Order 475.—Signal Systems. New and Existing Installations.

(a) Every elevator and every power dumbwaiter shall be equipped with a signal system or warning bell, so arranged that it can be safely and conveniently operated from any landing, except elevators and dumbwaiters controlled by push buttons and hand power elevators traveling in no case more than 26 feet.

(b) Every automatic push button elevator shall be provided with an emergency call bell in the caretaker's office, with properly placarded push button in the car.

SECTION X. LIGHTING.

Order 476.—Lighting.

(a) Car Lighting. Elevator cars shall be adequately lighted when in use. Provision for electric light shall be made if current is available. The intensity of illumination shall be not less than 0.75 foot-candle at the edge of the car platform.

Note: This illumination is the equivalent of a 75 watt lamp at the middle of a standard passenger elevator.

(b) Landing Light. While occupied ample light shall be provided at every elevator landing within, or in connection with, any building.

(c) Penthouses and Overhead Lighting. Every penthouse shall be provided with suitable artificial light. Every elevator machine room and area about a ceiling type machine, including overhead sheave rooms and lofts, shall be well lighted. Control of such lighting shall be in the approach to the penthouse or overhead equipment. (See Industrial Lighting Code issued by the Industrial Commission.)

SECTION XI. OPERATION, MAINTENANCE AND USE.

Order 477.—Operation of Elevators. New and Existing Installations.

(a) A competent operator shall be stationed on the car of every passenger elevator while in use, except push button elevators.

Note: Section 114.06 of the Wisconsin Statutes prohibits the employment of persons under 16 years of age in the operation of elevators.

(b) No elevator car shall be used for hoisting material which projects from the car at any point, nor shall material be hung underneath the car, except in extreme necessity when the following precautions shall be observed:

1. No material extending above the top of any elevator car shall be hoisted unless a regular operator is on the car and an attendant is stationed at the floor level where the material is to be delivered.

2. The car shall be operated at slow speed when it is necessary to use it for this purpose.

3. Every car gate and car door shall be closed while the car is in motion.

Order 478.—Maintenance. New and Existing Installations.

(a) Elevators, dumbwaiter and escalator equipment shall be kept in safe operating condition, properly lubricated and clean.

(b) Hatch covers of the vertically rising type used on elevators shall not be used for storage purposes, nor as passageways.

(c) Explosives or highly inflammable substances shall not be stored within 20 feet of any elevator shaftway or penthouse.

(d) Material which is not a permanent part of the elevator equipment shall not be permitted on the top or cover of an elevator car.

Note: A sign should be used to plainly designate a freight elevator, at the same time prohibiting unauthorized persons from riding on the car.
