

DSPS Pre-approved 60-Credit Hour Licensed Professional Counselor Programs

Please Note: If a program is CACREP Accredited and meets the criteria in the Wisconsin Administrative Code it will not appear on this list. Please reference Wisconsin Administrative [Code MPSW 11.01 2.\) b.](#) regarding the five (5) CACREP degree specializations automatically pre-approved by the State of Wisconsin. Applicants graduating from a CACREP-approved program in one of these specializations must have their school submit [Form# 1960 Professional Counselor Certificate of Professional Education](#) as part of their application materials.

The programs listed below have applied for pre-approval with the state of Wisconsin's Department of Safety and Professional Services because: 1. They are not currently accredited through CACREP or 2. Their program specialization is not one of the five (5) pre-approved CACREP specializations listed in the Wisconsin Administrative Code. All DSPS pre-approved programs have had their curriculum and course syllabi reviewed and approved by the Professional Counselor section of the Marriage and Family Therapy, Professional Counseling and Social Work (MPSW) Examining Board.

Applicants graduating from a DSPS Pre-approved 60 Credit Program are required to submit Official Transcripts as part of their application process, which are compared to the approved Course Grid (listed by school below) for their institution. Courses reviewed and approved during the program's application process comprise the Course Grid. Schools are responsible for making sure that curriculum changes are approved by DSPS prior to changing or updating their curriculum so the Course Grid remains current. Any substitutions/deviations by applicants from the approved Course Grid will require applicants to submit the course syllabus for review for equivalency by the MPSW Examining Board and is not a guarantee of approval.

(Click the school's hyperlink to navigate to the approved program's Course Grid)
