myth and Ritual
Cyborg Anthropology
Fieldwork and Methodology
Independent Study

Introduction to Folklore
Medical Anthropology
Anthropology of Healing and Health
Anthropology of Women
Sex and Gender Roles
Peoples and Cultures of Latin America
Ethnographic Studies
Contemporary Minorities
Culture and Cults
The Power of Myth and Ritual
Metaphor and Symbol
Rites of Birth and Death
Independent Study

Undergraduate:

Introduction to Anthropology
Introduction to Cultural Anthropology

PUBLICATIONS IN THE ANTHROPOLOGY OF REPRODUCTION

BOOKS AND SPECIAL ISSUES IN THE ANTHROPOLOGY OF REPRODUCTION

Full descriptions of most of the books below are available at www.davis-floyd.com.

- 1992 **Birth as an American Rite of Passage**. (Berkeley: University of California Press, Series on Comparative Health Care Systems, John M. Janzen, Series Editor). Based on interviews with 100 women, this book identifies obstetrical procedures as rituals, and analyzes the American medical system as a microcosm of our society which seeks through these rituals to socialize birthing women into the collective core value system of the technocracy. (Chapter 3, entitled "Birth Messages," is available at www.davis-floyd.com).
- 1993 Revised, expanded, and updated Brigitte Jordan's **Birth in Four Cultures** (Eden Press, 1978) and wrote the Foreword. (Prospect Heights, Ohio: Waveland Press.) *This revised edition was translated into Japanese and published in Tokyo in 2001 by the Japanese Nursing Association Publishing Company Ltd.*
- 1996 **The Social Production of Authoritative Knowledge in Pregnancy and Childbirth**, a special issue of *Medical Anthropology Quarterly* 10(2), June 1996, eds. Robbie Davis-Floyd and Carolyn Sargent. Seven of the eight articles in this special issue also appear in the book listed immediately below.
- 1997 **Childbirth and Authoritative Knowledge: Cross-Cultural Perspectives**, eds. Robbie Davis-Floyd and Carolyn Sargent. (Berkeley: University of California Press.) Presents ethnography on childbirth in 16 cultures through the analytical lens of Brigitte Jordan's concept of "authoritative knowledge"—the knowledge that counts in a given situation. *This book received the award for "Most Enduring Edited Collection" from the Council on Anthropology and Reproduction, 2004.*
- 1998 **Cyborg Babies: From Techno-Sex to Techno-Tots**, eds. Robbie Davis-Floyd and Joseph Dumit. (New York: Routledge.) Tracks the production of children in symbiosis with pervasive technology across a wide range of perspectives, from resistance to ethnographic analysis to science fiction. *Chosen by the Village Voice as one of its "25 Favorites of the Year" for 1998, and selected Book of the Month for November 1999 by the Resource Center for Cyberculture Studies.*
- 2001 **Daughters of Time: The Shifting Identities of Contemporary Midwives**, eds. Robbie Davis-Floyd, Sheila Cosminsky, and Stacy L. Pigg. Special triple issue, *Medical Anthropology*, Volume 20, Nos. 2-3 and 4. Presents ethnography on midwives in three industrialized and five developing countries, through the analytical lens of Davis-Floyd's concept of the "postmodern midwife"—one who takes a relativistic stance toward disparate knowledge systems.

Summary:

Dedicated servant of chiropractic, who after more than two decades of active chiropractic practice, has devoted his highly interactive skills of bringing chiropractic to the masses now to uplift the entire profession. His passion is taking the complex and breaking it down to the most practical implementation to better patients' lives through chiropractic.

Education:

- 1984 - 1987 - Life University, Doctorate in Chiropractic- Graduated in December, 1987
- 1980 - 1984 - Montclair State University, New Jersey
B.S. - Double major in Biology and Chemistry and a minor in Nutrition
- 1979 - 1980 - Mannes Conservatory of Music, Manhattan, NY. Studied classical guitar

Career Highlights:

- Aligned Continuing Education (ACE) - 2014
- Business Curriculum/"Headstart" Student Program - Created and co-facilitated with Logan in 2010, Life University in 2013 and Sherman in 2014

Associate Driven Practice (ADP)

Authored this practice training and accountability curriculum; with its systematic approach to developing practitioner's successorship and one on one intra professional mentoring. Including this unique Associate Doctor/Host Doctor Profile – 7 levels to systematically advance clinical responsibilities, accountability and pay scale advancement.

Strokes Uncovered authored with Dr. Gerry Clum, 2013 authored to advance doctor and patient awareness of this health problem, understanding the anatomy, physiology, mechanisms and research related.

Speaking/Teaching Engagements at Universities and Organizations:

A popular, motivational speaker who is constantly in demand for speaking or teaching engagements at chiropractic universities and organizations. His versatility in handling all types of programs is outlined below:

1. **Convention Speaker** at more than 2/3 of all U.S. contiguous states' conventions
 - Parker Las Vegas, California Jam, New York Chiropractic Council and New York State Chiropractic Association

Speaking/Teaching Engagements at Universities and Organizations: (cont'd.)

