

Plumbing Continuing Education

Department of Safety and Professional Services
Industry Services Division

2017-2018

Online Continuing Education Courses

Unable to attend the classes in your area? There are online courses available through private vendors. The following website link lists many online courses approved for a variety of plumbing license categories. Please be mindful of the specific license CEU approvals.

See

<https://dsps.wi.gov/Pages/Professions/TradesContinuingEducation.aspx> for other providers of Plumbing Continuing Education Courses

Specialty Courses Available

Courses in Multipurpose Piping (MPP); Water Reuse; HealthCare Design and Installations, Water Treatment, Master Plumber Prep, and UDC/CPI Plumbing Inspector Training are available.

To inquire about any of the above courses see:

<https://dsps.wi.gov/Documents/DSPSPumbingCESpecialtyCourses.pdf>

Department of Safety and Professional Services Credential Renewal - Website

Please go to: <http://dsps.wi.gov> to access the department's website.

Check under the License/Permits/Registration heading and click Trades Professions for:

- How to renew online
- Hours of credit needed to renew your license
- What courses are offered for credit
- Continuing education must be fulfilled by your expiration date to renew your credential.

To save time, see the website first for the latest information available.

Contact the trades credentialing unit at 608-261-8467 or via email at dspsbcredialing@wi.gov with questions on renewal or hours of credit.

Face to face training sessions can be taken more than once for credit. Online courses can only be taken once during the 1, 2, or 4-year license term to receive credit.

Plumbing Continuing Education

Department of Safety and Professional Services Industry Services Division

2017-2018

General Plumbing Classroom Courses

Stormwater

Three hours of credit for MP, JP, MPRS, JPRS, UC and Comm PI. Course is instructed by current DSPS staff.

This continuing education course will cover storm water drainage systems. This course will include the plan review requirements, checklists, sizing based on GPM load, types of systems to comply with NR 151 Standards, (detention, retention, infiltration, 1004 Standard), soil reports, (1002 Standard), and inspection practices.

Plumbing Topics

Three hours of credit for MP, JP, UDC PI and Comm PI. Course is instructed by current DSPS staff.

This continuing education course will cover an array of topics throughout Chapter SPS 382. This course will be geared mainly at code questions, asked by you, that have been addressed by the department over the past year or so, along with the Department's responses.

Continuing Education Courses

Don't see what you want or need in continuing education?
