Dear Dr. Groom:

On behalf of the Commission on Collegiate Nursing Education (CCNE), I am pleased to advise you that the CCNE Board of Commissioners acted at its meeting on May 7-10, 2019, to grant accreditation to the baccalaureate degree program in nursing at Mount Mary University for 5 years, extending to June 30, 2024. The accreditation action is effective as of November 5, 2018, which is the first day of the program’s recent CCNE on-site evaluation. You should plan for the next on-site evaluation to take place in the fall of 2023.

The Standards for Accreditation of Baccalaureate and Graduate Nursing Programs (2018) went into effect January 1, 2019. As the on-site evaluation occurred in 2018, the program was considered using the Standards for Accreditation of Baccalaureate and Graduate Nursing Programs (2013).

At its meeting, the Board determined that the program met all four accreditation standards. The Board additionally determined that there are no compliance concerns with respect to the key elements.

As is required for all accredited programs, a continuous improvement progress report (CIPR) must be submitted at the mid-point of the accreditation term. Please note that the CIPR needs to demonstrate the program’s compliance with the CCNE standards and key elements that are in effect at the time of its submission. As a courtesy, CCNE will send a reminder letter to the chief nurse administrator informing the program of the specific standards to be addressed and providing guidance for the preparation of the report. The deadline for submitting the CIPR to CCNE is December 1, 2021. The Report Review Committee, and then the Board of Commissioners, will review the CIPR. For more information about CIPRs and the report review process, please refer to the CCNE procedures.

As you know, the team report and the program’s response to the team report are available to the institution in the CCNE Online Community. We hope that the results of the self-study process and the team report will be useful to the continued growth and development of the nursing program. A certificate of accreditation is enclosed.

In accordance with CCNE policy, if a program or institution elects to make a public disclosure of a program’s accreditation status with CCNE, the program or institution must disclose that status accurately. The program or institution disclosing the information must identify the nursing program and its affiliation with CCNE. Please refer to CCNE’s disclosure policy and the statements CCNE has approved for use, as well as information on use of the CCNE accreditation seal, at http://www.aacnnursing.org/CCNE/Seal-Policy/Baccalaureate-Graduate. Please ensure that the institution’s website and other materials are updated to reflect this language, as appropriate.
As a reminder, all programs are expected to comply with the CCNE standards and procedures that are in effect throughout the period of accreditation. This includes advising CCNE in the event of a substantive change affecting the nursing program. Substantive change notifications must be submitted to CCNE no earlier than 90 days prior to implementation or occurrence of the change, but no later than 90 days after implementation or occurrence of the change. These reporting requirements are described further in the *Procedures for Accreditation of Baccalaureate and Graduate Nursing Programs* (2019), available at https://www.aacnnursing.org/Portals/42/CCNE/PDF/Procedures.pdf.

Thank you for your participation in the CCNE accreditation process. The Commissioners join me in expressing our very best wishes as you continue to promote excellence in nursing education.

Sincerely,

Mary Jane S. Hanson, PhD, CRNP, CNS, FNP-BC, ACNS-BC, FAANP
Chair, Board of Commissioners

2. Statement of intent to establish a school of nursing, including academic and licensure levels of all programs to be offered and the primary method of instruction

MMU intends to expand its Nursing Department to include a Bachelor of Science in Nursing (BSN) pre-licensure program. The primary method of instruction will be in-person didactic courses, nursing skill laboratory courses, and clinical learning experiences. Some online and hybrid courses will be used for didactic coursework.

MMU’s RN to BSN Program is currently authorized by the Wisconsin Board of Nursing (BON) to admit students. The MMU RN to BSN program is a post-licensure program offered fully online with a precepted capstone clinical experience with a nurse leader.
3. Evidence of the availability of sufficient clinical facilities and resources

Letters of support from area health systems indicating commitment to support clinical training of students are included.

