201 E. Washington Avenue
P.O. Box 7969
Madison, Wisconsin 53707

State of Wisconsin
Department of Industry, Labor and Human Relations

August 31, 1993

DORIS RADITZ, CLERK
VILLAGE OF PADDOCK LAKE, KENOSHA COUNTY
6969 236TH AVENUE
SALEM WI 53168

Dear Ms. Raditz:

I am pleased to inform you that your municipality has been certified in accordance with Wisconsin Administrative Code, s. ILHR 50.21, for commercial building code enforcement. Your municipality will have primary responsibility for review of building and heating plans for all new commercial buildings of less than 50,000 cubic feet total volume and alterations involving less than 100,000 cubic feet volume. Building plans for such buildings that are located within your municipality should no longer be submitted to our agency.

Your municipality has also been authorized per state statute 101.12(3)(g) to provide inspections in lieu of the state for all commercial building projects, regardless of size, in your municipality. However, plan review for projects beyond the certified municipality size limits will still be done by our agency.

An exception to the above is that our agency retains jurisdiction for plan review and inspection authority for all state-owned buildings.

I understand that Mr. Timothy Popanda will be in charge of plan review and inspections. He is currently certified as a commercial building inspector to do this. We do require that inspectors attend DILHR approved continuing education to maintain their certification.

We will begin work on a press release announcing this action so that building designers will know where to submit plans. Our inspection deputy for the area will be meeting with your inspector to discuss our procedures for state inspections in certified municipalities.

The Division of Safety and Buildings looks forward to working with you.

Sincerely,

Marvin J. Roswell
Administrator