2. Full 8-12 Hour Continuing Education Program

- Chiropractic Society of Texas
- Florida Chiropractic Society
- Maryland Chiropractic Association
- North Carolina Chiropractic Association
- Palmer College of Chiropractic – Davenport
- Free CE, Utah
- Connecticut Chiropractic Association
- Illinois Prairie State Chiropractic Association
- Nebraska State Chiropractic Association
- Ohio State Chiropractic Association
- South Carolina Chiropractic Association
- Virginia Chiropractic Association

3. Homecoming / Lyceum Speaker for:

- Life University and Life West
- Logan College of Chiropractic Lyceum
- Palmer College of Chiropractic – Davenport and Palmer West
- Parker
- Sherman College of Chiropractic

4. Lectures for Students

- Life University{Student Assemblies & Fraternity Events}
- Palmer College of Chiropractic{Modules Program & Fraternity Events}
- Life Chiropractic College West, Parker Chiropractic College, Logan College of Chiropractic
- Sherman
- New York Chiropractic College

Congress of Chiropractic State Associations (COCSA) Convention – 2013

First convention keynote speaker.

Chiropractic Unbarred – 2005

Author of Chiropractic Unbarred, a 12 hour accredited continuing education program. Taught this course for chiropractic associations throughout the country.

American Chiropractic Association Sports Council - 1996

Traveled to Hawaii with the ACA Sports Council to be one of the few “Iron-Docs” selected to assess and adjust Ironman Triathletes.

Life University – 1984-1987

As a student, presented more than 70 of the weekly lay lectures for patients in the clinic for two years.

Montclair State University Activities – 1982-1983

Served as President of APO {a National Service Fraternity}, swam competitively, and held office in the student government.

Employment History / Clinical Experience:

TLC4 Superteams

March 2003 - Present

Co-founder of TLC4Superteams; a true coaching company focused on an individualized coaching program that brings procedures and disciplines together and achieves results. The company provides continuing education, leadership training, and development of a comprehensive teaching program. This syllabus consists of four primary core proficiencies to practice success from student to start-up to veteran offices.

DePice Chiropractic

May, 1989 – January, 2004

Opened a private chiropractic practice in Pennsylvania and created a thriving patient base which remains in operation presently. This was accomplished even though the practice was started with an extremely limited budget.

Chiropractic Practice in Kentucky

1988-1989

Opened a private franchise chiropractic practice in Louisville, KY. As the primary doctor, successfully ran the practice by not only caring for the patients, but oversaw the operations and business management of the staff. Within six months of practicing, served greater than 250 patient visits a week. Within eight months, the practice grew large enough to hire an associate doctor who eventually took over the practice.

Professional Qualifications:

- Wrote, deliver and facilitate Team Leadership Camps for teams to regularly attend and enhance their skills in listening, bedside manner, and effective communication.
- Authored Speak OUT, the complete outside talk program. This program is used by doctors to address relevant OSHA related health topics with precise information on how to live healthier lives, and to lead the public to breakthroughs thus establishing the doctor as the authority and trusted healthcare servant.
- Authored and created many educational videos and tools used in the doctors' offices and outside to the public communicating the value of optimal health and chiropractic in the community.

Curriculum Vitae

Jen DePice, D.C.

Education:

September 1988 – October 1985

Life Chiropractic College, graduated with a Doctorate in Chiropractic.

May 1985 – September 1981

Wake Forest University, graduated with a B.S. in Exercise Physiology.

1996

Masters Certification in whiplash from Spinal Research Institute.

1997

Back Power Training Rehabilitation Certification, Drs. Imerie & Barbuto in Toronto, Canada

Experience:

Present – March 2003

Partner and co-founder of Team and Life Conditioning, Inc. (TLC 4 Superteams.)

TLC builds super teams to achieve unprecedented results worldwide by combining detailed proven procedures with unparalleled excellence at uplifting the individual's heart for chiropractic, simulating breakthroughs and practice and life successes.

February 2004 – May 1989

Partner and co-founder of DePice Chiropractic Clinic, Inc., 1031 N. York Road, Willow Grove, PA.

Responsibilities included treatment of patients, examinations and reports for patients, overseeing office procedure implementation.

November 1988 – September 1988

Doctor in charge of public relations and advertising for United Chiropractic Clinics in Louisville, Kentucky.

September 1988 – September 1987

Internship in the Chiropractic Clinic at Life Chiropractic College.

Was responsible for the case management, treatment and evaluation of over 250 out-patient visits and 100 student visits.

May 1985 – September 1983

Physical Therapy assistant at Baptist Hospital affiliated with Bowman Gray School of Medicine, Winston-Salem, North Carolina. Worked with many different therapeutic modalities for patients in various stages of recovery from traumas.

