Petition for Variance Information and Instructions SPS 303

In instances where exact compliance with a particular code requirement cannot be met or alternative designs are desired, the division has a petition for variance process in which it reviews and considers acceptance of alternatives which are not in strict conformance with the letter of the code, but which meet the intent of the code. **A variance is not a waiver from a code requirement.** The petitioner must **provide an equivalency which meets the intent** of the code section petitioned to obtain a variance. Documentation of the rationale for the equivalency is required. Failure to provide adequate information may delay a decision on the petition. Pictures, sketches, and plans may be submitted to support equivalency. If the proposed equivalency does not adequately safeguard the health, safety, and welfare of building occupants, frequenters, firefighters, etc., the variance request will be denied. NOTE: A SEPARATE PETITION IS REQUIRED FOR EACH BUILDING AND EACH CODE ISSUE PETITIONED (i.e., window issue cannot be processed on the same petition as stair issue). It should be noted that **a petition for variance does not take the place of any required plan review submittal.**

The division is unable to process petitions for variance that are not properly completed. Before submitting the application, the following items should be checked for completeness in order to avoid delays:

- Petitioner's name (typed or printed)
- Petitioner's signature
- The application must be signed by the owner of the building or system unless a Power of Attorney is submitted.
- Analysis to establish equivalency, including any pictures, illustrations or sketches of the existing and proposed conditions to clearly convey your proposal to the reviewer.
- Proper fee
- Any required position statements by fire chief or municipal official

A position statement from the chief of the local fire department is required for fire or life-safety issues. No fire department position statement is required for topics such as plumbing, private onsite sewage systems, or energy conservation. Submit a municipal building inspection department position for SPS 316 electrical petitions, or if SPS 361-366 commercial building plan review is by the municipality or orders are written on the building under construction. (Submit a copy of the orders.) For rules relating to one- and two-family dwellings, a position statement is required only if the local municipality is the enforcing body. A position statement from the county sanitary permit issuing agent is required for petitions to SPS 383 and 385. A position statement from the Department of Agriculture, Trade and Consumer Protection (DATCP) is required for life-safety issues for public swimming pools requested from SPS 390. Position statements must be completed and signed by the appropriate fire chief, local government enforcement official or state agency designee. Signatures or seals on all documents must be originals. Photocopies are not acceptable.

Priority Review: The department will schedule Petitions for Variance at the earliest available date, or the date requested at time of scheduling, whichever is later. Therefore, priority reviews are not generally available. In special circumstances, the section chief of the reviewing office may permit review prior to the scheduled date upon request by the submitter. If earlier review is permitted by the section chief, the petition review fees will be doubled.

Except for special cases, Industry Services will review and make a determination on a petition for variance within 30 business days of the scheduled beginning date, provided all calculations, documents, and fees required for the review have been received.

Appointment and Scheduling Information

It is strongly recommended that an appointment be made in advance by fax. Industry Services has a 24-hour, toll free number dedicated to receiving faxed plan review appointment requests. The dedicated fax number is 877-840-9172. The petition review will be scheduled with the same office where the plan was/will be reviewed. The submitter will receive a letter back with an appointment date, transaction ID number, and the name of the assigned reviewer. The petition and accompanying documents must be received in the office of the appointment no later than two working days before the confirmed appointment. Unscheduled submittals or submittals received without a confirmed appointment date and transaction number may be assigned to offices other than the receiving office depending on reviewer availability. Some petitions may be limited to specific offices depending on the petition issues, see above table for appropriate offices. Appointments are not available for petitions to SPS 383 – they are reviewed in order received.