- Froedtert Health
- Milwaukee Catholic Home
- Advocate Aurora Health
- Children’s Wisconsin
- Clement Manor
- ProHealth Care

Overview of Institutional Resources

Campus services meet the needs of a diverse student body. The size of the University and the friendly openness of its concerned faculty and staff assist each student to address their individual needs and attain personal, academic, and professional goals. The Haggerty Library and Learning Commons provides for information gathering, research, curricular support, and lifelong learning needs of the University community. Many student support offices are located on the first floor of the Library and are collectively referred to as the Student Success Center. Information Technology Support is readily available for faculty and students alike. In addition to the support available in the Library, other student support resources – including residential living and student organizations – are also available at Mount Mary.

An overview of resources including Financial/Scholarship Support, Student Affairs, Library Services, Teaching/Learning Technology Resources, Virtual Reality, and Nursing Program Learning Space are described below.

Financial and Scholarship Support

In addition to regular financial aid (federal and state loans and grants) and institutional scholarship support, MMU offers a broad array of financial and academic supports for its students. Examples include the Promise Program, Title III B.O.L.D. Program, DASH Grant, President’s Emergency Fund, and Grace Scholars Program.

- MMU’s Promise Program is a federally funded TRIO Student Support Services program that provides academic, career, and financial support to 140 first-generation and limited-income college students each year.
- The Title III B.O.L.D. Program provides academic coaching and career development support to limited-income students who require developmental education, in an effort to increase retention, persistence, and timely completion rates. Funding also includes significant IT infrastructure allowing for enhanced academic course delivery.
- MMU’s DASH Grant and the President’s Emergency Fund are emergency grant programs that provide financial assistance to students facing financial emergencies that could impact their educational success at Mount Mary.
- The Grace Scholars Program is a unique four-year scholarship opportunity for first-year, full-time undergraduate students from the cities of Milwaukee and West Milwaukee with financial need. The program provides Scholars with 85% of their tuition, cohorted gateway courses, academic coaching and emergency funds to support persistence to graduation.

**Student Affairs**
Student Affairs offers a depth and breadth of support for both the traditional undergraduate student and non-traditional returning students. Student Affairs includes Student Engagement and Residential Living, and the Student Success Center Staff (Academic Advising and Career Development, Accessibility Services, Counseling, Learning Services, and Student Support Consultants). Examples of Student Affairs services for students include:

- **Student Engagement and Residential Living:** Student Engagement and Residential Living provides opportunities for students to engage with one another and grow their leadership abilities. Through a thoughtful, cohesive programmatic model, students are exposed to learning opportunities that build community, knowledge, and potential.
  - Student Government: MMU’s Student Government Association (SGA) exists to represent the student body in University decision-making, feedback, and community development. Members of SGA represent various student populations at MMU, and meet weekly to identify topics for consideration.
  - Student Organizations: Student organizations at MMU offer engaging, community-building opportunities for students to learn important leadership skills. Over 35 student clubs and organizations, including several honor societies, allow for student involvement.

- **Academic Advising and Career Development:** Advising and Career Development supports students to make the connection between their skills, interests, values, major and career options. Students are prepared professionally, with the ultimate goal of securing meaningful employment and positions of influence and impact. MMU intentionally combines advising and career development to support students in connecting academic and career goals for life-long success. Through a holistic, student-centered approach, students are empowered to transform the world utilizing their knowledge and gifts

**Library Services**
Haggerty Library at MMU is a spacious and comfortable space to promote student learning. Haggerty Library belongs to a Milwaukee-area library consortium called SWITCH, which includes seven other smaller colleges and universities. SWITCH libraries share materials, both physical and online, as well as an online integrated library system (ILS) shared by all library staff. Haggerty Library also offers Interlibrary Loan (ILL) for physical materials and online articles from non-SWITCH libraries. Patrons place requests in WorldCat Discovery, a global library catalog, or through any of our A-Z journal databases. Students from any discipline can readily access or request hundreds of thousands of items.

Relevant library formats include nearly 90,000 print books, over 160,000 e-books, hundreds of documentary DVDs, many with a mental and physical health, or social science focus, and three
large streaming video databases. A Library Liaison assigned to Nursing keeps dozens of nursing textbooks and testing books regularly updated as new editions are published, and orders new nursing titles to keep current. Many other health- or mental health-related related titles contain nursing or medical chapters. This includes both print and e-books.