Post-Graduate Education, Speaking, Memberships:

- Instructor to Upper Moreland Adult Education for 8 years, teaching back exercise rehabilitation classes.
- Co-authored with Dr. Dean DePice and Dr. Gerry Clum Strokes Uncovered detailing current research on strokes: detection, mechanisms and prevention.
- Co-author of Speak Out – teaching Doctors to educate the public on issues such as carpal tunnel syndrome, headaches, low back pain, nutrition, stress.
- Certified to perform Impairment Ratings according to AMA Guidelines, Rehabilitation and Personal Injury Cases seminar.
- Speaker at New York Chiropractic Council annual convention.
- Speaker to the Lakeside Youth Service on Women’s Health Care and Chiropractic.
- Speaker on C.E. curriculum at Logan Chiropractic College.
- Speaker for B.O.R.N. (Birth Oriented Resource Network) Issue of Pregnancy: Low Back Pain and Chiropractic
- Member of the International Chiropractic Association and Pennsylvania Chiropractic Association.

Professional Affiliations:

S.W.I.F. Care Panel Doctor

Affordable Health Care Panel Doctor

Willow Lake Workmen’s Compensation Panel Doctor

Sunrise Assisted Living Panel Doctor

Curriculum Vitae
DR. BOBBY DOSCHER
Oklahaven Children's Chiropractic Center
4500 N. Meridian
Oklahoma City, OK 73112-405/948-8807

Dr. Bobby Doscher is the President and Chief Executive Officer of the non-profit Oklahaven Children's Chiropractic Center in Oklahoma City, which is celebrating its 54th year of helping severely hurt children return to health in a natural way. The center has never received State, Federal, or United Way funding.

During Dr. Doscher's thirty-year tenure with the clinic, the center has received National and International recognition. Dr. Doscher's many professional activities include the following:

- She frequently lectures at chiropractic colleges throughout the world.
- She has also been a speaker at numerous national and international conferences.
- She has treated damaged children in Jordan, Guatemala, Mexico, Honduras, Germany, Ireland, Netherlands, Austria, Poland, Czech Republic, Russia, Estonia, Greece, New Zealand, Australia, and across the U.S.
- On November 14, 2003, she presented a paper at the "International European Year of the Handicapped" conference in Poznan, Poland. Afterwards, she treated profoundly hurt children and taught the premise of Chiropractic and the return of health for severely sick and damaged children.
- In February, 2005, she went to Antwerp, Belgium to lecture at Voluntas, a nonprofit foundation for disabled children.

Dr. Doscher received her Doctor of Chiropractic from Palmer College and later became a Doctor of Naturopathy and has received numerous awards:

- For the Chiropractic Profession's Centennial Year, she was chosen by the World Congress of Women Chiropractors as the "Woman Chiropractor of the Year" and "*One of the Twelve Great Women in History of Chiropractic.*"
- In 1996, Dr. Doscher received the Dr. Mabel Heath Palmer Award honoring her as the Outstanding Lady Chiropractor of the Year.
- In March 2001, she was presented the Dr. Larry Webster ChiroPediatric Lifetime Achievement Award for her dedication and commitment to *helping thousands of chiropractors adjust millions of children by Future Perfect.*
- She was the Commencement special guest for the June 2001 class of Palmer College of Chiropractic.
- July 2011, she was invited as Homecoming speaker at the New Zealand College of Chiropractic.
- In 2014, Dr. Doscher was a speaker at Life Chiropractic College West--"The Wave."

- In 2017 Palmer College of Chiropractic Alumni “Insights” – recognized her leadership as one of the Palmer Women

In addition to her work at the center, Dr. Doscher has been involved as a leader in many women’s groups and numerous professional and civic organizations, including:

- Past President of Sigma Phi Chi Sorority, **the oldest chiropractic organization**
 - For the 100th Anniversary in 2011, she was awarded the “Life Time Achievement Award.”
 - She now presides as the president of the Grand Chapter.
- She was also a past member of the National Upper Cervical Chiropractic Association
- A former board member of the Ronald McDonald House of Oklahoma City
- Member for the Girl Scouts of the United State Long Range Planning Committees
- Advisory board for Passageway, a YWCA shelter for battered women; and
- Board member of Sugarcreek Camp, an organization which sends indigent inner city children to camp
- She serves on the advisory board of Platt College culinary and medical divisions.
- Laughter Yoga Leader and certified Laughter Yoga Teacher

DR. JOHN EDWARDS

EDUCATION

POST GRADUATE CHIROPRACTIC

C.A.C.C.P. by The Academy of Chiropractic Family Practice & Chiropractic Pediatrics 2013
DC, Palmer College of Chiropractic, Davenport, IA February 2004

- ◆ Magna Cum Laude
- ◆ Virgil V. Strang Philosophy Award
- ◆ President's List
- ◆ Student ACA Member of the Year

UNDERGRADUATE

Bachelor of Science, Exercise Science Truman State University, Kirksville, MO May 2000

