RE: Status of SPS 327 in Waushara County's Contracted Municipalities.

Waushara County is the duly appointed agent exercising jurisdiction over the UDC for 1 and 2 family dwellings in most of the municipalities in Waushara County. This is accomplished through a contract with Safebuilt, an inspection agency contracted with Waushara County. A listing of the municipalities that have contracted with Waushara County for this service is attached.

At their regularly scheduled monthly meeting on March 15, 2017, the Waushara County Planning and Zoning Committee voted to opt out of local adoption and enforcement of SPS 327, regulating camping units constructed or placed in campgrounds. It is their understanding that the State of Wisconsin will administer this portion of the code either with their personnel, or with a contract with an inspection agency.

A copy of the minutes of the aforementioned meeting are attached. If you have any questions, or desire additional information, please feel free to contact me at the Waushara County Land Conservation and Zoning Office at the address or phone numbers noted above. Thank you.

Sincerely,

Terri DoppPaukstat
Department Director