Teaching-Learning Technology Resources
The Information Technology (IT) Department offers extensive support for teaching-learning technology. MMU uses the learning management system Canvas. There exists substantial IT support for the learning management system. Training on Canvas is provided for all new faculty. In addition, training and workshops are offered each semester for instructors to learn additional functionality. There is a Canvas user group that serves as a resource for creating courses and utilizing Canvas in instruction. The user group includes feature-specific instructional handouts, useful presentations, and news and announcements.

The Technology Innovation Center is a dedicated space on campus that was created to provide faculty and staff a place to test new and existing academic and administrative technologies. The center is setup to replicate a small classroom and provides a location to provide short, focused workshops, conduct one-on-one or group trainings, host webinars on instructional and administrative technologies, and provide assistance with development of in-person, hybrid, and online courses in our course management system.

MMU employs a full-time instructional designer as well as a full-time inclusive excellence curriculum specialist. These experts support nursing faculty in curriculum best practices and participate on nursing department committees. In addition, the campus-wide Innovative Technology in Education Committee (ITEC) serve in an advisory role on academic technology and learning spaces. The ITEC’s responsibilities include: maintain a reciprocal role in communication to and from operational areas about academic technology needs and delivery, support processes and procedures related to instructional design, quality assurance for distance delivery and online course development, classroom upgrades including technology and furniture, technology hardware and software requests.

Virtual Reality
MMU has a state of the art Virtual Reality (VR) classroom. MMU recognizes the emerging educational use of immersive VR and invested in a newly renovated dedicated VR Room with active learning furniture. The VR equipment includes a Wireless Vive Pro VR Headset, powerful Dell Alienware computer with high-end graphics card, center 15’x15’ play area for VR user with a wireless headset and hand controls. The headset supports “room scale” which allows the user to physically move around the virtual environment and interact with their environment. Other students can view the user experience with two 86” interactive/touch displays.

Virtual Reality will be used in the nursing curriculum in a variety of ways. For example, virtual reality allows students to visualize and interact with the anatomical structures and physiology of the human body. Virtual reality has also been used at MMU in an experiencing homelessness scenario to promote empathy training. Further opportunities to be developed include virtual reality experiences in-patient scenarios that students may not get to experience in clinical settings such as nursing care during labor and delivery.
Nursing Program Learning Space
Physical space is sufficient and configured in ways that support the program’s success. All personnel have spacious private offices with computer, phone, desk, and other needed equipment. Shared multi-function devices (MFD) are located on the same wing as the program offices. MFDs include printing, copying, scanning, and faxing functionality.

To support the psychomotor skill development and preparation for nursing clinical care, MMU has identified an approximately 6,500 square foot Nursing Program Learning Space including an approximately 1,700 square foot Nursing Skills Lab and 1,100 square feet for Simulation Learning. The renovated space will include 1. Nursing Skills Laboratory, 2. Health Simulation Center, 3. Simulation Pre-Conference and Debriefing rooms 4. Storage space for supplies 5. Office space for laboratory and simulation faculty and staff, and 6. Student locker space for storing and securing student belongings.

Construction plans have been developed and are provided below. Renovation timelines will be ready for use of the space beginning in Fall 2021. This will meet the needs of pre-licensure BSN students since new program students will not begin the nursing major coursework until their 2nd year of studies.

Dear Dr. Groom,

Thank you for sharing the news of Mount Mary University’s plan to expand their Nursing Program offerings. We are happy to hear that Mount Mary University is pursuing Wisconsin Board of Nursing (BON) and Commission on Collegiate Nursing (CCNE) approval for a pre-licensure Bachelor of Science in Nursing (BSN) program.

Nurses are the largest segment of the healthcare workforce and Wisconsin Center for Nursing registered nurse (RN) forecasting models project that there will not be enough RNs to meet the increasing health care needs of an aging population. The addition of a pre-licensure program to Mount Mary University’s other nursing programs will expand pathways for diverse students to pursue nursing. In addition, the mission of Mount Mary University’s nursing program to prepare nurses with leadership skills, integrity, and a deep sense of social justice will prepare nurses to deliver high quality and safe patient care.