- ◆ Magna Cum Laude
- ◆ Biology Minor
- ◆ Vice President, Lambda Chi Alpha Fraternity

LICENSES & CERTIFICATIONS

- ◆ Florida Board of Chiropractic Medicine CH 10431
- ◆ NIH Protecting Human Research Participants Certificate 2012- current

LECTURES

“Pregnancy Pearls for Your Practice” Workshop

- ◆ ICPA Freedom for Family Wellness Summit, Reston, VA, November 13th, 2014

“Safer, More Comfortable Births”

- ◆ American College of Nurse Midwives Regional Meeting, Captiva, FL September 27, 2014

“Chiropractic Care of the Pregnant Patient”

- ◆ Florida Chiropractic Conventions, Sunrise, FL February 2013

“Preventing Nursing Neck, Newborn Safety Screening, and Addressing Latching Challenges”

- ◆ LeLeche League Enrichment Meeting Cape Coral, September 2013

“Safer, More Comfortable Births: A Holistic Approach to Preventing Dystocia”

- ◆ Baby Love Birth Center, February 2012
- ◆ HealthPark Medical Center- Continuing Medical Education Event, November 2011
- ◆ Cape Coral Hospital- Labor and Delivery Department, May 2011
- ◆ Swedish-American Hospital- Labor and Delivery Department, Rockford IL, April 2008
- ◆ Rockford Memorial Health Systems- Cornerstone OB/GYN, April 2008

EDUCATION

<u>Institution and Location</u>	<u>Major</u>	<u>Degree</u>	<u>Date</u>
Brooklyn College Brooklyn, N.Y.	Pre-chiropractic	-	1974
New York Chiropractic College, Old Brookville, N.Y.	Chiropractic	D.C.	1977

PROFESSIONAL EXPERIENCE

Organizations, Administration, and Teaching

1978 - 1992	Private Chiropractic Practice; maintained two offices, one in Brooklyn New York and one in Long Island, N.Y.
1980 - 1995	Developer of Network Chiropractic Spinal Analysis (originally referred to as Network Chiropractic). This development was initially considered a health and wellness system associated with the subluxation-based model of chiropractic. Network Chiropractic Spinal Analysis has been reconfigured as an application for use by subluxation based chiropractors and became known as in 1995 as Network Spinal Analysis (NSA).
1980 - 2012	President, Association for Network Chiropractic. The Association served as the professional organization for doctors of chiropractic practicing Network Spinal Analysis Care internationally.
1983 - present	Produced and taught Network Chiropractic and currently Network Spinal Analysis, providing continuing education credit for doctors of chiropractic.
1983 - present	Extension and post-graduate faculty member, Sherman College of Chiropractic. Through this position, several chiropractic techniques and philosophy courses have been taught for post-graduate or continuing education credit, primarily for doctors of chiropractic.
1984 - present	Taught over 10,000 doctors of chiropractic Network Chiropractic and Network Spinal Analysis. Numerous presentations have been made at 14 chiropractic colleges in the USA and abroad. Seminars have been presented internationally; including the USA, Italy, France, Australia, New Zealand, Canada, Peru and England.
1987 - 1989	Member, Board of Directors of the Federation of Straight Chiropractic Organizations. The Board was charged with evaluating the policies and procedures of the organization.
1989 - present	Conduct and lead Transformational Gate Healing retreats for tens of thousands of attendees. These have been conducted in the USA, Europe and Australia.

1992 – present	Full-time International Lecturer and Instructor
1992 - 1995	Member, Board of Directors of EarthSave. This organization strives to educate the public and create strategies to support plant based dietary choices. As a board member, reviewed the actions and planning procedures of the administrative staff of the organization on a bi-annual basis.
1993- 1995	Editorial Board, Future Medicine Publishing. The Editorial Board's reviews the operations of the company and evaluates the organization's commitment to the stated mission and goals.
1995 - present	Further developed Network Chiropractic Spinal Analysis into Network Spinal Analysis which reflects a series of Levels of Care. Each Level has specific outcome assessments relative to spinal and neural integrity and self reported wellness.
1995 - present	Developed Somato Respiratory Integration (SRI) and instruct seminars internationally. SRI includes specific exercises which link enhanced somatic awareness with respiration. SRI promotes focused attention on gross and subtle body movements and rhythms, self-directed breathing, awareness of body tension, and verbal statements reflecting one's internal state. Associated with these exercises are self-generated dynamic processes believed to access energy to promote change. SRI exercises also enhance body flexibility, and characteristic shifts in states of consciousness are also associated with the exercises.
1995 - present	Presented Somato Respiratory Integration workshops in the USA, Italy, France, Australia and New Zealand.

