Commented [SA3]: Comment from Sheng Lee Yang (SW section liaison):

"Developing treatment plans or policies to alleviate those difficulties"

Commented [SA4]: NASW commented at the full board meeting in July that maybe 30 hours was too many hours. The LPC and MFT section think that for their sections is the right amount, but the SW section wanted to look into it further.

Commented [SA5R4]: Reply from Sheng Lee Yang (SW section liaison):

"I think 30 hours is a good number and puts the accountability on supervisors."

Commented [SA6]: Maybe include this to be consistent with the LPC and MFT section.

"Agreed, its important to keep things consistent between all sections."

(c) Be available or make appropriate provision for emergency consultation or intervention.

(d) Be legally and ethically responsible for the supervised activities of the supervisee.

Commented [SA10]: Comment from Andrea Simon (PC Section liaison):

"Not sure the spot for this, we have had a number of new applicants that have listed an extreme number of hours being completed in an unusual or almost impossible short amount of time to complete their clinical supervision. We did away with the requirement that it be at least 18 months duration to complete the hours but a year or under a year is well beyond full time hours, (figured out some are doing 67 to 120 hours in a week per their documents) with clinical supervisors signing off on it. Our only way to reject has been getting HR reports of when they worked to find it is not true. We need the reported hours to be "reasonable" and to not cause burnout. We also need them to be learning something as it is their training period. Calculating it out, full time work at 40 hours a week (which would be customary at most businesses) would put it at approximately between 13- 14 months to get the clinical supervision hours in depending if the organization closed for holidays. Suggesting it take at least a minimum amount of time might be how we need to go again. Does any other section have a minimum time for clinical supervision still listed?"

Commented [SA11]: Comment from Andrea Simon (PC Section liaison):

"Is this extra requirement in the other sections if they allow a LPC to do clinical supervision that they also have coursework or cont ed? Currently, we have allowed LCSW who have 5 years experience counseling to do the supervision as the have been as qualified as LPC's with the same amount of exp."

Illinois:

Illinois does not have an equivalent to the Independent Social Worker license in Wisconsin. Applicants for licensure as a clinical social worker must complete 3,000 hours of satisfactory, supervised professional experience if they hold a master's degree, and 2,000 hours of satisfactory, supervised professional experience if they hold a doctorate degree. Applicants with a bachelor's degree in social work must complete 3 years of supervised professional experience after completing the degree. The rules specify that the required number of hours may be obtained either as full-time experience, which is a minimum of 30 hours per week but not more than 40 hours per week, or as part-time experience, which is up to 29 hours per week. The supervisor is required to meet with the applicant an average of at least 4 hours each month. Group supervision may not exceed 5 supervisees. Supervisors must be a certified social worker with clinical experience, a licensed clinical social worker, a diplomate in clinical social work, a designated member of the Academy of Certified Social Workers (ACSW), a Board certified psychiatrist, a licensed clinical psychologist, a supervisor from another state who is a clinical professional credentialed at the highest level required by that state or other appropriate clinical supervisor as approved by the board. [68 IL Admin. Code Section 1470.20]

Illinois has two professional counseling licenses: licensed professional counselor and licensed clinical professional counselor. A licensed professional counselor may not engage in independent practice without supervision of a licensed clinical professional counselor, a licensed clinical social worker, a licensed clinical psychologist, or a psychiatrist. [225 ILCS 107/18] To obtain a licensed clinical professional counselor, an applicant needs to submit proof of completion of the equivalent of 2 years of full-time supervised experience working as a clinical counselor under the direction of a qualified supervisor after completing a master's degree. Applicants who hold a doctorate's degree must complete the equivalent of 2 years of full-time supervised experience, at least one year of which is after the doctorate degree conferral. Internships required as part of the doctoral degree may count toward professional experience. A qualified supervisor means any person who is a licensed clinical professional counselor, licensed clinical social worker, licensed clinical psychologist, licensed marriage and family therapist, or licensed psychiatrist. If the supervision took place outside the state, the supervisor must have been a master's level or doctoral level counselor engaged in clinical professional counseling, clinical psychology, marriage and family therapy, or psychiatry. When a clinical counseling applicant is obtaining supervised experience while physically located in Illinois, the qualified supervisor must be licensed in the state, even if the services are provided to persons located outside the state via telehealth. One year of supervised clinical professional counseling experience shall be 1,680 clock hours in not less than 48 weeks and at least 50% of those hours must consist of direct face to face service to clients, which includes telehealth methods where there is synchronous audio-visual communication with the client. The supervisor shall meet face to face with the applicant at least one hour each week. Group supervision must not exceed 5 supervisees. [68 IL Admin. Code Section 1375.130]

