

# MOUND POWTS PLAN INSTRUCTIONS

- Complete a **Mound Plan Index and Cover Sheet**.
- Complete a **Plot Plan** using an appropriate scale. Include all applicable items in the plot plan instruction page “Checklist.”
- Complete an appropriate **Mound Dispersal Area Cross-Section and Plan View** page. Note that a variety of option combinations are available (sloping vs. level sites; gravel media vs. artificial media; 1-lateral, 2-lateral, or 3-lateral distribution; and, single cell vs. multiple cell). Make sure you select the correct dispersal area diagram for your plan.
- Complete a **Distribution Network Specifications** page. These pages are available in 1-lateral, 2-lateral, or 3-lateral versions.
- Complete a **Pump Tank Specifications** page. In addition to a standard pump tank version, force-main filter and force-main check-valve versions are also available.
- Complete a **Mound Management Plan**.
- Include a pump performance curve for the pump you have specified in the plan.

## Required Pages for a Mound POWTS Plan:

Mound Plan Index & Cover Sheet	Pg 1 of 6