MEMBERSHIPS, AWARDS, AND HONORS

Memberships

- ◆ Association for Reorganizational Healing Practice
- ◆ Board of Regents, Sherman College of Chiropractic
- ◆ International Federation of Chiropractors and Organizations

Awards and Honors

- ◆ Clinical Instruction Award, New York Chiropractic College
- ◆ D.D. Palmer Award, Sherman College of Straight Chiropractic
- ◆ Featured banquet speaker, Academy of Research in the Chiropractic Sciences
- ◆ Honorary Alumnus, Sherman College of Straight Chiropractic
- ◆ World Chiropractic Alliance Chiropractic Researcher of the Year 1996

Unique Methodologies Developed

- 1983 - Network Chiropractic Spinal Analysis
- 1995 - Network Spinal Analysis
- 1995 - Somato Respiratory Integration
- 2009 - Reorganizational Healing

Dr. of Chiropractic, Owner

Education

1984 – Friends Central School, Overbrook, PA. Quaker schooling had a powerful impact on my sense of community and service

1992 – Bachelor of Science, Applied Mathematics. Minor in Classics of Greece and Roman. University of Massachusetts, Amherst, MA

1997 – Graduated Doctor of Chiropractic from LCCW. Seminars in Activator Methods, Best, pediatrics, extremity adjusting, sports injuries, and cranial sacral

2003 – Coursework in Dynamic Body Balancing, Masgutova Method (Sweden and Poland)

2004 – Certificate in Pediatric and Prenatal Chiropractic, AECC, Bournemouth, England

Advanced Coursework

1998 – 3 seminars through British Chiropractic Association while practicing in Dundee, Scotland

1999 – 4 seminars in practice management, record keeping, and the state of chiropractic in Sweden presented by the Legitimerade KiropraktikRiksorganisationen. Practiced in Vällingby, Sweden.

2000 – 4 seminars and practice management and record keeping presented by the LKR while practicing in Stockholm, Sweden. Two New Beginnings Seminars in New Jersey. One mission trip to Peru with 32 other chiropractors to adjust, learn, and teach.

2001 – 2 New Beginnings Seminars in New Jersey. Practiced in Stockholm Sweden

2002- Carol Phillips, DC, seminar in Aarhus, Denmark. Three 12-hour modules of a pediatric chiropractic diplomate through the AECC (Anglo-European Chiropractic College), Bournemouth, England. Strong focus on Primitive Reflexes and Chiropractic

2003 – New Beginnings Seminar in New Jersey. Six 12-hour modules of the Pediatric Diplomate through the AECC in Bournemouth, England including study with:
Heinrich Biederman focusing on Kinematic Imbalance of Suboccipital Strain.
Peter Blythe and Sally Goddard Blythe of the Institute for Neuro-Physiological Psychology, focusing on persistent primitive reflexes, latest research and methods.

2004 – Three 12-hour modules of the Pediatric Diplomate program through the AECC in Bournemouth, England. Course in Kinesiology and many courses in Masgutova Method through the Kinesiology Institute in Krakow, Poland and Stockholm Sweden. Huge focus on embryology and Persistent Primitive Reflexes. Completed Certificate in Pediatric & Prenatal Chiropractic, AECC.

2004-present – Continued post graduate coursework in the ICPA series on pediatric and perinatal chiropractic, Bio Geometric Integration, Autism, Dynamic Body Balancing, Masgutova Method and Persistent Primitive Reflexes, Massachusetts Chiropractic Society, Greenspan Institute, MACP, Bill Esteb, SCERTS neurology and emotional regulation seminar, three sensory integration seminars, more New Beginnings, and more. Carol Phillips, DC continues to be a supportive and guiding presence in my life and my work.

Presentations

September 2008-July 2009- Monthly Speaker at the Massachusetts Alliance for Chiropractic Philosophy, Westwood, MA

May 2009 – Partners in Perinatal Health, Marlboro, MA

Pregnancy, Labor, and Latch: Chiropractic Care and the Nervous System

“Appreciate how mother and infant work together through pregnancy, birth, and breastfeeding and learn how to support their nervous systems through perinatal and pediatric care. Recognize how this support can enhance the birth experience, strengthen latch, and encourage breastfeeding.”

2009 – Boston University Grad School, MA

Lectured to Masters of Social Work students about Autism, the nervous system, neurosensory integration, chiropractic, and parenting.

January 2010 – Isis Maternity, Newton, MA

Lectured to Childbirth Educators about Perinatal and Pediatric Chiropractic, showing how we could work together to the benefit of baby, mama, and family.

2009-2011 – Harvard University Grad School

Lectured to graduate psychology students about Autism, different learning styles, neurosensory integration, accommodations, chiropractic, and parenting.

May 2013 – Partners in Perinatal Health, Norwood, MA

Pregnancy, Labor, Latch, and Beyond! Chiropractic Care and the Nervous System

“Appreciate how mother and infant work together through pregnancy, birth, and breastfeeding and learn how to support their nervous systems through perinatal and pediatric care. Recognize how this support can enhance the birth experience, strengthen latch, and encourage breastfeeding.”