We will support the clinical training of students in Mount Mary University’s pre-licensure BSN at all of our Southeast Wisconsin healthcare facilities. Through the processes and collaborative effort of the Southeast Wisconsin Nursing Alliance (SEWNA) we will work to place Mount Mary University and other nursing program’s clinical requests as we are best able.

In January 2016, Froedtert received its third Magnet designation by the American Nurses Credential Center’s (ANCC) Magnet Recognition Program, one of the highest levels of recognition a hospital or medical center can achieve. The Magnet Recognition Program recognizes healthcare organizations that demonstrate excellence in nursing practice and adherence to national standards for the organization and delivery of nursing services. Froedtert Hospital went through a rigorous evaluation that included extensive interviews and reviews of nursing services. Of the nearly 6,000 health care organizations in the United States, only 425 have received Magnet designation.

If there are any questions regarding our support, please feel free to contact me. Wishing you the best in your accreditation and BON program approval.

Sincerely,

Catherine J. Buck, MSN, RN

4. Plans to recruit and employ a qualified educational administrator and qualified faculty

MMU employs a qualified educational administrator
The current Chief Nurse Administrator, Kara K. Groom, RN, MSN, PhD, began July 27, 2018. Dr. Groom is a registered nurse licensed in the State of Wisconsin. Dr. Groom holds a Master of Science in Nursing (MSN) degree and a PhD in Nursing, both from Marquette University in Milwaukee, WI. Dr. Groom’s Curriculum Vitae is provided below.

Dr. Groom has over 10 years of experience in nursing education. She has taught at the baccalaureate and associate degree levels. She has experience in online delivery, simulation, clinical, and didactic settings. Advanced coursework in nursing education includes: Educational Research, Policy and Leadership, Advanced Applied Statistics, Teaching Diverse Learners, Evaluation and Assessment, and Educational Diversity & Curriculum Development.

Dr. Groom has leadership experience and training. She served as an Assistant Dean of Health Sciences at Milwaukee Area Technical College. She has also had advanced coursework in conflict management and Nursing Faculty Leadership Training through the Center for Leadership Excellence.

Qualified Faculty
The MMU Nursing Program currently employs 2 full-time faculty members. Dr. Groom teaches in addition to a course release for serving as program chair. Dr. Jennifer Dahlman is a second full-time faculty member. Dr. Dahlman:

- Has a current, active registered nurse license in Wisconsin that is not encumbered
- Possesses a Masters degree and PhD in Nursing. Dr. Dahlman’s curriculum vitae is provided below

A hiring plan based on enrollment projections has been developed and provided below. The program projects a nursing faculty FTE need of 11 at full enrollment. The nursing program plans to hire 4 additional full-time nursing faculty members. The remaining FTE needs will be met through adjunct faculty. The program will also include a full-time administrative assistant, full-time nursing skill lab instructor and a full-time simulation specialist.

APPLICATION FOR AUTHORIZATION TO PLAN A SCHOOL OF NURSING

Wis. Admin. Code Chapter N 1.03 requires an institution planning to establish and conduct a school of nursing for professional nursing or practical nursing to submit an application including all of the following to the Board:

1. Name and address of controlling institution and evidence of accreditation status of controlling institution.
2. Statement of intent to establish a school of nursing, including the academic and licensure levels of all programs to be offered and the primary method of instruction.
3. Evidence of the availability of sufficient clinical facilities and resources.
4. Plans to recruit and employ a qualified educational administrator and qualified faculty.
5. Proposed timeline for planning and implementing the school and intended date of entry of the first class.

The Board shall make a decision on the application within two months of receipt of the completed application and will notify the controlling institution of the action taken on the application.

To apply, please submit the following to dspsexaminationsoffice@wisconsin.gov:

1. This completed and signed application form.
2. A written proposal addressing the five items above.

Board of Nursing
DSPS
PO Box 8366
Madison, WI 53708-8366

Dear Members of the Board,

I regret to inform you that the Franciscan Sisters of Christian Charity Sponsored Ministries announced Monday, May 4, that Holy Family College (formerly Silver Lake College of the Holy Family) will cease operations at the end of the summer term and discontinue all operations by August 29. This decision will include closure of the Bachelor of Science in Nursing program.

