Organization: State License Servicing, Inc.

Comments: Hello,

I would like to ask that the board make it very clear as to whether or not a 3PL may choose to NOT obtain a license and still ship to customers in Wisconsin. The language here (license allowed) differs from the Wholesaler section (license required).

Phar 18.03 Licensure, Renewal, and Reinstatement.

(1)

LICENSE ALLOWED. A person acting as a third-party logistics provider or an out-of-state third-party logistics provider of any drug or device may apply to obtain a license from the board.