May 2015 – Partners in Perinatal Health, Norwood, MA

“Do You See What I See?” Identifying Latch Challenges in the Neonate

“Learn to identify the mechanical issues and irritated neurology that often underlie a disorganized latch. Identify the asymmetries in a baby’s face and skull that bely misalignments that profoundly affect latch. Counsel clients on the full range of alternatives and support for latch challenges and associated torticollis. Examine best practices to support nursing dyads, particularly those seeking more natural solutions.”

Restoring Hope: Reconnecting Women with their Innately Wise Bodies

“Learn delicious facts and concepts to help women reconnect with the innate intelligence and wisdom of their bodies. Explore a distinct perspective on biomechanics, anatomy, physiology, and neurology. Understand more about primitive reflexes of the baby and their part in the birth dance. Incorporate this information into the support of each client’s birth experience, and walk away with a deeper delight in and respect for our marvelous bodies!”

learninggnm.com

Experience

New Health Consultant

Owner

German New Medicine (GNM)

Co-Founder

Education

- Dr. Christopher Lowthert graduated from New York Chiropractic College in 2004. In August of the same year, he started a private practice specializing in chiropractic sports medicine. In March of 2006, he encountered Dr. Ryke Geerd Hamer's German New Medicine and attended his first GNM seminar in Montreal.
- Continuing his studies with Caroline Markolin, Ph.D., his practice in Virginia is now entirely founded on applying this new medical paradigm. Dr. Chris is dedicated to educating the public about Dr. Hamer's revolutionary findings, both as a practitioner and a lecturer of GNM.

Life College of Chiropractic West – Hayward, CA

Dean of Enrollment

Feb 2012 to present

- Began as Director of Outreach and created the Champions for Life Program including a quarterly two-day event, signed up over 250 doctors in first year, and formed and trained a student champions group to provide fundamental recruitment activities.
- Within three months assumed the leadership role of the entire enrollment team, hired and trained all new team members, and created sustainable processes, resulting in enrollment doubling in four years.
- Oversee creative team and wrote and created all new enrollment documents and marketing materials including multiple microsites and a complete rebuild of the .edu website.
- Launched Career Night program, personally presenting 50% of the career night presentations in major markets for the school, resulting in a 40% increase in applications.

Life University - Marietta, Georgia

Director of Chiropractic Recruitment

Sept 2011 to Jan 2012

- Supervise all aspects of recruitment and outreach related to chiropractic enrollment. Assist in supervising undergraduate and masters recruitment.
- Designed new navigation for the university website, wrote all prospective student related copy and served as member of Website Taskforce to oversee and execute delivery of new Life University website.
- Wrote and assisted with design of multiple new enrollment materials including a new viewbook, recruitment materials, and multiple enrollment related materials.
- Work closely with LIFEforce department, enrollment events and enrollment operations to ensure seamless coordination of overlapping responsibilities between departments.

Life University - Marietta, Georgia
Executive Director of Enrollment

June 2009 to August 2011

- Conceived and implemented extensive enrollment area reform and restructure which resulted in increased productivity and a significant increase in incoming enrollment class sizes (averaged 5% increase).
- Helped design and implement major facilities renovation and created environment which allowed enrollment staff to function at higher levels of service and efficiency.
- Rebuilt reporting system to move toward best practices in enrollment reporting and to create a predictive model for effective future enrollment management.
- Worked closely with Marketing Department to design and develop all marketing materials related to development. Wrote copy for all enrollment marketing pieces.
- Collaborated with Alumni and Development and other university departments to create collaborative programs and processes to support common goals.
- Worked with Institutional Research to create and implement quality assessment goals and created a working process to assess outcomes with data, surveys and objective measurements.
- Responsible for creating and monitoring annual budget.
- Planned and supervised semi-annual staff programs in personal development and team building.

Life University - Marietta, Georgia
Director of Recruitment

Sept 2006 to June 2009

- Created recruitment department standards, process, and protocol and the accompanying SOP manual for department operational policy.
- Created Life Leadership Weekend, an exceptionally well received quarterly recruitment program which serves over 600 prospective students and guests visiting campus annually.
- Served on numerous university committees including: Gateway 20/20, Student Experience Group, Branding Committee and Orientation Committee.
- Created LIFEforce program and engaged over 800 alumni and friends to build a recruitment and support cooperative which is integral to the institution's success.
- Responsible for creating and monitoring annual budget.
- Hired, trained, scheduled, and supervised staff of ten.
- Planned and supervised semi-annual staff programs in personal development and team building.

Life University - Marietta, Georgia
Outpatient Clinic Staff Supervisor

February 2006 to Sept 2006

- Reviewed and revised numerous areas of clinic operational policy and recorded all details of daily operation and policy into a standard operational procedure manual.
- Hired, trained, scheduled, and supervised staff of eight office assistants.
- Worked in close cooperation with Directors of Outpatient Clinic, Student Health Center, Clinic Program Coordinator and Clinic Faculty to ensure smooth daily operations.

