 - (k) Aiding or abetting the practice of an unlicensed, incompetent, or impaired person or allowing another person or organization to use his or her license to practice as a physician assistant. This provision does not prohibit a Wisconsin licensed physician assistant from providing outpatient services ordered by a physician licensed in another state, if the physician who wrote the order saw the patient in the state in which the physician is licensed and the physician who wrote the order remains responsible for the patient.
 - (L) Prescribing a controlled substance to oneself as described in s. 961.38 (5), Stats.

 - (n) Patient abandonment occurs when a physician assistant without reasonable justification unilaterally withdraws from a physician assistant-patient relationship by discontinuing a patient's treatment regimen when further treatment is medically indicated and any of the following occur:
 - 1. The physician assistant fails to give the patient at least 30 days' notice in advance of the date on which the physician assistant's withdrawal becomes effective.
 - 2. The physician assistant fails to allow for patient access to or transfer of the patient's health record as required by law.

The physician assistant fails to provide for continuity of prescription medications between the notice of intent to withdraw from the physician assistant-patient relationship and the date on which the physician assistant-patient relationship ends, if the prescription medications are necessary to avoid unacceptable risk of harm.
 - 4. The physician assistant fails to provide for continuity of care during the period between the notice of intent to withdraw from the physician assistant-patient relationship and the date on which the physician assistant-patient relationship ends.
