

Plumbing Continuing Education

Department of Safety and Professional Services
Industry Services Division

2019

DSPS continues with its partnership with the Wisconsin Technical College System to provide plumbing continuing education credits. The Department's goal is to provide strategic locations through the technical college system to provide uniform accessibility throughout the state. Classes are scheduled by the individual Technical Colleges and instructed by DSPS plumbing staff. Please see the list of Technical Colleges participating and activate the link for specific information. Don't see your local technical college listed, ask them to participate.

Department of Safety and Professional Services Credential Renewal - Website

Please go to: <http://dsps.wi.gov> to access the department's website.

Click on "License Look-up"

- Click on "Trades/Credential/License Search"
- Type in your credential number – hit search;
- See the expiration dates of credentials;
- Click on your highlighted name to see CE hours needed; close window to get back to home page;
- Click on "Self-Service" within the blue ribbon;
- Scroll down to "Construction/Building Trades"
- See "Renew a Credential Online" and follow instructions

Contact the trades credentialing unit at 608-266-2112 or via email at DSpscCredTrades@wi.gov with questions on renewal or hours of credit.

Face to face training sessions can be taken more than once for credit. Online courses can only be taken once during the 1, 2, or 4-year license term to receive credit.

Online Continuing Education Courses

Unable to attend the classes in your area? There are online courses available through private vendors. The following website link lists many online courses approved for a variety of plumbing license categories. Please be mindful of the specific license CEU approvals.

Plumbing Continuing Education

Department of Safety and Professional Services Industry Services Division

2019

General Plumbing Classroom Courses

Wastewater Holding & Treatment Devices & CCC Assembly Requirements

Three hours of credit for MP, JP, MPRS, JPRS, UC and Comm PI. Course is instructed by current DSPS staff.

Learn the minimum sizing requirements for interior and exterior grease interceptors, car wash interceptors, dilution and neutralization basins, commercial laundries, and special wastewater or mixed wastewater treatment devices. Also, the installation requirements of these devices. The last portion of this class will cover the installation requirements of cross connection control assemblies; labeling, plan review requirements, installation minimums, as well as minimum program requirements.

Indirect & Local Waste, Discharge Points, & Receptors

Three hours of credit for MP, JP, UDC PI and Comm PI. Course is instructed by current DSPS staff.

Learn the minimum requirements of indirect and local waste piping. Where required, sizing, trapping, etc., include T & P relief discharge and water treatment devices. Plus, acceptable discharge points of SPS 382.38 along with Table 382.38-1. Included in this class will be receptors and their sizing as well as acceptable usage of a fixture as a receptor.

Continuing Education Courses

Don't see what you want or need in continuing education? Other Department courses are available via an online registration. Specified courses will be provided as sufficient registrants are received. To review the courses available or to pre-register see: <https://dsps.wi.gov/Documents/DSPSPumbingCESpecialtyCourses.pdf>

Please e-mail DspsSbPlbgTech@wi.gov and submit a suggestion on future educational subjects. Your input is appreciated.

Participating Technical Colleges

Courses will be offered at the following locations in the following cities. For additional information or to register for a course at a specific location please contact the technical college of your choice through the following links:

Moraine Park Technical College

West Bend <https://www.morainepark.edu/programs-and-courses/certifications-and-licensure/plumbing/>

Wisconsin Indianhead Technical College (WITC)

Hayward, New Richmond, Rice Lake, Superior:

<https://courses.witc.edu/Search/Class?courseid=016414&topicid=2>

Remember to bring your code books along and take advantage of creating your own notes right where you need them.