Illinois has two marriage and family therapist licenses: associate licensed marriage and family therapist and licensed marriage and family therapist. The difference is that the associate licensed marriage and family therapist may not practice independently and must be clinically supervised by a licensed marriage and family therapist. Also, the associate license is only valid for 5 years and may not be renewed. The requirements of the licensed marriage and family therapist include

completion of at least 3,000 hours of professional work experience in not less than a 2 year period and no more than 5 years, which includes 1,000 hours of face to face client contact and 200 hours of clinical supervision in marriage and family therapy. [68 IL Admin. Code Section 1283.15] At least 350 hours of the 1,000 hours must involve working with only one client present in therapy sessions as part of the therapy being provided to couples or families, and at least 350 hours of the 1000 hours of face-to-face client contact must involve conjoint therapy, i.e., working with two or more clients present in therapy sessions who are in significant relationships with each other outside the therapy context. [68 IL Admin. Code Section 1283.20] Up to 100 hours of the 200 hours of clinical supervision accumulated during graduate training may be counted toward the total hours of clinical supervision. An eligible supervisor must hold a certification as an approved supervisor or supervisor in-training by the American Association for Marriage and Family Therapy (AAMFT); an active license as a licensed marriage and family therapist with 5 years of clinical experience providing marriage and family therapy; an active clinical membership certification with the AAMFT for at least 5 years; or an active license as a licensed clinical psychologist, a licensed clinical social worker, or a licensed psychiatrist and have 5 years clinical experience providing marriage and family therapy, at least 1,000 hours of conjoint therapy, and either 2 years of experience providing clinical supervision of marriage and family therapy or completed one semester hour of graduate course in marriage and family therapy supervision with at least 15 contact hours or the equivalent prior or during the supervision of an applicant. Supervision is defined as a face-to-face conversation with a supervisor that is live, interactive, and visual. Video supervision sessions must be synchronous and permit verbal and visual interaction during supervision, and must comport with confidentiality regulations and laws, usually in periods of approximately one hour each. Group supervision is limited to a maximum of 6 supervisees. [68 IL Admin. Code Section 1283.25]

Iowa:

Applicants for licensure as a licensed independent social worker, the Iowa equivalent to a clinical social worker, must complete the clinical supervised experience in a minimum of 2 years and the experience shall consist of at least 3,000 hours of supervised social work practice, which includes at least 1,500 hours of direct client contact and 110 hours of direct supervision. The direct supervision hours shall include at least 24 hours of live or recorded direct observation of client interaction. A maximum of 50 hours of direct supervision may be obtained through group supervision. The content of the clinical supervised experience shall include psychosocial assessments as well as diagnostic practice and treatment using the current edition of the DSM. The rules do not specify how many hours must involve diagnostic practice and treatment. An applicant who has accrued some or all supervised experience in another state without obtaining licensure in that state shall contact the board to determine if some of that experience can be used to obtain licensure in Iowa. Eligible supervisors must hold an active license as an independent level social worker, mental health counselor, or marital and family therapist, have a minimum of 3 years of independent practice, have completed at least 6 hours of continuing education course in supervision or one graduate level course in supervision, be knowledgeable of the ethical code and licensing rules governing the supervisee. An applicant who completed some or all of the supervised clinical experience in another state without obtaining licensure in that state should contact the board to determine whether some or all of the supervised clinical experience completed can be

used to qualify for licensure in Iowa. [481 IAC 895.6 (154C)] Iowa does not have an equivalent to the Independent Social Worker license in Wisconsin.

Applicants for licensure as a mental health counselor or marriage and family therapist, the Iowa equivalent to a professional counselor or marriage and family therapist, must complete the clinical supervised experience in a minimum of 2 years and the experience shall consist of at least 3,000 hours of supervised social work practice, which includes at least 1,500 hours of direct client contact and 110 hours of direct supervision. An applicant who completed some or all of the supervised clinical experience in another state without obtaining licensure in that state should contact the board to determine whether some or all of the supervised clinical experience completed can be used to qualify for licensure in Iowa. [481 IAC 891.7 (154D)]
