

Recycling, Recovery, Reclaiming Refrigerants Frequently Asked Questions

1. **When does refrigerant have to be removed from a refrigerator?**

Answer: When a refrigerator is scrapped, the unit falls under the [Wisconsin Department of Natural Resources salvage and disposal](#) rules. Contact Cory Carter, 608-789-5512. NR 488 rules require refrigerant and oils be removed by either a Department of Ag, Trade, and Consumer Protection certified person (mobile AC) or a Dept. Safety and Professional Services Commercial Refrigerant Handling Technician (commercial and residential service person) prior to disposal of unit.