Dream Birth Initiative
Founder and Facilitator

2004 to present

- Created and facilitated a series of lectures and workshops designed to challenge and educate women and health care professionals in alternative pregnancy and birth options.

- Developed strategies and tactics to promote and market lecture series.

Chiropractic USA - Davenport, Iowa

Partner/Office Manager

2004 to 2005

- Built and developed a new practice, hired and trained staff, led team meetings, designed and presented weekly public alternative health forums, and administered office policies.
- Conceived and coordinated a unique in-house Chiropractic student intern program which mentored an elite group of students in both the practical aspects of chiropractic business as well as the nuanced daily leadership of creating a successful practice.

Lakewood Chiropractic Center - Lakewood, Wisconsin

Partner/Office Manager

2000 to 2004

Palmer College of Chiropractic – Davenport, Iowa

Admissions Counselor

1994 to 1998

- Traveled extensively representing the college doing the following activities: attended chiropractic conventions and special seminar events, visited colleges and advisors, and conducted student recruitment meetings.
- Advised prospective students on technical and personal issues leading to enrollment in chiropractic college. Managed multiple case files with high rate of conversion.

About:

Andrea Marconi, D.C., CACCP, is a graduate of Sherman College of Chiropractic, a mother, and a wife. In private practice for over a decade in the Washington D.C. metro region she is motivated by her ability to provide holistic health solutions and chiropractic care, with a special focus on the pre/post-natal and pediatric population. She holds an advanced certification in pediatric and prenatal care (CACCP) from the International Chiropractic Pediatric Association (ICPA), and is certified in the Webster technique.

Her relentless dedication to be of benefit to others is what drives her. Dr. Marconi utilizes her education and skill set to facilitate healing, educate and ultimately enhance one's human experience.

Currently Dr. Marconi is working on a global impact as she contributes time as Director of Professional Resources for the National Vaccine Information Center where she supports practitioners with shared interest in upholding the freedom of informed consent and protecting legal right to make voluntary medical health choices in America.

Community volunteer work, family time, personal development and travel are preferred ways for spending down time.

Experience:

National Vaccine Information Center– Sterling, VA January 2015 – Present Director of Professional Relations

- Connect with Doctors of Chiropractic and likeminded individuals to grow awareness regarding the National Vaccine Information Center's Advocacy Portal.

Dr. Satya Sardonicus, DC, CACCP

Curriculum Vitae

Dr. Satya Sardonicus, DC, CACCP, is the founder of Little Adjustments chiropractic clinic and Biotensegrity Global, an innovative postgraduate education company that teaches practitioners to personalize patient care using an integrative individualized healing approach to optimize neurological, structural, energetic, and emotional function. A second generation chiropractor, Dr. Sardonicus is the creator of Integrative Therapeutic Resonance, a groundbreaking treatment method that teaches patients how to harness their own intelligent healing capabilities to facilitate lasting recovery and promote increased stability and internal resilience. Rather than forcing change from the outside in, Dr. Sardonicus treats the body as a single functional unit that deserves a comprehensive approach to understanding and unwinding the trauma it holds.

Dr. Sardonicus completed her doctoral degree from Life Chiropractic College West in 2010 and completed certification through the Academy of Family Practice Council on Chiropractic Pediatrics in 2014. She received her Bachelor of Science degree: Psychoneuroimmunology from the University of Massachusetts: Amherst in 2007. Dr. Sardonicus is a teacher, adjunct professor, and professional speaker and serves as a clinical supervisor and guest lecturer for courses in Pediatrics and Clinical Neurology at the University of Western States.

Balancing a private practice with a growing international teaching program, Dr. Sardonicus boasts a unique perspective of the healing process, and her deeply personal experience with trauma and chronic illness inspired her to innovate treatment strategies and teaching programs that extend beyond traditional chiropractic care. Dr. Sardonicus was raised with a strong focus on a natural healing and wellness lifestyle grounded in chiropractic, yoga, Buddhist and Native American spirit practices, herbal medicine, organic food, music and art. Dr. Sardonicus has started four entirely referral-based cash practices, most recently in Portland, Ore., where she specializes in sensory processing, chronic stress, trauma, and supporting fellow healers on their own paths toward health, wellness, and resilience.

REQUEST FOR APPROVAL OF A CHIROPRACTIC RADIOLOGICAL TECHNICIAN or CHIROPRACTIC TECHNICIAN PRE-CERTIFICATION COURSE OF STUDY

Completion of this form is required for all providers applying for approval of a Chiropractic Technician or Chiropractic Radiological Technician pre-certification course of study. You must submit a proposal of the course of study with this form which will be used by the Chiropractic Examining Board to determine whether to approve the course of study.

