Plain language analysis:

The Radiography Examining Board conducted an evaluation of chs. RAD 2 and 3 to ensure consistency with current licensing and permitting practices, applicable Wisconsin statutes, and standards for drafting administrative rules. As a result, updates have been made to do all of the following:

- Create provisions under ss. RAD 2.04 and 3.065 to implement s. 440.09, Stats., as amended by 2019 Wisconsin Act 143. Section 440.09, Stats., specifies the requirements for issuing reciprocal credentials to service members, former service members, and the spouses of service members and former service members.
- Revise ss. RAD 2.05 (2) and 3.07 (2) to reflect ss. 111.321, 111.322, and 111.335, Stats., which provide the circumstances under which a licensing agency may refuse to license an individual on the basis of the individual’s arrest or conviction record.
- Repeal ss. RAD 2.06 and 3.06, which are no longer necessary as they contain requirements for applications filed prior to March 1, 2012.
- Make other changes to chs. RAD 2 and 3 to ensure consistency with current standards for drafting administrative rules.

Summary of, and comparison with, existing or proposed federal regulation:

None.

Comparison with rules in adjacent states:

Illinois:

Administrative rules of the Illinois Emergency Management Agency establish educational standards and an accreditation program applicable to persons who apply ionizing radiation to human beings (32 Ill. Admin. Code 401). The requirements for accreditation in the practice of medical radiation technology include minimum standards of preparatory education and experience, and examination requirements for certain categories of accreditation.

The Illinois Statutes provide for the expedited accreditation of service members and their spouses (20 ILCS 5/5-715). “Service member” includes a person whose active duty service concluded within the 2 years preceding application for licensure. A license issued to a service member or the spouse of a service member may be renewed.

Iowa:

Administrative rules of the Iowa Department of Public Health specify the permit requirements of individuals who operate or use ionizing radiation producing machines or administer radioactive materials on or to human patients or human research subjects for diagnostic or therapeutic purposes (641 IAC 42). The requirements for each specific class of permit include minimum formal education standards and an examination.

Rules of the Professional Licensure Division of the Iowa Department of Public Health provide for the expedited reciprocal licensure of a veteran or a spouse of an active duty service member (645 IAC 645.20.3). A reciprocal license issued to a veteran or a spouse of an active duty service member may be renewed.

Michigan:

The State of Michigan does not license operators of x-ray machines, nor does it have any requirements relative to the licensure or credentialing of x-ray machine operators except that radiologic technologists who perform mammographic examinations are required by rule (Mich Admin Code, R 333.5630) to be in compliance with the requirements under 21 CFR 900.12 (a) (2), “Radiologic technologists” (2000).

Minnesota:

Although the State of Minnesota does not license individuals who operate x-ray equipment, the Minnesota Statutes provide that an individual may not operate x-ray equipment unless the individual has passed an approved national examination for limited x-ray machine operators (Minn. Stat. 144.121, Subd. 5.).

Summary of factual data and analytical methodologies:

The proposed rules were developed by evaluating and updating chs. RAD 2 and 3 to ensure consistency with current licensing and permitting practices, applicable Wisconsin statutes, and standards for drafting administrative rules.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The proposed rules will be posted for a period of 14 days to solicit public comment on the economic impact of the proposed rule, including how this proposed rule may affect businesses, local government units, and individuals.

Effect on small business:

These proposed rules do not have an economic impact on small businesses, as defined in s. 227.114 (1), Stats. The Department’s Regulatory Review Coordinator may be contacted by email at Daniel.Hereth@wisconsin.gov, or by calling (608) 267-2435.