Sister Natalie Binversie, Community Director of the Franciscan Sisters of Christian Charity in Manitowoc, said the Sisters made the difficult decision to approve cessation of the College’s operations after careful consideration of current enrollment and fundraising challenges as well as a detailed analysis of the College’s fiscal position. She added that the onslaught of the COVID-19 pandemic only made a tough situation untenable.

The College is currently securing agreements with multiple colleges and universities to help ensure that all of our students will have options and opportunities to transfer to other schools. We will work with these other institutions with the hope that they will quickly move the student through their matriculation process, accept all of their Holy Family College credits, allow them to complete an equal or comparable degree program at a cost similar to, or less than, the cost they were paying to attend Holy Family College. To date the following institutions have signed agreements that now will move to Higher Learning Commission for final approval: Bellin College, Cardinal Stritch University, Carroll University, The Catholic University of America, Edgewood College, Lakeland University, Mount Mary University, Ripon College, Marian University, Alverno College, UW-Green Bay, UW-Oshkosh, and UW-Whitewater.

Holy Family College will also work to provide student access to academic counselors and other professionals to assist them with understanding their transfer options both from an academic standpoint and any financial aid questions or concerns. We also are reaching out to all potential new students for any summer or fall programs so they can make different plans. We fully realize that we are making this announcement late in the spring, which compresses the time students have to complete enrollment at another institution. We pledge to work as hard as we can with all students to help them transition to another college. More information about the college closure can be found at www.holyfamilycollege.edu/closure.
Addendum A is a spreadsheet that includes the names, contact information and potential transfer institutions for nursing students. Please note that not all students responded to the survey.

Brianna Neuser, Director of Nursing will remain on staff until June 30, 2020 to advise RN and BSN and pre-licensure nursing students regarding transfer options. Melissa Hamachek, Nursing Department Chair will remain on contract through August 13, 2020 to serve students.

Finally, the Holy Family College is working with the Wisconsin Association of Independent Colleges and Universities (WAICU) to secure storage and access to academic records and transcripts for 50 years. If you have any questions about the transition please contact Brianna Neuser at Brianna.neuser@holyfamilycollege.edu or 920-629-7349.

Sincerely yours,

Brianna Neuser

For the Board’s consideration is draft rule language concerning the ability of the Board to grant temporary waivers and variances in response to an emergency:

N ____ Temporary waiver of or variance to requirements. (1) The board may grant a temporary waiver of or variance to a requirement of this chapter if all of the following apply:

(a) The board determines a natural or man−made disaster or emergency exists that necessitates granting a waiver or variance, and that granting a waiver or variance will maintain a comparable degree of protection of the public health, safety, and welfare.

(b) The waiver or variance does not establish a requirement more restrictive than that contained in a provision of this chapter or a statutory provision.

(c) The waiver or variance is not duplicative of, superseded by, or in conflict with another rule, a state statute, a federal statute or regulation, or a ruling of a court of competent jurisdiction.

(2) A waiver or variance granted under sub. (1) shall be for a stated term not to exceed 90 days, except that the board may extend the waiver or variance if it determines that an extension is necessary to protect the public health, safety, or welfare.

SUMMARY

In order to protect the health and safety of our members, staff and the public during the COVID-19 pandemic, the 2020 NCSBN Annual Meeting will be held virtually as a one-day online event, Aug. 12, 2020, from 1:00 - 5:00 pm Central Time.

This abridged Annual Meeting will include the Delegate Assembly, candidate forum, committee forum and elections. There will be no guest speakers. NCSBN will share further details and logistics as they are determined. Although NCSBN regrets that we will be unable to see each other in person, we are working to ensure that this year’s Annual Meeting is interactive and engaging.

REGISTRATION
The deadline for registration is Wednesday, Aug. 5, 2020. The capacity for the meeting is 1000 attendees and is on a first-come, first-served basis. Online registration will stop once capacity is reached; a wait list will then be started.

There is no fee to attend the 2020 NCSBN Annual Meeting.

If you do not receive correspondence from the NCSBN Meetings department within one week of submitting your registration, please contact 312.525.3639 or email.

CANCELLATIONS
Registration cancellations must be received by NCSBN no later than Aug. 5, 2020. To cancel your registration, please contact NCSBN Meetings via email.