Chiropractic Technician/Chiropractic Radiological Technician pre-certification course of study information:

School/Provider Name: WISCONSIN CHIROPRACTIC ASSOCIATION
Street Address: 521 EAST WASHINGTON
City, State, Zip Code: MADISON, WI 53703
School/Provider Administrator: ANDREA MURRAY
Contact Telephone: 608-256-7023
Contact Email Address: awmurray@wichiro.org

*Please attach the written course of study proposal including course outline, description/rationale, measured outcomes, instructor qualifications, etc.

You will be contacted if additional information is required. If the course of study is approved by the Chiropractic Examining Board, the school/provider is required to inform the department in advance of any changes to the course of study or instructor qualifications to determine if the change will require review for re-approval.

NOTE: You may make no plans for admission of students or release publicity until you have received notice in writing from the department that the chiropractic radiological technician or chiropractic technician course of study has been approved.

Signature of CT or CRT Educational Program Administrator

Date

Submitted 6/28/18 To
DSPS.

Chiropractic Technician Certification

This 12-hour course will give students an overall understanding of chiropractic and basic anatomy, while providing the necessary training to satisfy the Wisconsin Chir 10.015, Chir 10.02, and ch. 446, requirements for certification as a Chiropractic Technician and CT Delegation. Additional modules offering instruction in the performance of adjunctive services and therapies will be optional for the student.

Learning Objectives:

1. Understand chiropractic scope of practice.
2. Learn basic musculoskeletal anatomy.
3. Understand the basis of current physiological therapeutics utilized within an office setting including indications and contraindications.
4. Learn skills associated with obtaining patient history and baseline data regarding a patient.
5. Learn skills associated with obtaining vital signs.
6. Demonstrate competency of the didactic and clinical components of the course through a final assessment.

Outline:

Hours 1-4:	Chiropractic Scope of Practice Basic Musculoskeletal Anatomy Physiologic Therapeutic Overview Indications and Contraindications
Hours 5-8:	Skills Associated with taking Patient History and Obtaining Baseline Data
Hours 9-12:	Patient Vital Signs Instruction in Obtaining Patient Vital Signs Final assessment of competency of the didactic and clinical components of the program

Subject: FW: CE Application - CT Certification - CLARIFICATION NEEDED

Dear Peter,

I submitted this course on June 28 for approval. It is not yet listed on the CT approved course list.

Please confirm that is approved

1. as an initial certification course for new CTs
2. as a course for CTs for renewal (they need 6 hours, so would take only part of the class)

Thank you.

--Andrea

Course Objectives/Outcomes (provide on additional sheet of paper if needed):

1. Understand chiropractic scope of practice.
2. Learn basic musculoskeletal anatomy.
3. Understand the basis of current physiological therapeutics utilized within an office setting including indications and contraindications.
4. Learn skills associated with obtaining patient history and baseline data regarding a patient.
5. Learn skills associated with obtaining vital signs.
6. Demonstrate competency of the didactic and clinical components of the course through a final assessment.

Initial Course Date(s) and Location(s): September 27, 2018, Kalahari Resort, Wisconsin Dells

**PLEASE NOTE*: Additional dates and/or locations may be offered within the biennium without submitting requests for further approval as long as the original approved course content is offered by the approved instructor; however, if course content and/or instructor change, you must submit a new request for approval, at least 75-days in advance.*

If this course was approved by the Chiropractic Examining Board during the previous biennium, it can be renewed without review by the liaison as long as the course content and instructor have not changed. If this is a renewal, please list the previous approval code: _____

Fill out the following section ONLY if a separate entity is performing any of the duties. If the sponsor is putting the course on by themselves, leave the section blank.

If the program sponsor is delegating any responsibilities of this seminar, please complete information below:

Name of Delegated Entity/Person: _____

Specific personnel responsible:

Name: _____

Address: _____

Qualifications: _____

(Attach CV/Bio if available)

- If a written contract exists between sponsor and delegated entity, please attach a copy to this form.
- Regardless of whether a written contract exists, please provide specific detail of how sponsor will ensure that delegated duties are in compliance with Chir 5.02 requirements.

The Delegate will perform the following: (check all that apply)

- ☐ Monitor and verify attendance
☐ Provide monitoring and attendance evidence to Sponsor for proper record retention
☐ Provide instructor information

By rule, the sponsor is required to validate the course content. By checking the following box, the sponsor is confirming that they are validating all subject content: ☒

Method of monitoring attendance: ☒ Sponsor Monitored ☐ Delegated Monitoring

Nutritional Counseling Credit Consideration? ☐ Yes, for ____ # of hours ☒ No ____

You must also submit the following via E-mail:

1. Condensed instructor's qualifications of no more than two (2) pages indicating the areas of expertise related to the specific areas of instruction per this seminar request (CV may be sent as a PDF)
2. A clear, hourly breakdown of the proposed sessions (breakdown may be sent as a PDF).

For Department Use Only

____ Course approved for ____ number of hours; including ____ hours of nutritional counseling

____ Course(s) not approved because:

____ Course does not meet the 75-day rule ____ Content does not pertain to Wisconsin Clinical Practice
