## Boiler Operators/Licensing FAQs

### **1. Where can a company get boiler training/licensing for employees?**

**Answer:** Wisconsin Technical Colleges can be contacted and for outreach boiler operator training for plant personnel.

Other training and licensing organizations:

- American Society of Plant Engineers: [www.asope.org](http://www.asope.org)
- National Institute Uniform Licensing of Plant Engineers: [www.niulpe.org](http://www.niulpe.org)
- Training Online and Service Company Combustion Safety Inc.: [www.combustionsafety.com](http://www.combustionsafety.com)

### **2. What are the licensing requirements in the state of Wisconsin for boiler operators?**

**Answer:** Wisconsin does not require boiler operator licenses. These requirements are administered locally by city and/or county governments. Call the city or county you will be operating the boiler in and ask if they have any licensing requirements.
