Calumet County Planning Department
Matt Payette, Director
206 Court Street
Chilton, WI 53014-1198

Subject: Plan Review Delegation Request

Dear Mr. Payette:

I'm pleased to announce that your county has been delegated plan review authority under s. SPS Table 383.22-2 (1) per your request. Delegation is limited to POWTS that will completely utilize treatment and dispersal technologies or methods approved under s. SPS 384.10 (2) or (3) or recognized under s. SPS 383.60 (1). Delegation is limited to Non-pressurized In-Ground systems for public and commercial buildings, Mound, At-Grade, and In-Ground Pressure Distribution systems with a maximum design wastewater flow of 1,000 gallons per day. Plans which do not completely meet a DSPS approved component manual otherwise known as "Individual Site Designs" or utilize DSPS approved products must be submitted to the DSPS for review.

The county indicated during the last audit cycle that the POWTS inventory required under Section SPS 383.255, Wis. Adm. Code was not completed and would be complete at some point this year. Please be advised that the department may revoke delegation if the inventory is not complete or if the maintenance program required under the same section is not operated.

Please contact Brad Johnson, POWTS Program Section Chief at (920) 492-5605 if you have any questions and to discuss any training that is needed to successfully meet the objectives of this new delegation.

Sincerely,

Christopher Joch, Administrator
Division of Industry Services
